CONGRESS.

SATURDAY, Feb. 10.

SENATE.—Mr. Wilson, Senator from Massachusetts, appeared, was qualified and took his seat.

Mr. Seward of New York, gave notice that he should soon introduce divers bills for improvements in harbors.

Mr. Dodge of Wisconsin presented the resolution of the Legislature of his State, instructing their representatives in Congress to oppose any alteration in the existing Naturalization Laws.

The bill making an appropriation of half a million for improvements on the lakes was taken up.

On motion of Mr. Bayard, of Delaware, the bill to continue the improvements on the lakes was recommitted to the Committee on Commerce, with instructions to report specific appropriations.

Sundry bills were received from the House and referred to appropriate committees, except the bill to divide the State of Illinois into two judicial districts, which was discussed and passed.

On motion of Mr. Morton, of Florida, a resolution was also adopted, calling on the Secretary of the Navy for copies of the agreement made with Messrs. Everett and Brown, and Gilbert and Secor, contractors, in reference to the testing of the Balance Dock Railway and Basin at the Pensacola Navy Yard. Adjourned.

HOUSE.—The House passed the bill appropriating $60,000 for the purchase or building of four additional revenue cutters.

The House went into Committee of the Whole on private bills.

The bill for the relief of Messrs. Moore and Hascall, proposing to *extend* their patent for their harvest machine, was then considered, when the bill was reported to the House, with the recommendation that the enacting clause be stricken out. This was concurred in—yeas 96, nays 34, and the bill was rejected. Adj.

CHICAGO, Feb. 10.—The Prohibitory Liquor Law was returned by the Senate to the House of Assembly, with amendments. The amendments were concurred in and the bill finally passed, yeas 51, nays 17.

Resolutions were passed instructing Senators in Congress from this State to oppose the formation of any slave States in the territories of Kanzas and Nebraska.

CINCINNATI, Feb. 9.—The grand jury has found bills against twenty-five liquor sellers, and are not yet through. They have also indicted the managers of prize concerts.

The Maine Law passed the house at Indianapolis to-day, and is now the law. There was great rejoicing in consequence.

The river is still closed and business extremely dull.

TOLEDO, Feb. 9.—A man named Harrison was arrested to-day for robbing the U. S. Railroad baggage-car of a trunk containing $4000 worth of bank drafts, belonging to S. M. Clark, of New York.

CHICAGO, Feb. 9.—N. C. Roe, cashier of the Phœnix Bank of this city, indicted for forgery, has left for parts unknown.

The liquor bill passed the Senate to-day by a vote of yeas 17, nays 7.

ASSAULT.—On Friday afternoon, about 2 o'clock, Mr. Samuel K. Head was violently assaulted in Howard street, Boston, by a person named Vanderbeck, connected with the Howard Athenæum, knocked down and kicked in the face in a most ferocious manner. His face was very badly cut, and the sight of his eye endangered. The matter grew out of a severe personal newspaper paragraph upon the assaulting party. A warrant was issued for the arrest of the assailant, but he was nowhere to be found.

HORRID MURDER.—The Oregonian records a dreadful murder which occurred near Portland, Oregon, on the 3d ult. A man named Burris, while crazed with drink, murdered his wife and four children, after which he set fire to the house, which, with the bodies of his victims, was consumed. After his arrest he stated that he had killed his wife and all of his children, four in number, to send them to Heaven. He said he had been directed to do so by the Devil, and that he was going to be hung at Hillsborough, and go to Hell.

Hon. N. G. Upham, of New Hampshire, U. S. commissioner of claims in London, arrived with his family in the steamer at New York.

No Sham! No Humbug!

THE Stock of Goods now on hand at the City Sales Room, No. 3 Congress Block, will positively be closed off at a great discount from former prices. The stock is too varied to admit even a partial enumeration; suffice it to say it consists of a great variety of beautiful and useful articles. Please call and see for yourselves.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give the public journalistic skills for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local Interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, AS well as Liver Diseases, Fever and Ague, Biliary Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, slightly fermented, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the cheapest medicine.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the fearful disease Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D. State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. J. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

Save your Gas.

IT is desirable economise in every way the consumption of Gas, and no doubt can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

REALITIES.

BY GEO. G. W. MORGAN.

When I pop sed to my dear 'Bella,
I was a reckless sort of fellow,
For nothing cared a cent;
I only dreamed of love, and joy,
And thought of nothing to annoy,
Most certainly not RENT.

I thought our future life would be
A round of fetes, and dreamed that we
Should always have the power
To live for love, to dance and sing,
And never thought of such a thing
As MEAT, or BREAD, or FLOUR.

That when we twain were bound in one
O care or trouble we'd have none,
But be as happy souls;
The warmth of love would all suffice,
I had arranged ll things so nice,
But never thought of COALS.

But now, alas! I'm wed, I find
These things WILL enter in my mind,
In spite of all my power;
A waking night-mare seems to press
Upon my brain, that wears a dress
Of COALS, RENT, MEAT and FLOUR.

And what the FUTURE may supply
I dare not think, for fear that I
Shall find that THAT still worse is;
A legion fiends arise to view
Each one is crying SOMETHING NEW—
Some "DOCTORS" and some "NURSES."

Claims against U. S. Government

French Spoliations prior to 1800.

THOMAS PEMBER, No. 15 Doane st., Boston, will prepare Memorials, Arguments and Evidence to be presented to any Board of Commissioners established by Congress, either to adjudicate upon the French Spoliation Claims, or any others of a general character. He will also prepare cases for presentation to Congress, and will procure Pensions, Bounty Land, Extra Pay, Remission of Fines, Return of Duties, &c., from the Departments of the General Government.

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING

TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose.—It is as simple in its construction, as cheap, and much more convenient, requiring no stooping to take or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 30 cents per Table. To those owning rights" they will be furnished at cost if desired. CHARLES PHELPS.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PAINFUL URINE, or Falling of the Womb; FLOOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE OF Flooding; PAINFUL, SCANTY, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use, together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain a doubt as to the efficacy of the CHEMICAL CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and have made it my concern to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S CHEMICAL CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered extremely, and at last was entirely disabled from attending to my usual pursuits.

I have given me blue pills and everything else, but my disease still continued. I tried many things I have never used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

LIFE INSURANCE.

"Among all the contrivances of men to protect the family circle from want, none can be found more simple in its character, noble in its features, or certain in its results, than Life Insurance. It is the prop which the dying husband leaves to support the wife of his bosom. It is the unseen hand of the provident father, reaching forth from the grave, and still nourishing his offspring, and keeping together the family group. By it, the faithful son protects his aged parents, even where he has preceded them into eternity; through it the honest debtor satisfies his confiding creditor, when fate seemed least propitious. In a moral and worldly sense, it is one great weapon by which to rob death of his sting.

"Let any husband, father, son, ask himself, 'If I were to die to-night, would those who are dear to me be safe from the pangs of want? Would these children have a comfortable home, and the means of education?—Would this wife be independent of the cold charities of the world? Would this aged and feeble parent be provided for? Would my estate pay my debts? Would there be no sacrifice of property by forced sales of an administrator to meet the demands of creditors—sales made when the market tends downward, and fair prices cannot be realized?' How few can answer these questions to their satisfaction? They fear to ask them, and cherish the belief that they have a long lease on life. This is both foolish and cowardly. The brave man looks the danger in the face, that he may grapple with it; the wise man, that he may study its nature and palliate its threatenings. The means of palliation are at hand, of easy access to all—it is Life Insurance.

"Young men just starting in business, whose chief capital is their energy and integrity, should insure their lives to the amount of half their liabilities. Such an act of disinterested honesty, when known to their creditors, would justly increase their confidence in them. It would show that they did not wish to leave their best friends exposed to any avoidable contingency; and the annual premium might fairly be regarded as the tribute which an upright heart pays at the shrine of justice.

To the Editors of the Boston Daily Advertiser:

CORRECTION.—I have seen in some of the city papers a notice of the ejectment of a very "poor woman," with "four children, two of them twins but two weeks old." I am inclined to think it but just to our good citizens, famed for their benevolence, that a few facts within my own personal knowledge should come to their notice. The woman is a drinking person with a lazy husband. They came, as they say, from Augusta, Me., and took lodging in a room with a woman quite noted for "drink and noise," who also has a husband. The "landlady" knew nothing of the arrangement. On Monday last, the woman having been out, came in nearly drunk, and began a quarrel with her accommodating host, which resulted in being put into the entry with her children and "effects." She had paid no rent, spending all the money which she obtained from the benevolent, for drink. The watchman for Half Moon Place took them, and they are now safely lodged in a house in Adams street, Ward 3, with $25 in money and a nice outfit for the rest of the winter. They never asked aid of me.

E. T. EASTMAN,
Overseer of the Poor for Ward 7.

9 Summer street, 8th Feb., 1855.

A correspondent of the N. Y. Crusader, says, that Sam Houston talks of resigning his seat and retiring from public life, on account of a religious change that leads him to loathe politicians—that his mind is continually troubled, too, by the idea of Predestination. Probably Sam would feel better, if he could come to a firm belief that he was predestined to be the next President of the United States. —*Newburyport Herald.*

WATER IN LEAD PIPE.—Cases are ocurring constantly which go to prove that water which has stood any time in lead pipe, is rank poison. Several members of a hitherto healthy family in Baltimore, having recently died, one after another, an investigation into the cause was instituted, which showed that the parties were slowly poisoned, in consequence of drinking water which flowed through a long lead pipe; that it was the action of the water upon the pipe that gave its poisonous qualities. People should be seasonably warned in relation to these facts. We know persons who are suffering from a like affliction, which has caused paralysis of the throat, the jaws, the eyes, and various parts of the body. What is called lead poison is a most dreadful enemy to the human system.—*Ex.*

WEDNESDAY, FEBRUARY 14, 1855.

WASHINGTON NEWS.

The special correspondent of the Boston Advertiser, says, under date of Washington, Feb. 12:—To-day there was a rumor that the President had signed the French Spoliation Bill, which arose from the circumstance that a message was sent by the agent having it in charge to Mr. Clayton, stating that the President would send it in to-day. This has not been confirmed, but the hope that it will be signed is reviving. Mr. Cushing's influence is strongly in favor of its approval.

The rank of Lieut. General will give Gen. Scott about thirty thousand dollars back pay, and about sixteen hundred dollars additional yearly salary.

The statement that the relations between Mr. Sumner and the new senator, Mr. Wilson, are not cordial, is quite unfounded.

JOHN MITCHELL'S ADVICE.

John Mitchell, the rescued Irish exile, who a short time ago wished he had a plantation of well-stocked negroes in Alabama, writes to the N. Y. Citizen the following reasonable advice to Irishmen and Catholics. Read it and ponder, citizens of New Hampshire!—

"For every musket given into the State Armory, let three be purchased forthwith; let independent companies be formed, thrice as numerous as the disbanded corps—there are no Arms Acts here yet—and let every foreigner be drilled and trained, and have his arms always ready. For you may be very sure, (having some experience in that matter,) that those who begin by disarming you, mean to do you mischief.

"Be careful not to truckle in the smallest particular to American prejudices. Yield not a single jot of your own; for you have as good a right to your prejudices as they. Do not, by any means, suffer Gardner's Bible (the Protestant Bible) to be thrust down your throats."

He says:—

"It is hardly to be conceived that the madness of faction and the insolence of race, will proceed to such a length as to disarm independent companies, or private men. If they do, then the Constitution is at an end—the allegiance you have sworn to this Republic, is annulled."

He then says:—

"This senseless feud must be reconciled:—there must be peace: peace, or else a *war of extermination*. We are here on American ground, either as citizens, or as enemies."

The Lowell Journal, which has always opposed the American Party, upon this says:—

This advice amounts to this, "Arm yourselves, and be ready, if the Americans don't govern their country to suit you, to conquer their majority with armed forces; I mean *votes*, not *muskets*. Above all things cherish your bigotry, and don't let them educate your children for fear the latter will read "Gardner's Bible!"

When such advice is given openly to foreigners in this country, will Americans say that there is no need of the American Party? "A humbug, fanaticism, useless, foolish, without adequate cause," is the cry with which the American Party is opposed. They would make us believe that the evils of foreign influence, of which all of us have complained, and which nobody has denied for years, are phantoms. Does this bold advice of John Mitchell look like it? Are the Philadelphia and the Newark riots not realities? And when we have reached the point where foreigners in our borders store arms as did Cataline and Cethegus, how far are we from the Manlian camp? When defiance is thus flaunted in the face of Americans, how many nights are we from St. Bartholomew?

It is in the face of such overwhelming facts as these, and such impending evils, that the people of New Hampshire are appealed to with the miserable expedients of party discipline. The people are moving to remedy a giant and accumulating evil; but a few pensioned organs and a few paid agents attempt to hedge their path with the trampery of cliques and parties. The people, not of New Hampshire alone but of the country, have now an opportunity to settle for once and for aye, the question of foreign and Catholic aggression. If through disunion, or petty jealousy, or pusillanimity they fail to meet the exigency, what is the field before them?—They are left a truckling and subservient race upon their own soil. Esau sold his birthright cheap, but Americans will sell theirs cheaper, and will become a by-word for cowardice and degradation, if they permit a foreign element to shape their policy, and foreign troops to organize upon their soil.—*Manchester American.*

REDUCING R. R. EXPENSES.—Much complaint has been made of late by the stockholders in railroads in the vicinity, or the great increase in expense, which has been in part explained by the enhanced cost of wood, oil, labor, &c. Still some were disposed to believe that there were unnecessary leaks which might be stopped. The other day a manager of one of our railroads met a grumbling stockholder, and with some exultation remarked that he was retrenching. He had, he said, cut off two thirds of their advertising. You might as well cut off your own head, was the sour reply, and the parties separated.—*Boston Traveller.*

Prof. Chas. B. Haddock, formerly of Dartmouth College, but more recently U. S. Charge d'Affaires at Portugal, has returned to the residence of his wife's father, in West Lebanon. He brought home with him the remains of his son, who died abroad, we understand. Prof. H. delivered an interesting discourse to the people of West Lebanon, last Sunday week, and brought tears to many eyes by his affecting narrative and reminiscences.

Mayor Wood has forbidden the Erie railroad to land pigs and drive them through the streets, on Sunday—a day he says, "sacred to other objects."

LOCAL.

For the Chronicle.

PUBLIC BUILDINGS.

Woodland seems rather hard pushed to find objections sufficient to offset the advantages that would be derived from placing the Court room, City Hall, High School rooms, and the City rooms, all under the same roof, and on the lot previously mentioned. As soon as the two new streets are opened—the one proposed on the easterly side of the Court House, and the continuation of the other through the field of Rev. Dr. Burroughs, to Auburn street—both of those streets will be retired, entirely free from all the bugbears that Woodland speaks of as being so frightful.

I would also recommend that the city authorities examine the lot, have a plan drawn of a building sufficiently large for all the purposes above described, and a sketch of the cost: have it laid before the citizens at our next annual town meeting, and then act agreeable to the wishes of the majority.

CITIZEN.

We approve of the design to have new High School Rooms somewhere;—and hope that by all means we shall have good, substantial, pleasant, convenient buildings, in an agreeable and tasteful style of architecture. We have, however, no annual Town Meeting, where the citizens can do any thing of legal force, except mere voting on the choice of officers, without a special act of the Legislature.

All such things as raising money, and building school houses, belong now, to the City Council, and not to the people. We have ceased to be a Town Democracy, and have become a City Republic.

If the several Wards, or Towns, in our City, see fit, with or without articles in their warrants, to request the City Government to build School Houses,— no doubt it would have a moral effect. And so would a similar request made by a General Town Meeting, which may be called according to the Charter. But neither of these bodies can have any legal powers, nor can raise a "ninepence" by taxation, nor spend the ninepence after it is raised, without the action of the Council.

PUBLIC BUILDINGS.—*Messrs. Editors:*—We have been pleased with the interest that has been again aroused in reference to our Public Buildings, and more particularly the High School Rooms. But we hope that "Citizens" suggestion in Saturday's Chronicle will not be acted upon—for the following reason:—One of the principal objections to the present Female High School room, was thus stated by ☞ in the Chronicle of Jan. 25:—"Its *immediate contiguity to the court room* renders it a highly improper place; and every good citizen, who is acquainted with the locality, will find this suggestion commending itself to his better judgment." Citizen seems to have entirely forgotten this, and advises that the Court Room, Male High School and Female High School, should be all on the same floor. Rather sell the Court House, and build an ornamental, convenient building on this site, for the High Schools *only;* and have the city and county offices on some other street. The best situation for them that we have seen suggested as yet, is at the corner of Daniel street, near the Post Office. R.

Portsmouth, Feb. 12, 1855.

A preacher in one of our pulpits on the last Sabbath took for his text, the passage—"No man can come unto me except the Father which hath sent me draw him, &c."—and his remarks in substance were, that this inability was not absolute but only in the same sense in which we should say of a person addicted to lying, that he cannot tell the truth; or of a person of intemperate habits, that he cannot refrain from the use of liquor, &c.

His remarks further showed that notwithstanding this seeming inability, there did nevertheless exist, *the ability*, and in illustration of this he related an anecdote which is worth preserving. He said that in journeying to this place in the cars, a man at one end of the car in which he sat took out a flask and took a draught from it; after which he offered it to a negro gentleman who sat on the same seat with him. Upon this the negro gentleman started up as if attacked by a wild beast, and springing over the seat found a place in another part of the cars. This movement attracted the attention of the passengers towards the man who had "the bottle," who soon rose up, went outside of the car, and broke it on the platform, thus demonstrating fully his "*ability*" to avoid the drink, tho' before he *seemed* unable, and perhaps *felt* so.

HEARER.

☞ The third of the Old Folks' Concerts in Exeter, is advertised to come off on Tues. day evening, Feb. 20th. We, with others who were active in carrying on the Old Folks Concerts in Portsmouth, are indebted to our friend, J. T. Gordon, Esq., the leader of those in Exeter, for an invitation to attend their second entertainment—which compliment was received about three days *after* said concert was over, having been four days on the road.

If the sleighing don't all evaporate, or get buried too deep, and the thermometer don't go too far below zero on the 20th, "may we be there to see."

KANSAS LEAGUE.

The Portsmouth Branch of this Society was formed on Monday evening, Feb. 12.—Rev. Wm. C. Clark is appointed President. The design is, by co-operating with the Massachusetts Society, to protect emigrants from fraud, and to aid them in a comfortable settlement.

The 4th article of the Constitution provides that

It shall be the duty of the Secretary to receive and keep the names and residences of all persons desirous of emigrating to Kansas; to agree upon the time and manner of their departure, and to confer with the Trustees of the Parent Society in Boston in regard to the same. He shall be the official organ of communication, both of the Society and of the Trustees.

The Secretary is WM. B. LOWD, No. 6 Market street, who will attend to the above business, and give the necessary information.

A GOOD LECTURE.—*Messrs. Editors:*—I would like to call the attention of your readers to the notice of Miss Holley's lecture for next Sunday evening. All who listened to her earnest appeals in behalf of the slave, on the occasion of her former visit to Portsmouth, will, without doubt, be gratified to know that she is again to come among us. It may not be generally known here, that Miss Holley is a daughter of the late Myron Holley, of western New York,—a devoted christian philanthropist, whose name is well known. We think that all who attend her lecture will have occasion to feel that their time is well spent.

LAUNCH OF THE SANTEE.—We are informed that the frigate Santee will be launched on Friday next at high water—about 12 o'clock, should the weather be favorable.—The ship was commenced in 1821—and was nearly ready for launching when work was suspended. In the six steamship bill of the first session of the present Congress, an appropriation was made to complete her—with some alteration in shape. She has been lengthened about 15 feet; and will now probably be one of the fastest ships in the navy—as she was always considered of superior model. The Santee is a double deck or 44 gun frigate of about 2000 tons.

☞ At a meeting of the Stockholders of the Portsmouth Gas Light Co. held on Tuesday, the following persons were elected Directors for the ensuing year:

James W. Emery, John Knowlton, Benjamin Cheever, Thos. L. Tullock, Portsmouth; M. C. Burleigh, Somersworth.
David Kimball, *Treasurer.*

☞ Rather a larger audience than usual assembled on Tuesday evening at the Temple to hear Mr. Wendell Phillips: but after waiting till half past 8, they quietly dispersed—as the orator, having imprudently taken passage in the last train from Boston, had not arrived.—The train arrived at about 9 o'clock.

HARRISBURG, Feb. 12.—The democratic members of the legislature met in caucus tonight, twenty-six in number, and nominated Chas. S. Buckalew, of Columbia, for U. S. Senator. The whigs in caucus, eight in number, nominated Thos. Williams, of Alleghany. The caucus of the know-nothing bolters, thirty-three in number, is still in session, and the feeling is intense. The result, to-morrow, is looked upon as uncertain, and efforts will be made to stave off the election.

ANECDOTE.—It is often made a subject of complaint that Ministers of the Gospel participate in political matters. An anecdote of a Rev. Mr Field, who lived in Vermont several years ago, contains a good reply. As the reverend gentleman went, on a time, to deposit his vote, the officer who received it, being a friend and parishioner, but of opposite politics, remarked:

"I am sorry, Mr. Field, to see you here."
"Why?" asked Mr. F.
"Because," said the officer, "Christ said his kingdom was not of this world."
"Has no one a right to vote," asked Mr. F., "unless he belongs to the kingdom of Satan?"

On Wednesday of last week, Miles Root, of New Canaan, Conn., mistook a pitcher of alcohol for one of water, and swallowed half a pint with a dose of peppermint, which he took for a pain in his stomach. He died.

Politics in New York are all thrown into *pi* again and new names are adopted, among which the most popular is "Hindoos," a party which carried the election in Palmyra last week. The Hindoos are the regular Know Nothings.

The Greatest Medical Discovery of the Age, is
AYER'S CATHARTIC PILLS.
They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. R. PRESTON. J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m f1 d&w

Cornell's Primary Geography.
ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.
The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lessons—and nothing more.
The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.
CORNELL'S INTERMEDIATE GEOGRAPHY, AND
CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:
Are in Press and will shortly appear.
Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed; they thus form a system, whose rules may be briefly comprehended in the five words, "one thing at a time."
Teachers and others are invited to call and examine the above at the Bookstore of

FROM CALIFORNIA.

NEW ORLEANS, Feb. 12.—The steamship Prometheus has arrived at this port, with California dates to Jan. 24. The steamship Northern Light left San Juan 6th, for New York, with 200 passengers and $600,000 in gold.

Twenty-two ballots had been taken for a U. S. Senator, but without any choice.

The markets were dull and tended downward.

FROM OREGON.—We have dates from Oregon to Jan. 13. The Utah Indians had attacked and murdered five whites near Orleans. U. S. troops had gone in pursuit of them. A general war with the Indians is expected, as they are numerous and well armed.

FROM MEXICO.—The steamship Orizaba arrived here to-day, with dates from Mexico to the 5th, and Vera to the 8th. A provisional government has been established at Acapulco, with Gen. Alvarez at the head, until the arrival of Caballos. Gen. Bahamuras was confident that Santa Ana would be shot by the rebels.

Gen. La Vega will relieve Gen. Woll of the command at Matamoras.

The revolutionists at the Isthmas of Tehuantepec have declared in favor of Alvarez and Caballos.

A new revolution is talked of in Yucatan, and the arrival of the Kinney Expedition was favorably looked forward to.

CONGRESS.

MONDAY, Feb. 12.

SENATE.—The resolution of Mr. Houston, of Texas, calling upon the Secretary of War for information respecting Fort Leavenworth, was agreed to.

Mr. Jones, of Iowa, presented a memorial from the Legislature of his State, relative to an overland mail and telegraph line to California.

Mr. Sumner of Massachusetts presented a petition from certain citizens of Providence, praying that arbitration may be made the treaty stipulation for the settlement of national disputes; also one from citizens of Worcester, in relation to the prohibition of slavery in the territories.

Mr. Sumner introduced a bill to secure the wages of seamen in case of wreck.

Mr. Seward of New York, pursuant to notice, presented eight separate bills for the improvement of lakes and harbors. Referred to the committee on commerce.

The bill for refunding duties on goods destroyed in the great fires was passed. The bill authorizes the Secretary of the Treasury to remit the duties on goods in unbroken packages which were destroyed by fire between 1838 and 1854.

The bill establishing a District Court in California was called up and passed.

The bill fixing the salaries of Supreme Court Judges was called up by Mr. Petit of Indiana.

The Salary bill was passed without amendment.

The Indian Appropriation bill was taken up.

Pending the discussion of the various amendments to the bill, the Senate adjourned.

HOUSE.—The House adopted the resolution, that for the remainder of the session, all remarks in debate shall refer strictly to the subject under discussion.

The House passed the Senate joint resolution conferring the title of Brevet Lieutenant General upon Gen. Scott.

Mr. Giddings of Ohio failed in an effort to introduce a resolution of thanks to Gen. Winfield Scott, for his services in the war of 1812.

The House passed the bill establishing an additional land district in Wisconsin.

The House refused to suspend the rules so as to allow Mr. McDougall, of California, to introduce a bill authorizing the establishment of an express mail between St. Louis and San Francisco.

The House considered the joint resolution to fulfil the stipulations in the treaty of 1819, between the United States and Spain. It directs the Secretary of the Treasury to pay to persons entitled to receive the same, the full amount of damages decreed by territorial and district judges of the United States for losses in East Florida. The amount included is over $1,000,000.

Without concluding the subject, the House adjourned.

New Boot and Shoe Store,

NO. 12 DANIEL STREET,
Portsmouth, N. H.

THE undersigned would respectfully announce to the citizens of Portsmouth and vicinity that they have entered into copartnership in the firm name of
JOHN BUZZELL & CO.,
Have taken the Store in Daniel street, formerly occupied by Mr. E. A. Stevens, and stocked it with a good assortment of

BOOTS AND SHOES

Of every description, which they offer to the public at as low prices as they can be purchased for in Portsmouth or elsewhere. They also have in connection with their Store a manufactory of Boots and Shoes, and are prepared to make to order any description desired, in the best manner, and on the most liberal terms. Determined to merit, they hope to receive a fair share of public patronage. JOHN BUZZELL,
WM. H. FERNALD.

The subscriber takes this opportunity of presenting his compliments to his many friends in Portsmouth and vicinity, and respectfully soliciting their patronage in his new position, pledges himself to use every endeavor to serve them satisfactorily. During his experience of twelve years in the business he has labored to serve faithfully all who have entrusted their orders to his care; and trusting he has earned a reputation for fair and honorable dealing, he will strive in future to merit and retain it. Every article sold at the Store, where it will be his pleasure to serve his friends and find new ones, shall be as represented, or if it shall prove otherwise the money shall be refunded, or entire satisfaction given. Please call and try us. Very respectfully,
Feb. 7. JOHN BUZZELL.

PORTSMOUTH

ART UNION.

PHILIPP WENZEL proposes a SECOND
EXHIBITION AND DISTRIBUTION
OF
PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—
varying in price
From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember—no disappointments—each Ticket-holder gets a splendid Picture.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that set or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George H. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the tempestuous and fickle climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. R. Peck, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. J. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong. from Pa.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING

TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, more convenient, requiring no stopping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and descriptions, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 50 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOUR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, or IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with testimony from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URANIA CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and have induced them to accept as agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URANIA CATHOLICON which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered extremely, and at last was entirely disabled from attending to my usual pursuits.

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 57 Mill street.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

POVERTY AND SUFFERING.

Those who read the papers, have seen much about the poverty, suffering, and want of employment in New York city. They have read, also, that when the municipal authorities of that city offered those who applied for alms, employment on the Erie Canal enlargement, many of them refused to work. These are the men who hold indignation meetings in the Park, and demand aid, pretending they can get no work. The most of them are mere imposters, who prefer stealing and begging to working; and the city should deal with them in a summary manner.

The idea that an industrious and healthy man, with common sense, cannot support himself in this country, is preposterous. Yet such are often met with, even in Portsmouth, if we may take their ipse dixit for it. We have no sympathy for these mendicants, a large portion of whom are foreigners. When an American goes about begging, he is almost invariably a drunkard, and spends whatever is given him for rum. An Italian beggar is usually lazy, and had rather live in an old garret and beg for his bread, than to earn it by the sweat of his brow.

In this cold portion of our country, a man has to labor hard *enough* to maintain himself and family, and if called on to give alms to foreign loafers and native drunkards, will have to work *very hard* to be able to do both.

A woman who is unfortunate enough to marry a poor vagabond who spends all his time and money in dram shops, is much to be pitied: if any one deserves and needs charity, it is she. There is another class of women that are *not* over and above deserving. We mean those who go about with a long account of the eruption of Mt. Vesuvius, or some other volcano, which they pretend destroyed all their property and killed their husbands. We have read many of the certificates handed us by these vagrants, out of mere curiosity; and in a number of cases were astonished to find, that although the woman had an infant in her arms, her husband had been dead five or six years.

A large proportion of the poverty and suffering in this city, arises, directly and indirectly, from the use of intoxicating liquor. No intelligent person who ever took the pains to inquire into the matter, can for a moment doubt it. Why, then, should the miserable creatures who spend their last dime for rum, expect the public to furnish them bread?—Were it not for their families, many more of them than do, would reside at the Alms House; but as long as they can get a few coppers to buy liquor with, on pretence of getting something for their suffering families, they will stay at home to beat their wives and children. If people really wish to benefit the poor, they should not give money to wandering beggars, or to drunkards; but should either see it distributed themselves, or put it in the hands of some person who they know will make good use of it.

THURSDAY, FEBRUARY 15, 1855

PATRIOT vs. METCALF.

The Daily Patriot is down upon Mr. Metcalf, the K. N. nominee for Governor. It accuses him of inconsistency, treachery, corruption and perjury.

The Patriot copies the letter of Messrs. Colby, George and Durkee, with Mr. Metcalf's answer,—and then remarks:

The first thing in regard to this correspondence that will strike the intelligent reader, is the open, direct and palpable violation of their oaths by each of the parties to it. They all belong to the know nothing order, on joining which they took a solemn oath that they would not reveal the existence of the order, nor its objects, nor the name of any member. Now in this correspondence these four gentlemen have directly violated their oath in these particulars. * * *

The next thing in the correspondence that will arrest the attention of those familiar with our politics, is the names of the committee appointed to notify Mr. Metcalf of his nomination. And who and what are they? We would not utter a word in disparagement of the personal character of either of these gentlemen. Two of them we know well, and regard them as our personal friends. We shall speak of them *only* as politicians; and in that character they are the very best representatives of the party whose organ they are. We do not believe there could be found in the State three men who are better exponents of the elements composing the amalgamation arrayed against the democracy at this time.

It strikes us that when we say a man violates his oath, we utter something against his character. The Patriot don't seem to think so; but we do, nevertheless.

What is said here by the Patriot, about the K. N. Oaths themselves, seems incredible. We don't know how to believe that such great numbers of such men as are said to belong to the lodges, could ever hope to keep such a lot of secrets. It is certainly not possible to keep them; they are not kept; we read the names of their candidates, their committees, their governor's acceptance, and his platform.—There seems no great secresy about the matter; and the oath of secresy, must now be an extra-judicial farce, whatever it might be in the first place. But the N. H. K. N. ticket is a strong one; and the Patriot is leaving no stone unturned to defeat it.

FRENCH CLAIMS.

WASHINGTON, Feb. 13.—To-night the impression is again general and decided that the French Spoliation bill will be vetoed.

We still hope to see it signed by President Pierce; for though only an act of simple justice, and tardy and imperfect at that,—yet the performance of it now would cause the blessings of many ready to perish, to fall upon him.

GEN. WILSON IN THE SENATE.—The Evening Gazette has the following despatch from Washington:

WASHINGTON, Feb. 10.—When Gen. Wilson, the new Senator from Massachusetts, came into the Senate to-day, Mr. Clayton, Whig Know Nothing, got him into a vacant seat on the whig side of the Senate. Messrs. Sumner and Chase made a desperate effort to get him into the Freesoil locality. Matters were finally compromised by Mr. Wilson taking Mr. Atchison's vacant seat alongside of Sam, Anti-Nebraska Know Nothing.

Our Senate is getting to be like a happy family, of mice and puppies, kittens and juvenile rats. The "good time coming" may be expected when Congress meets, next winter—or it may come sooner, if President Pierce should call an extra session. This is hardly to be expected.

ELDER PIKE.—The Dover correspondent of the Boston Herald, writes as follows respecting the American candidate for Representative to Congress, from the first New Hampshire district. We publish at the request of a correspondent.

Last Sabbath a large portion of the members of both Know Nothing Councils, had the pleasure of an introduction to Rev. Mr. Pike, the Native American candidate for Congress in this district, through the medium of the pulpit of the Methodist church. The Rev. gentleman is a fair speaker, and preached a good, honest, practical discourse, with but little brilliancy of effort. At its close he fervently exhorted all his hearers to enter the ark of divine safety while the anchor was yet unweighed. He did not intimate, of course, that she was advertised to sail, wind and weather permitting, the second Tuesday of March. We must congratulate the Know Nothings on their shrewd cunning in thus introducing their candidate to the public.

BIDDEFORD A CITY.—The voters of Biddeford had a meeting last Saturday afternoon to decide upon the acceptance of the city charter. The vote was Yeas 697, Nays 80. The day was bright, and good order characterized this last *town* meeting of our neighbors. Now comes the tug for mayor and aldermen, and soon the new city will be inaugurated.—*Saco Democrat.*

The first escape from the new Boston Jail, was made on Sunday night, by Lyman M. Paine, arrested for forgery, who sawed off the bars of his window, and let himself down on the outside. He is now at large. His sister has been arrested for furnishing him with the dining knife from which he made the saw.

[Since retaken and carried back to jail.]

NEWPORT.—The administrationists called a meeting at that place on Thursday the 8th, which was addressed by Messrs. Duncan and Harriman. Edmund Burke was present and addressed the meeting in opposition to Messrs. Duncan and Harriman, and denied certain of their statements. In reply to a remark of Mr. Harriman that Gen. Pierce was elected to the Presidency unsolicited by himself, Mr. Burke drew from his pocket a letter which Gen. Pierce addressed to him soliciting his aid in securing the nomination. The discussion continued on both sides until 4 o'clock in the morning. Before the adjournment Mr. Burke presented a resolution repudiating the administration of Franklin Pierce, the Concord clique and all its adjuncts, which passed by a large majority.

This is copied from the Manchester American, which adds:

This was done in a Democratic meeting, and is but an instance of the honest democratic feeling throughout the State. Thus are the poor wire-pullers and runners of Congress murdered in the houses of their friends.

The facts in the first extract, we may suppose are correctly stated. But the inferences in the last extract, must be taken with the usual allowance made for the language of opponents. The regular, or administration democratic party in New Hampshire do not now consider the Free Democrats and Old Guard to be any Democrats at all,—but mere barbarians fit to be cast out into outer darkness, among whigs, abolitionists and Know Nothings.

P. S. The Patriot of Monday gives another account of the matter, saying:

No resolutions were passed, and none were offered of any description. The only foundation for the story is this:—At about half past four o'clock in the morning, when there were but a few people remaining, and most of those Burke's whig and abolition body-guard, Burke asked them whether they approved of the administration; and a dozen of them responded according to instructions. * * * *

The meeting was large, and the opposition had rallied their forces with a view to control it. After Messrs. Harriman and Duncan had spoken in a very able manner, and much to the satisfaction of the Democratic portion of the audience, Edmund Burke delivered a long and bitter harangue against the administration and the Democratic party, and assailed the previous speakers in a coarse and characteristic style. He was replied to by them, and got such a dressing from Mr. H. as he will not like to receive again in public. Burke had got as many whigs, abolitionists and know nothings as he could to be present, so he had the pleasure of being shown up in his true colors before his friends. The discussion was kept up till half past four o'clock in the morning.

On the whole we conclude they had a very interesting season;—but why not do up their talk in the day-time?

THE CONCERT OF THE OLD FOLKS.—There was great glory at the New Hall last evening. The snow storm held up just in time to permit an audience, that would have gone any way, to go with more comfort; and the Hall was filled. The Old Folks were in their best trim, musically speaking, and the sound of the dulcimer and the lute, of timbrels and cymbals, went up together with the sound of voices long since retired before modern tricks, and on strains such as, for aught we can say, Cotton Mather sung to retreating witches, or the Puritans to the rocks upon Plymouth coast. We utter the universal opinion and say that it was the most entertaining concert of the season. Let us have more of them.—*Manchester American, Saturday.*

DANGEROUS.—A bottle of Prussic Acid, which everybody knows is a deadly poison, was accidentally broken and spilled over a crate of turkies on the way to this market yesterday, on the N. Y. Central railway. The owner of the turkies, unconscious of the disaster disposed of them to dealers in this city, but, fortunately, was seasonably warned by a physician of the nature of the accident which had befallen them, and managed to recover all but about sixty pounds, which he believes to have been stolen. There may be "poetic justice" in the unfortunate thief, unless he happens to steal a newspaper, and be warned in time.—*Portland Ads.*

ELECTION OF UNITED STATES SENATOR POSTPONED.—HARRISBURG, Feb. 13.—The joint committee met to day for the election of United States Senator. One hundred and thirty members were present. The necessary number for a choice was 66—Cameron had 58, Buckalen 28, J. P. Jones 2, balance scattering. On the second ballot Cameron had 59. A motion to postpone the election for two weeks prevailed—yeas 67, nays 64.

CALIFORNIA SENATOR. — WASHINGTON, Feb. 13.—By a private despatch from New Orleans, we have the result of the 22d ballot for United States Senator in the California Legislature, which was as follows:—Edwards, Whig, 36; Gwin, Democrat, 37; McCorkle, Dem., 13; Broderick, Dem., 12; McDougall, 5; Latham, 4; Burnet, 1. All the ballots were about the same.

NEW ORLEANS, Feb. 11.—Twenty-six business houses in New Grenada, Mass., were destroyed by fire 4th inst., entailing a loss of $163,000. Insured for $50,000.

At Troy, Miss., 8th inst., 3000 bales of cotton were consumed by fire.

PORTLAND, Feb. 12.—The engine house and repairing shop of the Grand Trunk Railway, at Gorham, N. H., was destroyed by fire this morning. Eight engines, which were in the house, were saved. Two engines in the repairing shop, the Casco and Gloucester, were destroyed, together with the tools. Loss not precisely known. The buildings cost $5000, and the tools $10,000.

The Cincinnati people are in trouble. A South Carolina lady obtained the place of school mistress in an academy there, and into which a colored boy sought admission but was refused. Legal measures are talked of.

HIGH SCHOOL ROOMS.

Messrs. Editors:—I am glad to find the matter of New School Houses under discussion, because the Schools and scholars suffer every day for want of better accommodations.

There is one building, which strikes me as peculiarly suitable in its size, structure and location, for the Girls' High School,—which I know can be purchased, and which could be fitted for the use of the School in a less number of days, than the number of months which would be required to erect a new building.

Allow me to suggest that the Hanover Street Chapel, to which I refer, is located in the centre of a large and increasing population; is surrounded by ample play grounds and ornamental gardens, fronting on two streets, so that light and air are secured on every side. The nearest building on one side is the Advent Chapel; on the other, the dwelling of a good family. The trees and shrubbery around the building, make it a beautiful spot in the Summer; and the building is light, airy and convenient.

The alterations needful on the inside would be merely to remove the pulpit, organ, and perhaps the settees, and to insert proper chairs and desks.

There are ample recitation rooms, and almost every convenience in and about the building, for the Girls' High School, and for a small girls' school beside.

The City is now paying $150 annual rent for the basement of this building.

HANOVER.

COURT OF COMMON PLEAS.

The Court of Common Pleas for Rockingham County, assembled at Exeter, on Tuesday morning, Feb. 13. Hon. Charles H. Woodman, Presiding Justice. Prayer was offered by Rev. Joseph Angier, after which Judge Woodman delivered his charge to the Grand Jury. The remainder of the morning was occupied in calling the docket.

TUESDAY, Feb. 13.

No. 14, Thomas F. Pierson vs. Angier M. Hobbs, was the first case that came on for trial. A nonsuit was ordered. Wood for plf. Marston and Shapley for deft.

No. 32, George Janvrin vs. John J. Scammon, is now on trial. This is an action of trespass. The parties reside in Stratham. The plff. seeks to recover damages of the deft whom he alleges committed trespass by cutting down his fence. Wood and French for plff.; Mrrston for deft.

LAUNCH OF THE SANTEE.—Com. Smoot has sent us the following notice of the launch, with which we correct our time, lest any one should be disappointed.

"High water on Friday next, at 40 minutes past 10 o'clock; at which time we anticipate launching the Frigate Santee."

☞ At an enthusiastic meeting of persons of all parties, in favor of American principles, held on Wednesday evening, Hon. Horton D. Walker was unanimously nominated as their candidate for Mayor of this city, to be supported at the coming March election.

KANSAS LEAGUE.

The Portsmouth Branch of this Society was formed on Monday evening, Feb. 12.—Rev. Wm. C. Clark is appointed President. The design is, by co-operating with the Massachusetts Society, to protect emigrants from fraud, and to aid them in a comfortable settlement.

The 4th article of the Constitution provides that

It shall be the duty of the Secretary to receive and keep the names and residences of all persons desirous of emigrating to Kanzas; to agree upon the time and manner of their departure, and to confer with the Trustees of the Parent Society in Boston in regard to the same. He shall be the official organ of communication, both of the Society and of the Trustees.

The Secretary is WM. B. LOWD, No. 6 Market street, who will attend to the above business, and give the necessary information. f14 1w

THE PIONEER'S DAUGHTER, by Emerson Bennett—is a stirring story of frontier life, and of Indian Warfare and Captivity. Those who like to read Indian stories and border tales, cannot fail to read it with interest.—150 pages; price 50 cts.; for sale by Federhen & Co., Boston; J. P. Morse, Portsmouth.

A "TELEGRAM."—The Rochester American says the following despatch went through by telegraph about a month since:

"Charlie and Julia met at S——'s yesterday—quarrelled and parted forever—met again this morning, and parted to meet no more—met again this morning and were married."

Shocking disclosures are being made in New York, showing that rascality has been reduced to a perfect system, poor emigrant women, strangers in the city, being the principal victims.

Charles Chappel, of New York, is on trial in Savannah, for dressing up a female slave in bifurcated garments, and persuading her to run off with him.

Ex Gov. Morton, was admitted to communion in the Episcopal Church in Taunton, Mass., on the 4th inst. The sacrament was administered by his son-in-law Bishop Lee, of Iowa.

In "old Kentucky" the whigs talk of making no nomination, being apparently satisfied with the American party.

"Old Folks" Choir.

AGREEABLY to adjournment, the Old Folks' Choir will meet at Exchange Hall on Saturday Evening, Feb. 17th, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, and business. Others acquainted with the old music, are invited to join the choir, at the above time and place.

Per order. J. P. PAYSON, Sec.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. R. PRESTON, J. H. TRACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m f1 d&w

ONE-WEEK LATER FROM EUROPE.

ARRIVAL OF THE ASIA.

HALIFAX, Feb. 14.—The steamship Asia, from Liverpool, 3d inst, arrived this morning.

The resignation of Lord John Russell was followed by that of the entire Ministry. Up to the latest moment no new Cabinet had been constructed. Lord Derby had been summoned by the Queen to form a new Ministry, but his efforts had been unsuccessful.

Affairs in the Crimea remained much as they were, and there had been no fighting of importance.

Provisions quiet at about previous rates.—Breadstuffs—transactions moderate. Wheat and Flour, were somewhat easier, with a declining tendency. Corn is lower.

NEW YORK, Feb. 14.—The steamship Crescent City has arrived, bringing Havana dates to the 8th inst. The British men-of-war were in port.

WASHINGTON, Feb. 14.—There is a most tremendous outside influence being brought to bear upon the President, to induce him to sign the Spoliation Bill. It is understood that the Cabinet are divided, four in favor and three against it.

CONGRESS.

TUESDAY, Feb. 13.

SENATE.—The credentials of Messrs. Seward of New York, and Yulee of Florida, as Senators for six years from the 4th of March next, were presented and placed on file.

Bills for the improvement of certain harbors, were referred to the Committee on Commerce.

Mr. Douglas of Illinois presented the House bill for a subterranean line of telegraph to the Pacific, merely granting the right of way.—The amendment was concurred in, and the bill passed.

The Senate bill for the better protection of life and health on board passenger ships, was recommitted to the Committee on Commerce.

The Indian Appropriation bill was taken up.

A general and desultory debate ensued, during which Mr. Rusk, of Texas, from the Committee on Post Offices and Post Roads, reported a bill to carry out the last annual recommendation of the Postmaster General, as to the greater security of valuable letters by registry thereof.

Bills making appropriations to continue public buildings in Oregon and Minnesota; to construct military roads in the territories; for a territorial road in Nebraska; and to provide for the accommodation of a U. S. Court in Maryland, and a Post Office in Baltimore, were passed.

Bills from the House were taken up and appropriately referred.

Mr. Stuart of Michigan moved to go into executive session, but it appearing that no quorum was present, the Senate adjourned.

HOUSE.—This being the day set apart for the consideration of business reports by the Committee on Naval Affairs, Mr. Bocock of Virginia introduced a bill providing for more efficient discipline in the Navy.

The bill passed, yeas 116, nays 46. The bill completely remodels the naval system, providing punishments for misdemeanors, and rewards for the faithful discharge of duties, establishing a new rate of compensation during absence, and defining the powers of Court Martial, and the cases upon which they may be called.

The House went into Committee of the Whole on the bill for the construction of seven steamships of war, four to be built at Government yards, and three by private contract, appropriating $1,000,000 for the purpose.

Mr. Bocock of Virginia advocated the appropriation on the ground of a necessity for an increase in our navy, and there being a surplus in the Treasury which might become a prey to speculators.

Mr. Sollers of Maryland made an allusion to the Know Nothings obtaining possession of the government after a season. His remarks were drawn out by some observations of Mr. Bocock.

Mr. Seward of Georgia thought it would be best to make the appropriation for the improvement of harbors at the South, to accommodate our present vessels.

Pending the debate, the committee rose and the House adjourned.

CHICAGO, Feb. 12.—Advices from Omaha city to the 30th ult., state that both houses of the Legislature have passed a bill locating the capital of Nebraska at Omaha city, and the governor had signed the bill.

The Chicago and Mississippi Railroad is open.

St. Louis papers of various dates are at hand, and contain fearful accounts of sufferings in the lower divisions of the Illinois Central and other railroads. Trains were entirely buried in the snow, and the passengers in a state of starvation. The thermometer fell to 30 degrees below zero, and cars were burned to prevent the passengers from freezing to death.

The weather here is now quite moderate, with a slight fall of snow.

The Legislature will adjourn on Thursday, 15th inst.

NEW YORK, Feb. 12.—In the matter of the claim of the Sunday Despatch, for the sum of $90 and interest, for the insertion of certain advertisements, which was resisted on the ground that the contract was a violation of the Sunday law, Judge Roosevelt, in the Circuit Court, to-day, sustained the defence, and ruled that the money could not be recovered in any court in this State.

Theodore H. Gray, who created considerable sensation here a short time since, by throwing vitriol over ladies' dresses, &c., was to-day discharged, on the ground of insanity.

OF
PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture.—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—
varying in price
From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember—no disappointments—each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and
P. WENZEL, Congress St.
Portsmouth, N. H., Jan. 19, '55.
P. S.—Persons out of the place, may secure Tickets by enclosing the money in a letter, prepaid. j19 3mtf

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their natnre to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study of wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lessons—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND
CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:
Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The Series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstores of

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it. In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrill Lyndeborough, a skillful Physician of N. H. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of uncommuted gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of testimonials with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

READ the following notice from a distinguished Clergyman:—

"We are not accustomed to laugh outright, or be convulsed with laughter, when we have never found it more difficult to restrain our risibilities than while perusing this most ingenious satire; and yet with all its comical, diverting, and laughable scenes, the most solemn, important and instructive lessons are inwoven in every page.—Youth should read it—parents, teachers, preachers everybody."

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 30 cents per Table. To those owning "Rights" they will be furnished at cost if desired.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
70 State st., opposite Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1836) determined to present advantages, in applying for Patents, superior to those offered by Inventors themselves, or made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the without a fee through the Patent Office, by days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correspondence of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy of more rapidly and faithfully putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE WIVES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in the worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

No. 8 GATE OF THE SEA, Sixth street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered extremely, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take a pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

MR. METCALF'S LETTER OF ACCEPTANCE.

[Below will be found the correspondence between Mr. Metcalf and the committee selected to notify him of his nomination.]

FEB. 5, 1855.

HON. RALPH METCALF:—*Dear Sir,*—The undersigned, a Committee appointed for that purpose, have the honor to inform you that at a convention of delegates of the American party held at Manchester on the 30th ult., you was nominated as the Candidate of that party for the office of Governor at the next election. It gives us pleasure to assure you of the entire unanimity of the convention which put you in nomination, and of the cordiality and confidence with which your name has been received by the people of New Hampshire.

With sentiments of high personal regard, we have the honor to be very respectfully,

Yours,

ANTHONY COLBY,
PAUL R. GEORGE,
RUEL DURKEE, } *Committee.*

NEWPORT, Feb. 8th, 1855.

TO ANTHONY COLBY, PAUL R. GEORGE AND RUEL DURKEE:—

My Dear Sirs,—Your favor of the 3d inst., was duly received, wherein you inform me that I have been put in nomination by a Convention of Delegates of the American Party as a candidate for Governor at the next election.

I feel grateful to the Convention for the honor thus conferred upon me and the confidence reposed in me, and to you also, gentlemen, for the kind and cordial manner in which you have conveyed to me the notice of my nomination, and of your personal desire that I should accept it.

The party nominating me I believe to be truly American, based upon American principles, to be carried out and sustained by Americans alone; and that the time has come when it is inexpedient and even dangerous to entrust the control of, or even a participation in, the administration of our National or local Governments to those of foreign birth, who must necessarily be ignorant, in a great degree, of the nature and character of our Republican Institutions, and who mostly profess a religion at the head of which stands a foreign potentate, and the spirit and influence of which is wholly incompatible with them.

The facilities with which foreigners may become naturalized by our laws, and with which frauds may be committed, seem to render a revision of them necessary.

Believing such views to be in full accordance with those of the American party, I accept the nomination thus tendered me, and will give my aid in sustaining and promoting its principles, whenever and wherever I can do so.

I am well aware there are other questions of importance now agitating the public mind, upon which it may not be improper for me on this occasion to express my opinion. I allude in particular, to the subject of slavery and the cause of temperance.

I am decidedly opposed to the further extension of slavery. I deem the Missouri Compromise, so called, to have been a solemn compact between the free and the slaveholding States, and as solemnly and morally binding upon both, as treaties are binding between foreign nations; and that the passage of the Kansas Nebraska bill, so far as it repeals that Compromise, was a violation of the compact and a great wrong upon the free States, and that they will be fully justified in not yielding an acquiescence therein, and in insisting upon its unconditional restoration.

In relation to the temperance question, I am convinced that some more efficient law than we now have for the suppression of the unlicensed sale of Spirituous Liquors, is necessary, and at all times, I would most readily co-operate with the friends of such a measure in the passage of any law, (Constitutional of course,) that would promote so salutary an object.

I have the pleasure to be, Gentlemen, with great respect, Your friend and servant,

RALPH METCALF.

The Detroit Advertiser states that fourteen passengers by the Underground Railroad, crossed the river at that point a few days since, and adds that no less than 1,382 have crossed into Canada from the same point since the first of May last.

The Chinese are a queer people to go to market. A friend at Canton writes that a neighbor of his had just laid in his winter's provisions—a hind quarter of horse and two barrels of bull dogs.

FRIDAY, FEBRUARY 16, 1855.

PUBLIC OPINION IN MAINE.—The Saco Democrat contains an able article against the Republican party in that State, which it deems a mere abolition party; and especially condemns the introduction of the "prohibitory law," as a part of the Republican Creed. The following is an extract:

"Favor to 'a Prohibitory Liquor Law' is really no foundation at all for a distinctive political party in Maine. We have had a prohibitory liquor law for three years. It neither owes its origin nor continued existence to any distinctive political party. It was enacted a first and second time when the democratic party had majorities in the legislature; the first law was vetoed by a democratic governor; the second was signed by a democratic governor; and the last was signed by a whig governor. The law came into existence by means of the prevailing temperance sentiment in all political parties of the State; and it has been sustained by the same sentiment."

We copy this, as valuable and reliable testimony. We know the editor of that paper as a strict tectotaler in principle and practice; a friend of the Maine law and a supporter of the regular democratic party.

His testimony frees the law from some falsehoods which have been heaped upon it, in respect to its being a measure got up by or for any particular party.

A Mr. B. W. Richmond writes a letter to the New York Tribune, in which he states that a change is going on in the atmosphere, which will result in a period of terrible and universal disease. But for the drouth last summer, he says that America would now be one vast hospital. The numerous earthquakes of the past year in Asia and America are a proof of this great atmospheric change. Our present drouth is to be followed by a succession of long and severe winters and wet and cold summers, and during the seasons to come, for nine years, we may look for more sickness among the human race.

This Richmond prophet, or geologist, or whatever he is, has doubtless some favorite theory. Whoever happens to outlive the nine years, may see how facts support his theory. In the mean time let nobody be frightened out of his propriety. If our friends the Time-ists, among the Advent brethren, are right, then Br. Richmond is on the wrong scent.

But cool, sober, thinking men, who believe the Judge of all the Earth will do right, have full confidence in his wisdom also, and are not to be disturbed by any such augaries.

A RICH EXTRACT.—The Eastern Argus "commends the following extracts from the remarks of Rev. Dr. Cox, a venerable and highly respected Presbyterian clergyman of Brooklyn, N. Y., at a recent meeting in that city, to the careful consideration of ministers":

Some ministers of the Gospel known to us, have on their death beds mourned in agony, when they saw their time gone, and their strength squandered, and no good done, and no blessing realized, as the result of that great hoax of the devil, ABOLITION, in which they were criminally betrayed, and self-allowed to be led captive at his will. More such penances and attritions are getting mature for observation and for record. It is time for the wise to retreat, while they may, and be at better business. Some wise observers have thought and said, that abolitionism has done more to de-christianize the pulpits and the churches of New England, than in the time was ever effected by Socinianism itself. If this be true, let ministers, especially some of them, tremble.

If the ministers, "especially some of them," who know the Rev. Dr. Cox, don't laugh at this trash, instead of trembling, we have greatly mistaken their character.

Senator Butler, one of the most ultra slaveholders in South Carolina, has been invited to deliver one of the course of anti-slavery lectures in Boston. He declines.—*Newburyport Herald.*

Quite a mistake is made, not only in this paragraph from the Herald, but elsewhere, as to the name and design of these lectures.

Their projectors and managers call them Lectures on Slavery, not against it; and they invited men of note, cherishing every known view of the subject, on purpose to have it fully canvassed. It is a pity that Senator Butler could not give to a Boston audience his view of a matter so important.

Bishop O'Reilly has addressed a note to the Post, positively contradicting the rumor which has been repeated in many papers that Bishop Rese, of Detroit, was imprisoned at Rome by order of the Pope.

By whose order was he imprisoned? Or, was he not imprisoned at all? We are willing to believe the contradiction, if we only knew what it amounts to.

☞ A correspondent gives us a list of the articles composing a pot pie, which was made on board the frigate Constitution, at Port Mahon, in 1821, for a Christmas dinner:—151 turkeys, 50 lbs fresh pork, 40 lbs salt pork, 1 bushel onions, 5 lbs pepper, 1 1-2 bbls flour and 50 gallons of red wine.

Spiggles recommends that the members of the Massachusetts Legislature abandon all foreign drinks and confine themselves to *sage* tea, an article of domestic production, which may make them wiser.

FALLING OFF AT THE STATE PRISON.—Rev. P. Brockett, the Chaplain of the Connecticut State Prison, has furnished the Norwich Examiner, by request, with the following facts in respect to his congregation:

Whole number now in confinement,	181
Wh le number committed from Aug. 1, 1853 to Jan. 31, 1854,	33
From Feb. 1, 1854 to July 31, 1854,	31
From Aug. 1, 1854 to Jan. 31, 1855,	26

It will be noticed that the commitments for the last six months are nearly one-quarter less than for the corresponding period of the previous year.

Mr. Brockett adds:—"Most of those who were received before the liquor law went into operation, acknowledge that their crimes were committed while they were in a state of intoxication. Those that have come for the last two months, appear generally, so far as I can learn, not to have been intemperate men, but bank robbers, pickpockets, &c., on whom the hard times have had an influence."

The State Prison is not much of a test, in so short a time. The common jails are much more to the purpose. We have a small chapter of these on hand for future reference.

ARREST OF A "CONFIDENCE MAN."—We learn that an individual was arrested on Saturday, at Bath, Me., the particulars of whose roguery in this city appear to be as follows:

Some six months since, a well dressed individual giving his name as Calvin Townsend, visited the jewelry store of Messrs. Bigelow Brothers & Kennard, in this city, and after examining sundry articles, made a small purchase. Soon after Mr. Townsend, or as he has sometimes been called, "Dr. Townsend, Lecturer on Phrenology," &c., made a second visit to the same store, under the ostensible purpose of exchanging the articles previously purchased by him. The clerks, as is their wont, showed the "Doctor" attention, and used their best endeavors to suit his fancy or taste to such articles as he desired.—Townsend made repeated visits to the store, under one pretence and another, until at length articles of value were missed, and information of the fact was given at the office of the Chief of Police.

The result then was, the arrest of Townsend, who, as now appears, feigned excessive intoxication, and upon his person, and traced to his possession, were found three diamond rings, valued respectively at $150, $120, $103, and about $1,000 worth of other articles of jewelry, consisting of diamond rings, diamond pins, gold chains, &c., comprising in all seventeen pieces of jewelry, thirteen of which were found at a pawn-broker's shop in this city, and all of which were identified as the property of the above named firm.

At this time, from circumstances peculiar to the case, and by the proper authorities deemed sufficient, no complaint was made against Townsend, and he was discharged from custody. Subsequent developments in regard to Townsend's proceedings, induced Deputy Chief Ham, about ten days since, to take hold of the matter, and he had the satisfaction of learning on Saturday of Townsend's arrest by the City Marshal of Bath. Mr. Ham will proceed to Bath to day.

During the past ten days, Mr. Ham has recovered about $400 worth of jewelry, supposed to have been stolen by Dr. Townsend, in addition to that recovered at the time of his arrest, when, as it now appears, he feigned intoxication.—*Boston Journal.*

DESTRUCTIVE FIRE IN PORTLAND.—On Wednesday night about half-past ten, a fire broke out in a wooden building in the rear of Union street, owned by St John Smith, Esq., and occupied by Winslow & Co. as a stable, which was entirely consumed with its contents, consisting of seven or eight horses, (one of which belonged to Emery & Waterhouse) harnesses, &c. No insurance on contents.

The Museum building owned by J. G. Myers, and occupied by William B. English, for Theatrical entertainments; Norcross & Co., Eating House; S. Roberts & Son, Grocers; Stanstead & Chamberly Railroad office, was entirely consumed. Insurance on building, $4,000; Mr. English had $500 on his effects. There were two houses in the rear of, and connected with the Museum building, both of which were consumed.

The wooden houses on each side of the Museum were badly crushed by the falling walls.

The stable and barn of Mr. Allen on Cross street were consumed, and his house was badly damaged. Insurance $1,000.

Several small houses between Union and Cross streets were burned. They were occupied by Irish and owned by Martin Gore, Esq.

Two young man named Willey and Stackpole, (drivers for Winslow & Co) were badly burned, while attempting to rescue their horses from the flames.

The origin of the fire is unknown.—*Argus.*

KANSAS LEAGUE.

The Portsmouth Branch of this Society was formed on Monday evening, Feb. 12.—Rev. Wm. C. Clark is appointed President.

The design is, by co-operating with the Massachusetts Society, to protect emigrants from fraud, and to aid them in a comfortable settlement.

The 4th article of the Constitution provides that

It shall be the duty of the Secretary to receive and keep the names and residences of all persons desirous of emigrating to Kanzas; to agree upon the time and manner of their departure, and to confer with the Trustees of the Parent Society in Boston in regard to the same. He shall be the official organ of communication, both of the Society and of the Trustees.

The Secretary is WM. B. LOWD, No. 6 Market street, who will attend to the above business, and give the necessary information.

TO PRESERVE DEAD GAME.—Take out the intestines, and fill the inside with unground wheat, and place the fowl in a heap or cask of the same grain in such a manner as to insure its being completely covered. In this way, fowls may be preserved perfectly sweet for months. The feathers should be removed.

LOCAL.

LEGAL DECISION.

We have perused the Legal Opinion and Decision of our Superior Court, nominally on the contested case of Beck *vs.* Hanscom, in relation to the office of city marshal, but really, on the question, whether the majority of our board of aldermen possessed the legal power to defeat all elections, by refusing or neglecting to go into convention after a vote to do so.

The opinion, as clearly expressed by Judge Gilchrist, is, that they had no such power. He decides that our City Charter and amendments require a Convention as the duty of the two bodies; that when the Aldermen had voted to go into Convention for a certain purpose, at a certain time, they had no business before them but that Convention and its duties at that time; that no individual had or ought to have the power, by neglect of duty to delay and defeat business in such a way; and above all, that no officer or public servant ought to be or can be suffered to take advantage of his own wrong or neglect.

The decision clearly establishes and declares the legality of our City Council's elections this year—and thus settles the construction of the Amended Charter.

For the Chronicle.

CITY BUILDINGS.

Messrs. Editors:—I perceive that E., in Tuesday's Chronicle, considers the situation of the female high school room, proposed by Citizen, as being highly improper. But I beg leave to repeat that the plan proposed by Citizen was to remove the present Court House, open the two streets mentioned, and erect a building sufficiently long, even should it extend from street to street, for all the purposes before named.

The Court room and City Hall would be entered from Court street; all others would be entered on the street to be opened on the easterly side of the Court House, each department having for its use a back yard, separated by a fence so high as to satisfy E that no criminal, lawyer, or other man attending Court, shall be allowed to look into his neighbor's yard.

Should they happen to be seen in Court, or any other street, I would remind E that criminals are attended by other persons, to and from the Court, so that no harm could possibly come to the boys or girls from this cause

This plan would save much expense in the purchase of land, and in the extra cost that would arise from building separate buildings. A more retired and safe place for buildings, could not be found in the city.

E proposes to have the Court room, City Hall, and City buildings on the lot opposite the Post Office. A fine place to huddle criminals, lawyers, city officers, boys, girls and ladies, who are continually going to and from, and standing about the Post Office—teams passing in every direction, every thing on the whirl. A fine place this for public buildings, other than the Custom House.

I shall be pleased to have any writer show a better place than the one proposed. But all such plans should be investigated and sifted by those who are capable of taking into view all the bearings of the subject.

From many original but crude plans, let us, with sound judgment, select the best.

CITIZEN.

For the Chronicle.

CITY BUILDINGS.

Citizen, in the Chronicle of Wednesday, thinks we were hard pushed to find objections to his plan of having the City Hall, Court room, High School rooms, and City rooms, all under the same roof. We gave in a previous article, what we considered sufficient reasons for not adopting such a plan; but as Citizen is still unsatisfied, we will give him two more. First, his proposition to have a number of buildings united in one, is unpopular, and therefore impracticable: second, the location he chooses—where the Court House now stands—is not so good for a City Hall and rooms, as the site of the brick market. The old market building might be extended so as to admit of a City Hall sufficiently large, and the City rooms.

The Pleasant Street Society would sell their Church for a reasonable sum, and if purchased by the city it could easily be made to accommodate both the High Schools, or a number of primary schools. If the city buys the Church, of course the cellar now occupied by the Girls' High School, will be vacant; and it can probably be turned to some account as a store-house.

WOODLAND.

☞ We are pleased to notice the arrival of the ship Frank Pierce at Boston, commanded by our friend Capt. Joseph H. Leach. The speed of his passage has been quite unusual for this season of the year. A passage of thirty days from Liverpool, with an unusually heavy freight, and drawing over twenty feet of water speaks well for the perseverance and skill of her young commander.

☞ This forenoon is the time fixed for the launching of the Frigate Santee.

☞ JESSE MANN, Esq., of Bath, N. H. will deliver an address on the Principles of the Great American Party, on Monday evening next, at the Temple. Ladies and gentlemen are invited to attend.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Box cures derangement the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

CONGRESS.

WEDNESDAY, Feb. 14.

SENATE.—A communication was received from the Secretary of the Navy relative to the improvement of navy yards and docks. Referred to the Committee on Naval Affairs, and ordered to be printed.

Mr. Bell of Tennessee, from the Committee on Naval Affairs, made a report, accompanied by a bill for paying $25,000 to the captors of the British brigs Detroit and Caledonia, during the war of 1812. He then argued the propriety of the bill, and asked unanimous consent for its consideration.

On motion of Mr. Hunter of Virginiia, it was laid over.

Mr. Dawson of Georgia pressed the bill in relation to the District of Columbia, as being the special order for 1 o'clock to-day.

Mr. Hunter of Virginia asked the consideration of the Indian Appropriation bill.

Mr. Pratt of Maryland did not believe that the citizens of Washington had one measure passed for their benefit during the present Congress.

Mr. Gwinn of California said he should introduce as soon as possible, the Pacific Railroad bill, which was of much more consequence than appropriation bills for local matters.

A motion was made to postpone the consideration of the Indian Appropriation bill, and take up the District of Columbia measure. Negatived, 28 to 15.

The Indian Appropriation bill was then taken up.

HOUSE.—Mr. Hunt, of Louisiana, from the Committee on Military Affairs, reported a bill appropriating $125,000 for the purchase of a site and for the erection of military defences, at the termination of the Mexican Gulf Railway, Louisiana.

Mr. Murray, of New York, from the Committee on Printing, reported a resolution, which was passed, ordering the printing of 120,000 copies of the agricultural part of the report of the Commissioner on Patents, for the use of the members of the House, and 10,000 copies for the Commissioner; and also that there be printed 20,000 copies of the mechanical part of the report—one half for the use of the members, and one half for the Commissioner. A resolution was also passed providing 10,000 copies of Com. Perry's report of the Japan Expedition, for the use of members, and 500 for Com. Perry. A resolution was also passed to print 10,000 copies of the surveys for a railroad to the Pacific, including those of Col. Fremont.

The Speaker announed that the pending question was on the adoption of the resolution to close the debate on the bill authorizing the construction of seven steam sloops of war.

In five minutes after going into committee on the bill, Mr. Houston of Alabama moved to lay the resolution on the table.

Mr. Bocock of Virginia said if this bill was not taken up now it could not pass, and he would regard the resolution as a test question. It was laid on the table, 108 to 66.

In reply to the question as to what had become of the bill, the Speaker said it was pending in committee.

The House then resumed the consideration of the resolution to fulfil the stipulations of the ninth article of the treaty of 1819 between the United States and Spain.

After some debate, the bill was tabled, and the House adjourned.

HONESTY.—The Rochester Democrat says that a runaway slave named Boyd, who formerly resided in that city, fled from the country at the time of the passage of the fugitive slave law, and went to Australia. At the time of his departure he was $200 in debt to a Rochester merchant. He was successful in Australia, earned $8,000, and a few weeks since forwarded a letter to his creditor in Rochester, enclosing a draft for the amount of the debt.

FATAL ACCIDENT.—On Wednesday, Feb. 10th, Mr. Hubbard Kendall of Gardner, was at work with his son in the woods, when, having sawed off a pine tree, the butt slid from the stump and caught his thigh, crushing it shockingly, and cutting off the principal blood vessels, so that he bled to death in about 20 minutes. Mr Kendall was a highly respectable and worthy citizen, and has left a wife and eleven children.

At a social circle, a few nights since, a lady asked a lawyer "why coal was like a celebrated law book?" He thought there could be no doubt of its being "Black stone." "But," said the lady, "we burn Coke also." "True," replied the gentleman," but at most of the coal yards you get a very Little ton."

The Hamilton (Canada) Spectator of Thursday, says:—"We have heard that one of the brakemen on the morning express train was found frozen stiff, and stuck at his wheel.—The corpse, upon the train stopping at the station, fell to the ground."

STATE OF MAINE.

At a Court of Probate, holden at Saco within and for the County of York, on the first Monday of February, in the year of our Lord eighteen hundred and fifty-five, by the Honorable JOSEPH T. NYE, Judge of said Court:

ON the petition of Josiah Remick, Administrator of the estate of EPHRAIM WITHAM, late of Kittery in said county, deceased, representing that the personal estate of said deceased is not sufficient to pay the just debts which he owed at the time of his death by the sum of eleven hundred dollars, and praying for a license to sell and convey so much of the real estate of said deceased as may be necessary for the payment of said debts and incidental charges:

ORDERED, That the petitioner give notice thereof to the heirs of said deceased and to all persons interested in said estate, by causing a copy of this order to be published in the Chronicle, printed in Portsmouth, State of New Hampshire, three weeks successively, that they may appear at a Probate Court to be holden at Biddeford in said county, on the first Monday in March next, at ten of the clock in the forenoon, and shew cause, if any they have, why the prayer of said petition should not be granted.

PHILIPP WENZEL proposes a SECOND
EXHIBITION AND DISTRIBUTION
OF
PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—
varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember — no disappointments — each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and

P. WENZEL, Congress St.

Portsmouth, N. H., Jan. 19, '55.

P. S.—Persons out of the place, may secure Tickets by enclosing the money in a letter, prepaid. j19 1omtf

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lesson—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND
CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:

Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the classes for which it is designed. The Series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of

JOS. H. FOSTER.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give while facts and reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Dyspepsia, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual remedy to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and for which it is unsurpassed, quite as the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

SINGULAR IF TRUE.—An exchange paper relates the following curious particulars of an accident which it declares to have occurred a few days since upon the Cheshire railroad, as a freight train was coming down from the north at full speed:

"Without any previous intimation, the middle car of a train of some forty, suddenly jumped from the track, uncoupling itself fore and aft, and rolled over and over down a steep embankment. The cars following closed up the gap, and the train proceeded nearly a mile without the accident being discovered. On returning to the spot, the missing car, which contained seventeen head of cattle, was found pretty well smashed up, but only three of the cattle killed. The balance were more or less injured, but not so much as to prevent their being sent to Brighton market and sold; and they have ere this, doubtless, lined the stomachs of some of our fat city gourmands."

IMPORTANT IMPROVEMENT

—IN—

Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines *for sale* or *use*, to examine for themselves this, *much grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clap boards, in a very superior manner, without *tonging* the *thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

JAMES A. WOODBURY.

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Sly Rail and Swivel now in use for that purpose, is simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circular and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished with a discount from the retail price, which is 20 cents per Table. To those owning "Rights" they will be furnished at cost if desired.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, opp. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can best only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of securing their application in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended to be used, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cured or exceeded) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from hundreds of celebrated Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON in Female Complaints, I state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of a Female Complaint of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. *I suffered extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . . It has given me more relief than anything I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

NEWS FROM PORTLAND.— The Portland Advertiser of Feb. 14, says,—

H. G. Cole has closed his house on Federal Street, advertised his lease for sale, and posted on the door the following notice:

THIS HOUSE CLOSED.

NO RUM SOLD HERE!!

"Maine Law has not effected this change."—A sense of duty to my fellow men, and the evils of INTEMPERANCE alone has done this. H. G. COLE.

Feb. 10th, 1855.

We believe Mr. Cole was in jail 14 days for a breach of the Maine law: but it seems he was converted by moral sussion, after all.

ROMAN AND MODERN ROADS.—In many things the world has made no progress, as the excavations of Egypt and Pompeii attest. There are no roads in the world now that will at all compare with those of ancient Rome. Even our best street pavements hold no comparison with them. The Appian way, which was made three hundred years before Christ, ran from Rome to Capua, about 140 miles, and part of it was through the Pontine marshes. Nine hundred years after its construction, it was described by Procopius as showing no appearance of waste or ruin. It is described as composed of large square blocks of freestone, so well fitted as to show no joint, thus looking like one stone. The bed underneath was broken stone, grouted with cement. Parts of this road are still sound and bid fair so to remain.—*Phila. Ledger.*

Julius.—Sam, did yer know I and massa Wilson jined de no nuffins 'bout de same time?

Sam.—No, Julius, I nebber was knowin to de facks.

Julius.—Yes, sir; know all 'bout his gowin to Congress and how he play'd de cards to git thar.

Sam.—What game did he play?

Julius.—"Shoemaker low"—he waxed both ends, kep de ace back, took de tricks and lew'd de party.—*Boston Post.*

Mr. Ray, Jr., a watchmaker at Sainte Austerberthe (Seine Inferieure) has discovered a means of repairing the bells of churches, when cracked, without the tedious process hitherto considered indispensable, of recasting them. The operation is said to be very simple, and does not necessitate the removal of the bell from its place.

A little boy going to church on Sunday last, remarked:—"Ma, there goes a woman with a hat on; and, oh see, mother, she's got boots on too!" "Oh, no, my son, you are mistaken; it is only a *gentleman with a woman's shawl on*," replied the mother.—*Manchester Mirror.*

The London Watchman mentions the sudden death, *in his pulpit*, of the Rev. Joseph Beaumont, D. D., one of the most popular ministers of the English Wesleyan Church.

Dissolution of Copartnership.

THE Copartnership heretofore existing between the subscribers, under the firm of E. F. Sise & Co., is this day dissolved by mutual consent.

All persons having demands against or indebted to the firm will call for settlement at the old stand. *JOHN WALKER, WILLIAM H. SISE, JOSEPH SISE.*

Portsmouth, N. H., Jan. 31, 1855.

Copartnership Notice.

THE subscribers have this day formed a Copartnership under the name and style of E. F. Sise & Co., for transaction of the CROCKERY WARE, COAL AND COMMISSION BUSINESS, at No. 75 Market Street, Merchants' Row. *WILLIAM H. SISE, JOSEPH SISE.*

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above mor'hlies is $1 per year.

SATURDAY, FEBRUARY 17, 1855.

NOT A BAD TAKE OFF.

In the Boston Mail of Saturday the following appeared. As many friends and foes of the "acceptor" may be curious to see it, we publish it.

NEWPORT, (N. H.,) Feb. 6, 1855.

Gentlemen of the Committee, &c.—I have the pleasure of acknowledging the receipt of your communication informing me that I have received the nomination of the American party, as candidate for Governor of New Hampshire at next election. I accept that nomination.

With respect to my eligibility to that distinguished office, you are the best judges. It would be much more unbecoming in me to deny the wisdom of your selection, than to decline the compliance with your wish, to state, generally, for the information of the councils of the American brotherhood, the grounds on which that preference must securely rest.

1st.—*My experience in office*, is one very excellent security why I could fill that of Governor with honor and profit to myself. Having held almost every other situation in State and county, my training has been such, I flatter myself, as to specially qualify me for the gubernatorial dignity.

2d.—*My ambition* is another reason why I should accept your proffered candidacy. Having now arrived at that stage of life when senility flourishes in its greatest perfection, I am much more plastic in my nature, and more easily moulded to the schemes and tricks of the designing, to all of which I will yield ready compliance—conditioned, however, that I am made Governor. My heart yearns for the position. My conscience says—"secure it!"

3d.—*My tried devotion to American principles* is a very prominent one among the reasons you have had for nominating me; I know that much, although you neither say so, nor even infer a hint as to that fact. I have been a member of our Holy, and Secret Order, *for at least three weeks*, (that is to say from the very moment I passed the years of discretion,) and am ready to drink any quantity of champagne, (I mean shed the last drop of blood in my veins,) in defence of its principles. Long familiarity with their governing features has exhibited to me the Jesuitry of the Democratic party in my dearly beloved Granite State; and, particularly, has engraved on my heart the emphatic sentiment that within the Democratic ranks, the age of old fogy influence has passed away, and second childhood is no longer a gubernatorial qualification.

4th.—*My Christian forgiveness* peculiarly fits me—you will readily perceive—for the honor you design me to ultimately assume. I have called Edmund Burke a d—d villian, and believed the statement when I made it. I have done so in conversation and in writing, within a very few weeks; but now, gentleman, *I forgive him*—and, I furthermore declare that he is not exactly such a villian, politically, as I called him. He is my dearest friend, and will be so until I die, provided he lives so long, and I am elected Governor. Otherwise, and until the proper time comes, I will withhold my sentiments as to the exact amount of political villany Mr. Burke may be justly and uncontrovertly charged with. Moreover, have I not forgiven my master traducers, Tappan of Bradford and Cragin of Lebanon, who, in the most inveterately mean manner describable, induced the Democratic party to rob me—*me*, one of its then ornaments (as I may yet desire to be,) of my justly earned, and trebly enormous charge for assisting in codifying the Pamphlet Laws of New Hampshire. When you consider, gentlemen, that a man who labors to reduce my purse, makes me for ever afterwards his most deadly and implacable enemy, you will admit that my skill in forgiving is only equalled by the soundness (and the present necessity,) of such an act of policy. I revere the talents of both the gentlemen named. Both are good temperance men, and equally fond of a glass of brandy with myself—and Heaven knows I am no Maine Law Saint! I assure you it yields me unfeigned pleasure to learn from your letter that the Rev. Mr. Jackson, and the Temperance men of the State, fully approve my past conduct as a disciple of Total Abstinence; and that they thoroughly agree with me in the policy of favoring the Maine Law, and opposing its execution. Glancing at all the above circumstances and blending of heretofore disassociated brotherly feeling, I will recommend in my first Address an alteration in the Constitution of the State, so that the section which provides that "Misery hath strange bed-fellows'" shall read—"Ambition hath singularly vagrant associations during nocturnal hours." Dy'e see the point?

5th.—Concerning NIGGERS, which is a DARK subject, I have to say that I cordially join you in making *that* kind of agitation useful for present purposes. You may tell the Freesoil members of the Order, that it will be my earnest endeavor, to emancipate every bootblack in the State from the slavery of toiling for a living, and recommend a State tax in order to support them and their harems, as missionaries within the State, for the propagation of American sentiment, and the practical illustration of good morals. You may insinuate to Fogg of the Independent Democrat, that a commissionership in connection with this reformative process may be demanded, and his "*mutton*" may be secure in the same connection. Should that not suit, hint at an Inspectorship of "*Wool*," as his proclivities (it is universally known) are "*sheepish*." Let the Scott whigs know that I am up to the hub a freesoil whig of the General's stamp—*all but* the "RICH BROGUE," and the glorious "GERMAN ACCENT." Inform the Webster whigs that I am for States rights to the death; and to all of them say that, so long as the breath of life animates my body, no Pope shall reign in New Hampshire.

Regarding State Policy, I am in favor of my election to the gubernatorial chair; and to the extinction of Nat. Baker. I am in favor of removing the capitol to Manchester, or Portsmouth, or Exeter, or Newport, *or* Meredith Village, or Littleton, or Conway, or Tamworth. I believe in the glorious doctrine of putting down Butterfield of the Patriot, and making the Portsmouth Chronicle the State organ. Its conduct and principles are the most Know-nothing of anything I can think of. I agree to make every effort to secure the office of Secretary of State for Abbott of the Manchester American, and to constitute John P. Hale and my beloved friend and former implacable foe, Edmund Burke, Senator in Congress—on condition, however, that I *do* nothing either way until I assume the gubernatorial chair. What ever other prostitution of my official situation you may deem it best to promise in my behalf, do so. With assurances of my elevated consideration, I am gentlemen,

Your expectant and fidgetty servant,
and devoted fellow laborer in secrecy,
at present, and hereafter,
(provided I am elected,)
RUFUS METCALFE.

To the gentlemen of the Committee, }
appointed to notify, &c., &c. }

The compliment for the Chronicle may be taken "over the left," or over the right, as the reader pleases. Many a true word has been spoken in jest, however. The Chronicle, perhaps, may be turned into an Organ or something as musical, when Satan's Kingdom tumbles down, as the Patriot prophecies it will next month. And when Sam gets to be President, there's no telling but he may send Uncle Toby to London, make him keeper of the great guns at the Navy Yard, or instal him Commodore of the Dry Dock, and chaplain in ordinary to the Revolutionary Pensioners. He can't say he expects all this, or any of it;—but stranger things have happened.

JUDGE LORING REJECTED.—At an adjourned meeting of the Board of Overseers of Harvard College, held in the State House, at Boston, on Thursday, there were 30 members present. One of the items of business in order before the meeting, was the question of concurrence in the appointment of Hon. Edward G. Loring to be lecturer in the Law School. The question was taken by ballot, when 20 members voted nay; 10 yea; and 7 were absent. So Mr. Loring was rejected.

Judge Loring is the U. S. Commissioner, by whose decision Burns went back into slavery. The present rejection of Mr. L. may be partly attributed to the popular indignation for that decision, and partly, among the lawyers and statesmen who have now voted against him, to their conviction that he received as evidence in that case, the testimony of two interested persons, who signed and swore to an affidavit containing a grand error in time. Sound lawyers and good judges always give the prisoner the benefit of all reasonable doubts. As Mr. Loring did not do this, in the case referred to, the Overseers decide that he is not up to their mark for Law Lecturer. We can hardly imagine a more severe rebuke.

SAM HOUSTON is said to have become religious of late. Of course, if his conversion is genuine, his political advancement is out of the question.—*Boston Herald.*

Not of course, we think, unless political advancement is synonymous with moral degradation. It cannot be denied that wicked men have sometimes been advanced to very high places: but we have yet to learn that wickedness is a *sine qua non* to preferment.

NEW MUSIC.—Geo. P. Reed & Co. Boston, have just published two beautiful Songs, written and composed by E. A. Hosmer: entitled, "O, Come to the Mountain;" and "We Ride the Foaming Sea once more." They are destined to be popular.

THE GIST OF THE MATTER.—The following is an extract from the lecture of Frederick Douglass, in Tremont Temple, on Thursday evening last:

"For what have abolitionists been laboring for the last seventy years? For what have we been issuing tracts, and making addresses, and sending them forth to the abolitionists of this country? It has been simply to convince the public mind that a man is himself. That is all; to show that every man belongs to himself and can belong to no one else than himself; that his arms are *his* arms, that his head is *his* head and nobody else's head, that his legs are *his* legs, and that if he takes a notion to walk off he walks off on his own legs and nobody else's legs."

WASHINGTON, Feb. 15.—The Chief Clerk of the Department of State and other officials, will be examined tomorrow before the Committee on Foreign Relations, in relation to the services of Consuls abroad, in order to graduate the pay to those services respectively, but Senators are fearful of making changes, as they may not meet with the concurrence of the House at this late period of the session.

The French Spoliation bill will not be vetoed.

["So mote it be!"—But who knows?]

ENERGETIC GIRL.—A girl 14 years old, being on her way from school in Raynham, the wind blew her veil off and landed it on the river; pursuing it the ice gave way and she was thrown into the river where it was 10 feet deep; then keeping herself afloat by pieces of ice, she let the current drift her down to the bridge, against the stone-pier; clinging to this, she drew herself out of the water and regained the highway without aid, and soon reached home. When it is considered that this was on one of the severest days of the winter, and that the heroine was an unaided school-girl, the presence of mind and energy displayed are remarkable.

THE DISBANDED IRISH COMPANIES.—On Thursday morning, the arms and equipments of the recently disbanded Irish military companies in Boston, were simultaneously taken possession of by order of the government, and conveyed to the State Arsenal in Cambridge.

LOCAL.

Messrs. Editors:—We are aware that some make objections to the admission fee taken at some of our benevolent and reform meetings, especially if these meetings occur on Sunday evenings. It looks too much like secular business, the objector says. There does, at first sight, seem to be an appearance of plausibility in this objection. We all know very well that it is next to impossible, as society is constituted, to sustain any good cause without the means to pay the incidental expenses, and that the tax imposed upon those who would attend public lectures is essentially the same as that imposed upon all who attend our regular Sabbath services. In this city, as well as almost everywhere, before we can hear the gospel preached, we must pay an admission fee in the shape of taxes on pews; so that the principle remains the same in both cases.—*We* think the true gospel method would be to have the preacher supported by voluntary subscriptions, but the great mass of the people say no, for the reason that there are many who, although abundantly able to pay, are so completely selfish that they would not contribute one cent if they were permitted to share the advantages of the preaching without such contribution, and thus the burden of sustaining the preacher would fall heavily on the more benevolent part of the parish. It is well known by all who have had any experience in sustaining public lectures where collections are depended on to meet expenses, that the amount received is not half sufficient to defray the expense of hall, fuel, lights, &c, and that a very few individuals must be taxed heavily to pay the deficiency—and *then* the lecturer must either be left to defray his or her own expenses, or these same few individuals must be called upon again for *this* purpose.

It has been found in Boston and many other places, that the plan of a small admission fee has worked well—better than almost any other. It not only serves to equalize the burden, but it secures a more attentive and a more appreciating audience.

Then, again, there are others who object to holding anti-slavery or temperance meetings on Sunday evenings. We would refer such objectors to the narrative contained in Matt. xii: 9–13, and request them to study the character of Christ as revealed in that narrative; and then we hope they may have grace to stand up in defence of the principles of the gospel with the calm, serene dignity of the real christian, always ready to co-operate in efforts for the good of man. J.

FRIGATE SANTEE.—As previously announced, the Frigate Santee was launched from the western ship-house, at the Navy Yard, on Friday forenoon, a few minutes before 12 o'clock. As the ship struck the water she was saluted with a salvo of thirteen guns in quick succession, the sound of which had all died away before she was brought up by her anchors, almost down to the narrows.

The May Flower contains twenty five or thirty articles by some of the best American writers; and seven fine engravings.

KANSAS LEAGUE.

The Portsmouth Branch of this Society was formed on Monday evening, Feb. 12.—Rev. Wm. C. Clark is appointed President. The design is, by co-operating with the Massachusetts Society, to protect emigrants from fraud, and to aid them in a comfortable settlement.

The 4th article of the Constitution provides that

It shall be the duty of the Secretary to receive and keep the names and residences of all persons desirous of emigrating to Kansas; to agree upon the time and manner of their departure, and to confer with the Trustees of the Parent Society in Boston in regard to the same. He shall be the official organ of communication, both of the Society and of the Trustees.

The Secretary is WM. B. LOWD, No. 6 Market street, who will attend to the above business, and give the necessary information. f14 1w

The Greatest Medical Discovery of the Age, is
AYER'S CATHARTIC PILLS.
They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

STATE OF MAINE.
At a Court of Probate, holden at Saco within and for the County of York, on the first Monday of February, in the year of our Lord eighteen hundred and fifty-five, by the Honorable JOSEPH T. NYE, Judge of said Court:
ON the petition of Josiah Remick, Administrator of the estate of EPHRAIM WITHAM, late of Kittery in said county, deceased, representing that the personal estate of said deceased is not sufficient to pay the just debts which he owed at the time of his death by the sum of eleven hundred dollars, and praying for a license to sell and convey so much of the real estate of said deceased as may be necessary for the payment of said debts and incidental charges:
ORDERED. That the petitioner give notice thereof to the heirs of said deceased and to all persons interested in said estate, by causing a copy of this order to be published in the Chronicle, printed in Portsmouth, State of New Hampshire, three weeks successively, that they may appear at a Probate Court to be holden at Biddeford in said county, on the first Monday in March next, at ten of the clock in the forenoon, and shew cause, if any they have, why the prayer of said petition should not be granted.

CONGRESS.

THURSDAY, Feb. 15.

SENATE.—The Passengers' bill of Mr. Seward of N. Y, was read twice, and further action upon it suspended on account of the absence of Mr. Fish, of N. Y.

The bill of Mr. Toucey, of Conn. increasing the pay of Judges of the Supreme Court was passed.

HOUSE.—The first business in order was the bill granting lands equally to the several States for railroad purposes and for schools. Mr Hamilton, of Maryland, was entitled to the floor.

Mr. Haven, of N. Y. appealed to Mr. H. to yield the floor, with the view of going into committee of the whole on the Appropriation bills. There were now but fourteen days remaining of the session, and those bill may be lost unless they are acted upon at once.

Houston of Ala.—No doubt of it.

Mr. Hamilton then moved that the land bill be committed to the committee of the whole; and demanded the previous question, pending which the House went into committee on the Mail Steam Appropriation bill.

NEW YORK, Feb. 15.—About 5 o'clock this morning, a fire broke out in the second story of No. 78 Pearl street, occupied by W. H. Newman & Co. Upwards of 4000 bbls. flour were destroyed, besides other property. The building was wholly destroyed, and the loss reaches over $62,000. Insured for $52,000. The buildings adjoining and in the rear were badly damaged, and will add to the loss. It is supposed to have been the work of an incendiary.

CHILD SMOTHERED TO DEATH.—The Newburyport Herald says that on Tuesday last a child was smothered to death in that city, while in the arms of its mother. The family were enjoying a sleigh ride, and had wrapped it too closely to preserve it from the cold.—Their misfortune was not made apparent, until stopping at a store, they uncovered the little one to warm it.

WOMEN'S RIGHTS.—Gov. Young is building two large and beautiful houses adjoining that which he now occupies in Salt Lake City, to accommodate his increasing family. He now rejoices in between fifty and sixty wives, and from forty-five to fifty children. Elder Kimball, one of the Mormon Apostles, has between sixty and seventy consorts.

THREE BLACK CROWS.

Some readers may be familiar with the old story of the Three Black Crows. We have been reminded of this story, lately. Some of the abolition know nothings in New Hampshire, have sent out a colored missionary, called by the name of Rev. Thomas James.

The Daily Patriot came out against James, charging him with gross crimes and indecencies. But the Independent Democrat denies the charge, and says:

"We have the *written* statement of Mr. Amos K. Hersey, of Sanbornton, at whose house Mr. James stopped, and where all the impropriety alleged against him is said to have occurred. Mr. Hersey is an old line democrat, and a member of the Baptist church. In his written statement above referred to, Mr. Hersey distinctly says that Mr. James, so far from pretending that the woman with him was his wife, told him before he went into his house that she 'was not his wife, and that he should want two beds.' He adds, 'I did not see anything out of character in them while at my house.'

But the Patriot not only charges Mr. James with criminal conduct in New Hampshire, but adds that 'his place of residence is Wrentham, Mass.,' and 'such is his character at home.' A few days after reading this charge of bad character at home, being in Boston, we called on the Representative from Wrentham, and inquired the character of Mr. James. He told us he had known him several years, and never knew or heard an evil word spoken of him; but that he would make special inquiry on his return home. A few days since we received a letter from him dated Feb. 6, saying, 'I have made considerable inquiry of his neighbors, and find no one to speak ill of him in any respect.' Enclosed in his letter came also the following:

To whom it may Concern.

The undersigned, Selectmen of Wrentham, are acquainted with Thomas James, of this town, a colored Lecturer, and are happy to be able to state, that they know nothing, neither have they ever heard any thing against his moral character,—but from what we do know, and from inquiry, believe him to be a gentleman of chaste and virtuous character and habits.

CALVIN FISHER, JR. } *Selectmen of*
BENJAMIN HAWES. } *Wrentham.*

Wrentham, Feb. 5, 1855.

In addition to this evidence, we have received a letter from a gentleman of the highest character in Massachusetts, for which we have not room this week, bearing the most unreserved testimony to the worthiness and good character of Mr. James, who is a regularly licensed Methodist preacher."

HALLETT, DAVIS & CO.'S
GRAND AND SQUARE
PIANO-FORTES.

THE FIRST PREMIUM for the best Grand Piano Fortes, has been awarded by the Mechanics' Fair of Boston, and the Franklin Institute of Philadelphia, and also at the State Fair at Syracuse, to HALLETT, DAVIS & Co., over all competitors.

PORTSMOUTH
ART UNION.

PHILIPP WENZEL proposes a SECOND
EXHIBITION AND DISTRIBUTION
OF
PICTURES,
in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture.—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember—no disappointments—each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and
P. WENZEL, Congress St.

Portsmouth, N. H., Jan. 19, '55.

P. S.—Persons out of the place, may secure Tickets by enclosing the money in a letter, prepaid. j19 2eMTF

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lessons—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND
CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:
Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class and grade of scholarship for which it is designed. The Series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of
f12 JOS. H. FOSTER.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,

AS well as Liver Disease, Fever and Ague, Billious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is required to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *wire work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. *It is a substitute* for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 20 cents per Table. To those owning "Rights" they will be furnished at cost if desired.

AMUSING AND INSTRUCTIVE.

PRESIDENT HITCHCOCK'S
History of a Zoological Temperance Convention held in Central Africa,

CONTAINING THIRTY ILLUSTRATIONS.

READ the following notice from a distinguished Clergyman:—

"We are not accustomed to laugh outright, or be convulsed with laughter, yet we have never found it more difficult to restrain our risibilities than while perusing this most ingenious satire; and yet with all its comical, diverting, and laughable scenes, the most important and instructive lessons are couched in every page.—Youth should read it—parents, teachers, preachers everybody."

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st., opposite Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those now offered to inventors who have made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the whole expense if through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, and extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS,
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, IRIDIUM," on the Box and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE FEMALES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in severe forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

"I feel it my duty to make known that I am afflicted the virtues of MARCHISI'S URININE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered extremely, and at last was *entirely disabled from attending to my usual pursuits*. . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., MONDAY, FEBRUARY 19, 1855. VOLUME 6. NO. 16.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.

TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lessons—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND

CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:

Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The Series is based on a system, whose rules may be strictly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of

f12 JOS. H. FOSTER.

Save your Gas.

IT is desirable to economize in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

MONDAY, FEBRUARY 19, 1855.

THE FRENCH CLAIMS.

The Boston Advertiser of Saturday says: The regular telegraphic correspondent reports that the President has prepared a veto message against the French Spoliation Bill, to be sent to the Senate to-day. Our own special correspondent informs us by telegraph that the President will not sign the bill. On this information we are inclined to still adhere to the opinion that he will neither sign nor veto the bill; but suffer it to become a law by the lapse of the constitutional interval.

The Courier des Etats Unis, the French paper published in the city of New York, says:

"The President has decided, we are assured, to sign the famous French Spoliation bill, though his cabinet had pronounced in favor of a veto, by a majority of four against three votes. It is to be desired by every sort of consideration that the American government should settle a debt which ought to have been paid so long ago. What would be said of any European power whatever, who should retain in its treasury the amount of an indemnity, received twenty years since from a foreign power, in the name and on account of its own citizens? What political reasons can be put in the balance with the good faith and the manifest duty of a trustee?"

We make the following extracts from an article in the National Intelligencer. It would seem that the simplicity and force of the reasoning could not fail to carry conviction with them:—

If the whole history of the legislation upon the subject of the "French indemnity" be examined, it will exhibit the most remarkable case that has ever been before Congress in the form of a claim, in the amount and uniformity of the decisions in its favor. Twenty-eight times has it been reported upon favorably, and never has there been an adverse report. Seven bills for relief have at different sessions been passed, either by the Senate or the House. Every vote that has ever been taken in either house has been favorable. It has twice passed both branches by large majorities.

No one subject has ever been so long or more thoroughly discussed. It has at different times, whenever the subject has been debated, engaged nearly all the eminent talent in Congress. It started its struggle in Congress immediately following the cause that gave rise to the claims, when every circumstance was fresh and known to all; and the first report, like all that followed, was favorable.

Its earliest efforts were when the savor of revolutionary virtue was shaping the deliberations of Congress. It came before the wise and pure men of that day upon its intrinsic merits, and they endorsed it by their votes. Its vitality, through all the extraordinary and protracted efforts that have been made to starve it to death, has been its justness, and the majorities in Congress in its behalf, that said, *"go on," "persevere."* To this has been added the opinion of Jefferson, Madison, Adams, Marshall, Giles, Pickering, and others of that day and generation, all, all in its favor.

Ought such a case to be strangled by any doubtful power or questionable exercise of it?

When President Polk vetoed the bill that passed Congress for the relief of these claimants, he urged, in fact, no objection of constitutional difficulty or even of strong defect in the claims. His objection was rather as to time and want of due deliberation. The following extract contains the gist of his objection:—

"Passed, as this bill has been, near the close of the session, and when many measures of importance necessarily claim the attention of Congress, and possibly without that *full* and *deliberate* consideration which the large sum it appropriates and the existing condition of the treasury, and of the country demand, I deem it to be my duty to withhold my approval, that it may hereafter *undergo the revision of Congress.*"

Well, it has undergone the "revision" the deliberate revision, of Congress, and has been re-affirmed and passed again by an increased majority. Were Mr Polk now living, and President, he would, by his own showing, be obliged to sign this bill.

COL. BENTON ON TEMPERANCE.—The Mercantile Library Association of New York have presented to Col. Benton, a silver pitcher and salver. In acknowledging their kindness he says:—"There was an appropriateness in the selection of the particular article for the testimonial, beyond what might have been understood when the pitcher was fixed upon, and which is this: when I was young I became what Dr. Franklin was—my only point of semblance to that illustrious man—when he worked at his early calling in London, an *aquatic*—the term which his comrades applied to designate him as a water drinker, I also drank water, and nothing stronger, and to that abstinence from all vinous, spiritous and fermented fluids I attribute the good health and general vigor which I now enjoy."

The above testimony in favor of total abstinence, from a man of Col. Benton's stamp, surrounded as he has been by a custom so prevalent at the South as dram-drinking, is of more advantage to the cause of temperance than all the addresses that can be made.

FLOODS.—The rains of the last week swelled all the streams inland, so that on nearly every railroad leading into Boston, except the Eastern and Old Colony, there were serious interruptions to the trains, by the overflow of their tracks, washing away of small bridges, &c. On the two roads named, no great injury was sustained, as they run along on tide water.

HEALTH AND BEAUTY.—Punch's Almanac says—"The young lady who is unable to sport a riding habit, should get into a walking dress."

TEMPORAL POWER.

The Pope *has not* much Temporal Power. But he *claims* all the governmental power on earth, as he claims to be above all human governments, and to have the right to dictate what all rulers should do. The Newburyport Herald discusses the matter as follows:

In Congress lately, Mr. Banks said the Pope claimed the right of allegiance from all true Catholics, and could absolve them from their naturalization oaths. Mr. Chandler, of Pennsylvania, who is a Catholic, denied that the pontiff assumed the control of any other than his own subjects. Practically it is of no importance whether he does or not. It is an empty dream, if he does, and would give him no more authority in America than though he were in the moon setting up such pretensions. The fact is, the organization of which he is the head, is worn out and done, and he is nothing more than a poor, weak old man, and can hardly live in Rome. He is sick and broken down in constitution, without the affection of his own subjects, and a mere prisoner in the midst of rival and ambitious cardinals: and to talk of his power in America, is to talk of the force of moonshine: to fear him is what any old woman would be ashamed of.

But when we come to his claims, we believe Mr. Banks is right, and wonder how anybody could deny it. For more than a thousand years the Bishop of Rome has assumed to control individuals and nations under no legal jurisdiction of his: and the only reason why he does not enforce his claims to-day, is that he is without power. When the Emperor Leo, in the eighth century, attempted to prevent the worship of images in his empire, the Pope pronounced his deposition, and the historian tells us, "that he did effectually cause both Romans and Italians to recede from obedience." Gregory VII. absolved the Germans from allegiance to Henry IV., their lawful sovereign, with these words: "I depose from imperial and royal administration, King Henry, son of Henry, *sometime* Emperor"—he was no longer Emperor when the Pope said so,—"and I absolve all Christians, subject to the Emperor, from the oath whereby they were wont to plight their faith unto true kings." So he set up Otho to be King of Saxony, in the 13th century, against the wishes of the people—as he said "by the authority which God has given us in the person of St. Peter, and we order the people to render you homage and obedience. We, however, shall expect you to subscribe *to all our desires*, as a return for the imperial crown." It was but a little while after, that he deposed Otho, and prohibited his being recognized as king under pain of anathema. The claim of the Pope was set up in the dispute of Henry II. of England, with Becket, archbishop of Canterbury. Becket was stronger than the king, and dared to tell the latter that he reigned solely by the authority of the Church; and when, in exile, he excommunicated the king's minister, Henry was forced to surrender to save his minister from excommunication, which with Catholics amounted to eternal damnation. Afterwards Henry so far humiliated himself, as to hold the stirrup for Becket to mount his horse. John of England was afterwards excommunicated, and in his terror he absolutely gave a charter resigning England and Ireland to God, St. Peter, St. Paul, and Pope Innocent and his successors, for the remission of his own sins and those of his family.

History is full of lessons like this, nor has the Sea of Rome ever renounced such powers. Mr. Brownson in his Review, which is standard authority, constantly claims it. This is his language:—"In deposing a sovereign, and absolving his subjects from their allegience, and authorizing them to proceed to the choice of a new sovereign, the Church does but apply this law of Christ"—referring to the authority to loose and bind. Again in speaking of two orders, temporal and spiritual, he says: "she bears, *by divine right*, both swords; but exercises the temporal sword, by the hand of the prince or magistrate. The temporal sovereign holds it *subject to her order, to be exercised in her service* AND UNDER HER DIRECTION."

While, therefore, we look upon these assumptions as the veriest humbug of the world, from which a man need no more fear than from his shadow, the pretensions of Rome to bind and to loose, over the whole world, are not to be denied even at this day.

FROM HALIFAX.—By the steamer Asia, we have received Halifax papers to the 13th inst., and we are indebted to our Halifax correspondent for St. John's, N. B., papers to the 8th inst., and also Pictou to the 8th.

THE ALBION MINES.—The Pictou Chronicle says:—It must be very gratifying to the community at large, to learn that the produce of these mines is being deposited on the surface with unusual rapidity, and to an extent beyond that of former years, and that we have every reason to believe the supply will fully meet the increased demand of the ensuing season. We learn from good authority that the quantity banked, even at this early period of the season, is rather more than 20,000 chaldrons, or about 9,000 more than was raised at this time last year. We may therefore reasonably indulge in the hope that the improved condition and capabilities of these mines will be found equal to all the demands of the approaching season. We are glad also to know that such despatch will be given at the loading ground as has not heretofore been enjoyed.

We really hope, that by this and other means, we may have cheaper fuel next year than this.

EXTRAORDINARY IMPOSITION.—A lady in Brooklyn, N. Y. was recently applied to for charity by a woman who told the dismal story that her husband was dead, and she had not means to bury him. The lady, to make sure that she was not imposed upon, visited the apartment of the widow, and there saw the coffin of the poor deceased husband, and the widow disconsolately wringing her hands. The visitor not wishing to harrow the feelings of the bereaved woman, asked no questions, but leaving a considerable sum of money, immediately departed. After passing two or three blocks, she found she had lost her handkerchief, and retracing her steps she entered the room without ceremony, and there she saw the poor dead husband sitting up in his coffin, and counting the money she had just left to pay the funeral expenses!

GIRLS' HIGH SCHOOL.

Much has been said about School rooms, and more will be *said*; but something ought to be *done*, and that right early, for the Girls' High School. The room is not suitable in any respect; it has not the first qualification for a School room.

Let me add in a whisper, that lady and gentleman do not live in Portsmouth, who would consent to let their daughters go there one day in Court time, if they knew the mortification that they are subject to during the Court Session. Let the parents look after their daughters as they should, and they will see good cause for an early change. By the way, when any change is made, the first great care should be not to build or buy a School House below low water mark; and the second to secure a good height of story, without which proper light and good ventilation are impossible. —— A PUPIL.

Let the people of all three Wards choose Aldermen and Councilmen who will work together for first rate School rooms, and who will organize the City Government in the early part of the year.

We ought, by all means, to have had them built this year; there was probably no great difference of opinion in the boards on this question; but the law difficulty in the board of Aldermen, has effectually nullified the City Government, for every thing except the merest routine.

COURT OF COMMON PLEAS.

EXETER, Feb. 17.

The Grand Jury came in this morning and reported that thry had found 24 bills, and they were discharged. These bills have not yet been announced.

N. 32, Janvrin v. Scammon, was given to the Jury this morning.

Mr. Hatch, County Solicitor, who has had charge of the Grand Jury, in the absence of Attorney General, asked leave to bring forward from the Docket of Sept. Term, 1852, the action State v. Lucien Ayer. Said Ayer was convicted at that term of burglary and larceny, but forfeited his bonds, and has evaded the officers of the Court until last Fall, when he was arrested, while on a visit from Kansas, by Dep. Sheriff Tucker, in Plaistow. The motion was granted, and pending the motion Judgment upon the verdict, the Court adjourned.

The trial of criminal cases is assigned for next week.

No. 8, Abigail Chapman v. James Derby and James Burley, Trs, is the next case for trial. Wood for Plf., Hatch for Trs.

☞ We are requested to state that Wendell Phillips, Esq. will lecture on the 27th inst. and *not* on the 20th, as has been advertised.—His subject will be Street Life in Europe.—There will be no lecture to-morrow evening.

The lecture on Thursday evening next, before the Mercantile Association, will be delivered by Rev. Dr. Gannett, of Boston.

ALL OF A SIZE.—The American Courier reporting a case of disputed title in pigs, which had been suffered to run wild, gives the following examination of a deaf witness:—*Lawyer*—Do you know plaintiff's pigs? *Witness*—Eh? FOURTH OF MARCH—WHY SELECTED.—Do our readers generally know the reason why the fourth of March was chosen as the day for the inauguration of the President of the United States? It was selected because the fourth of March in every year commencing from the first inauguration, cannot come on a Sunday for at least three hundred years.

AGED PENSIONER GONE.—An old subscriber in Buckfield, Me., informs us of the death of Jonathan Record, a member of the family of Peter R. Tileston, Esq. Had the deceased lived till March 22d, he would have been *one hundred and five* years old; he was a soldier in the revolution.—*Lowell Courier.*

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

CONGRESS.

*THURSDAY, Feb. 15.

The telegraphic summary did not complete the account of Thursday's proceedings in Congress. We add the following :

SENATE.—Mr. Houston notified the Senate that there was a pamphlet vilifying him, from the pen of Thomas J. Green, which had been laid on Senators' desks. He then gave Mr. Green a tremendous lashing.

The Committee on Foreign Relations reported a bill appropriating $25,000 to Commodore Perry, on account of his diplomatic service at Japan.

Mr. Gwinn moved Judge Douglas' bill, proposing Northern, Southern, and Central routes, as a substitute for the original bill reported by the committee. This substitute was received as an amendment, by a vote of 23 yeas, 22 nays, and will be considered to-morrow. The Senate adjourned.

HOUSE.—In the House, a lengthy debate ensued upon the mail appropriation bill, the question being upon Mr. Olds's amendment appropriating $850,000 for the transportation of the mails to and from Liverpool, and repealing the clause in the deficiency bill of '50, which directs the Sec. of the Navy to terminate the arrangement for the additional allowance to the Collins line.

Without voting upon the question, the House adjourned.

FRIDAY, Feb. 16.

SENATE.—This is a private bill day.

The committee on Foreign relations reported back the House Diplomatic and Consular Bill.

After reconsidering the vote whereby the bill for the relief of the claimants of brig Gen. Armstrong was laid on the table, the Senate proceeded to take up the calendar, and consider the bills *seriatim*, and after passing a number, the Senate adj.

HOUSE.—The House went into committee of the whole on the Mail appropriation bill, Mr Olds' amendment, offered yesterday, pending. After a long debate, the amendment was agreed to—ayes 86, nays not counted.

The committee then rose, and pending the question on concurring in the amendment, the house adjourned.

WASHINGTON, Feb. 16.—It is said that Senator Jones of Tennessee, will introduce in the Senate a preamble, that the Constitution confers upon Congress the power to establish a uniform rule of naturalization, but that it is silent upon the subject of emigration; and a resolution that the power to regulate emigration never having been delegated by the people to Congress, the government of those States affected by the influx of foreigners possess the sole power to make laws regulating their admission or exclusion.

The President has approved and sent to the Senate the joint resolution authorizing the appointment of Winfield Scott to be a Lieut. General of the United States.

WASHINGTON, 16.—Senator Shields publishes a note in the Intelligencer of this morning, stating that Judge Douglas and his colleagues in the House exerted themselves to promote his re-election, and are as much disappointed as himself at the result.

The Union charges the Intelligencer with an attempt to breed ill blood between Messrs. Shields and Douglas by its recent publication.

SEIZURE OF A GIFT LOTTERY. — *New York*, 16*th*.—The police made a descent yesterday upon an establishment on Broadway, known as Dashall & Co.'s Gift Enterprise office, and took possession of a large number of tickets and other property of the concern.

The proprietors or agents were out of the city. It is said that the parties intended to have realized about $30,000 by the swindle. Dashall & Co. have an existence only in name, and the National Gift Enterprise is as airy as the firm.

SLOOP OF WAR DECATUR.—The Journal is informed that a dispatch was received at Baltimore yesterday from the Washington Union, stating that the Decatur was recently heard from as being at the Atlantic end of the Straits of Magellan, waiting for the steamer Massachusetts. All well.

A 'grand mulatto ball' was given at Havana on the 29th ult., at which the Captain General of Cuba presided, and at which other officials of the island 'assisted.'

The real estate of the late Hon. Daniel Webster in Marshfield, is to be sold at auction on the 14th of March next.

The Michigan Legislature has forbidden the use of the jails of that State for the detention of persons claimed as fugitive slaves.

ALL persons having unsettled accounts with the late firm of Geo. W. Towle & Co., are requested to call and settle the same immediately; and all those having claims against the subscriber are requested to present the same for immediate adjustment. GEO. W. TOWLE.

New Boot and Shoe Store,

NO. 12 DANIEL STREET,
Portsmouth, N. H.

THE undersigned would respectfully announce to the citizens of Portsmouth and vicinity that they have entered into copartnership in the firm name of
JOHN BUZZELL & CO.,
Have taken the Store in Daniel street, formerly occupied by Mr. E. A. Stevens, and stocked it with a good assortment of

BOOTS AND SHOES

Of every description, which they offer to the public at as low prices as they can be purchased for in Portsmouth or elsewhere. They also have in connection with their Store a manufactory of Boots and Shoes, and are prepared to make to order any description desired, in the best manner, and on the most liberal terms. Determined to merit, they hope to receive a fair share of public patronage. JOHN BUZZELL,
WM. H. FERNALD.

The subscriber takes this opportunity of presenting his compliments to his many friends in Portsmouth and vicinity, and respectfully soliciting their patronage in his new position, pledges himself to use every endeavor to serve them satisfactorily. During his experience of twelve years in the business he has labored to serve faithfully all who have entrusted their orders to his care; and trusting he has earned a reputation for fair and honorable dealing, he will strive in future to merit and retain it. Every article sold at the Store, where it will be his pleasure to serve his friends and find new ones, shall be as represented, or if it shall prove otherwise the money shall be refunded, or entire satisfaction given. Please call and try us. Very respectfully,
Feb. 7. JOHN BUZZELL.

PORTSMOUTH

ART UNION.

PHILIPP WENZEL proposes a SECOND

EXHIBITION AND DISTRIBUTION

OF

PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture.—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—
varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember — no disappointments — each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and
P. WENZEL, Congress St.
Portsmouth, N. H., Jan. 19, '55.

P. S.—Persons out of the place, may secure Tickets by enclosing the money in a letter, prepaid. j19 2eotf

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, for a time, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very valuable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons can do a good business putting them out from house to house. To such they will be furnished at a discount from the retail price, which is 30 cents per Table. To those owning "Rights" they will be furnished at cost if desired.

Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

Uterine Diseases.

W. LEACH, M. D., 61 Warren street, Boston, gives special attention to Diseases of Females. Also Diseases of the Throat and Lungs.—Office hours from 8 to 9 A. M., and from 2 to 5.

THE GREAT STANDARD REMEDY
FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*,—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIAMS, ESQ., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LITCH, Philadelphia,—and many others.

HOW EXTENSIVE BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

☞ *Beware of Counterfeits and Imitations!!*

Enquire for the article by its WHOLE NAME, "VEGETABLE PULMONARY BALSAM."

Prepared only by REED, CUTLER & CO., Druggists, 33 India street, *Boston, Mass.*, and sold by Apothecaries and Country Merchants generally. *Price* New Style, large bottles, containing nearly four times the quantity of the small, $1. Old Style, small bottles, 50 cents.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and these entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb: FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the benefits derived by its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any enteertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by the use of the CATHOLICON I was entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*. . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details if my case to any lady who will call on me at 67 Mill street.

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lessons—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS.

Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The Series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of

f12 JOS. H. FOSTER.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above monthlies is $1 per year.

TUESDAY, FEBRUARY 11, 1855.

THE VETO.

In the House of Representatives, at Washington, on Saturday, Feb. 17, the Speaker laid before the House a message which occupied three-fourths of an hour in reading. It was from the President, applying his Veto to the French Claims Bill. An abstract follows:—

The President is returning the French Spoliation bill, refers to his duties under the Constitution. It is not incumbent on him to sign a bill as a matter of course, and thus merely authenticate the action of Congress, for he must exercise an intelligent judgment, or be faithless to the trust reposed in him. In the execution of his official duty, as to signing bills, he is not to perform a mere mechanical part, but is to act according to his righteous convictions of righteousness or wrongfulness of the proposed law. The President's responsibility is to the whole people of the United States, as that of a Senator is to the people of a particular State, or that of a Representative to the people of a State or District, and it may safely be assumed that he will not resort to the clearly defined and unlimited power of arresting legislation, or calling for the reconsideration of any measure, except in obedience to the requirements of duty. However, if he entertains a decisive and fixed conclusion, not only of the unconstitutionality, but of the impropriety and injustice, in other respects, of any measure, and declares he approves it he is false to his oath, and deliberately disregards his obligations.

The President feels called on, at the threshhold, to notice an assertion often repeated, that the refusal of the United States to satisfy these claims in the manner proposed by the present bill rests as a stain on the justice of our country. If it be so, the imputation on the public honor is aggravated by the consideration that these claims are coeval with the present century, and it has been as persistently wrong during that whole period of time. This the President denies. If new facts, not known nor accessible during the administrations of Jefferson, Madison, or Monroe, had since been brought to light, or new sources of information discovered, this would greatly relieve the subject of embarrassment. But nothing of this nature has occurred. He never recognized the alleged obligation on the part of the U. States Government to pay these claims. Indeed, it stands out, not as a matter of controling authority, but as a fact of history, that these claims have never, since our existence as a nation, been deemed by any President worthy of recommendation to Congress.

After reviewing the entire history of the case, he concludes his message as follows:—"This review of successive treaties between France and the United States has brought my mind to the undoubting conviction, that while the United States have, in the most ample and complete manner, discharged their whole duty towards such of their citizens as may at any time have been aggrieved by the acts of the French Government; so also has France as honorably discharged herself of all obligations in the premises towards the United States. To concede what this bill assumes, would be to impute undeserved reproach both to the United States and France. I am aware that the bill proposes to provide indemnification for such valid claims of the citizens of the United States against France, as have not been stipulated for, and embraced in any of the treaties enumerated. But by including such claims, it excludes all in fact for which, during the negotiations, France would not be persuaded to agree that she was, in any wise, liable to the United States or to our citizens. What remains, and for what is the $5,000,000 appropriated? In view of what has been said, there would seem to be no ground on which to raise a liability of the United States to be considered the insurers and guarantees of all claims of whatever nature which any individual citizen may have against any foreign nation."

Mr. Bayly, of Virginia, said that, as little as he was impressed with the reasoning of the message, but as a friend of the administration, and a greater friend of the veto power, he moved that the consideration of the subject be postponed until Wednesday, in order, in the meantime, to afford an opportunity of studying the document, and in respect to the President.

Mr. Jones, of Tennessee, said that but twelve legislative days remained, and he therefore moved the previous question, with a view of acting upon the message forthwith. The motion was voted down, 90 to 62.

Several amendments were offered to Mr. Bayley's motion, but without taking a vote, the House adjourned.

What President Pierce is represented as saying about the Veto power, is perfectly correct. No President ought to say he approves a bill which he disapproves, but should apply his veto. We hold the Veto to be a useful and valuable power, properly applied. The author of the present veto message has already been pretty effectually vetoed by the people, insomuch that this exercise of his power will not, we think, injure him a great deal among the politicians;—"but it will (says the Boston Courier) raise a cry of grief and disappointment from those who are not politicians; the aged men and women who hold these claims against the government, as well as their representatives, and who cannot be made to understand how it is that a debt—which has been carefully considered by the proper committees of the two branches of Congress and declared to be a just one, and this judgment having been approved by large majorities in the National Legislature—can be annihilated by the arbitrary exercise of a power by one man, because he cannot conquer his early prejudices against the claims, and because, as he asserts, he has the right to veto the bill if he pleases."

We ventured, a few days ago, to express the hope that the President would sign the bill—and thus the blessings of many ready to perish would fall upon him. This hope was not unmingled with fear that he was unequal to the occasion; that he would not even let the bill become a law by a masterly inactivity on his part. The event has justified our fear, and destroyed all our hope of blessings from him, and of consequent blessings upon him.

He will not pay this honest debt. Why?

1, Because he has the power to hold back.

2, Because no President has ever by message, recommended the payment.

True: but are Presidents men of more brain, or more soul, than other men? Are they made of better clay, or fed on better food, that they do grow so great?

Do the American people, and the American Congress, always, or generally, take the law from the President? Do the lawyers and planters, the farmers, mechanics and merchants, who composed the 28 committees in Congress, *all* of whom have examined these claims, and reported in their *favor*, know less about them than one man, who may have never examined them at all, but whose opinion must go for something merely because he happens to be President.

Can our President really judge any better about this plain case of right and wrong, than the editors of the leading papers of the Democratic party in New England? We think not. We have copied articles in favor of these claims, from such papers as the Portland Argus, Boston Post, and we believe the Dover Gazette, containing the earnest hope that they might be paid as a matter of justice.

3, Because this payment would *dishonor* France and the United States; and

4, Because there are no valid claims in existence.

The 4th reason is a mere begging of the question. President Pierce cannot deny that our merchant ships were taken by France: he does not pretend that anybody ever paid for one of them: he cannot deny that in our Louisiana treaty our Government estopped our citizens' claims—and yet by a lawyer's and politician's quibble, he seeks to evade for our nation, the simple payment of an honest debt.

A correspondent says: If the account by telegraph be correct, the President has assigned some reasons which are about as good as those he has sometimes heard for the non-payment of an outlawed debt: the first of which is that—

No President ever recommended to Congress to pass such a bill.

But more than twenty committees of Congress have reported in favor of them. No president ever recommended the repeal of the Missouri Compromise. Yet President Pierce did not, for that reason, veto the repeal.

He says to pay these claims now would imply undeserved censure upon France and the United States. It would be a little difficult to discover what reproach to France would arise from the payment by the United States of a claim to its own citizens against France, which that country paid long ago, and which our government holds as trustee.

Besides, what reason, satisfactory to the mind of an honest debtor, is it for not paying a just debt, that the doing so would be to admit that he, or some other person, or both, had done wrong by previous delay?

A large majority of the able statesmen of this country, of all parties, who have investigated these claims, admit their justice. The people feel that their non-payment is a reproach to the country. They are unwilling longer to afford occasion for taunts from foreigners, like the following,—which we find in the Courier des Etats Unis, the French paper published in the city of New York:

"The President has decided, we are assured, to sign the famous French Spoliation bill, though his cabinet had pronounced in favor of a veto, by a majority of four against three votes. It is to be desired by every sort of consideration that the American government should settle a debt which ought to have been paid so long ago. What would be said of any European power whatever, who should retain in its treasury the amount of an indemnity, received twenty years since from a foreign power, in the name and on account of its own citizens? What political reasons can be put in the balance with the good faith and the manifest duty of a trustee?"

To many hearts in this city this veto has caused pain and disappointment. Some of them would find it hard to adopt the language said to have been used by Gen. Scott, when informed of the passage of the act intended to confer upon him the title of Lieut. General:

"Let no man say, hereafter, that his country is ungrateful to one that has served her faithfully."

DEATH OF COL. BARTON.—A despatch from Concord, dated on Sunday, says:—Hon. Cyrus Barton, editor of the Concord Reporter, dropped dead, from heart disease, yesterday afternoon, at half past five o'clock. Mr. Barton had just concluded a speech at a political meeting in an adjoining town, and was in the act of taking his seat, when he fell and expired.

LOCAL.

COURT OF COMMON PLEAS.

EXETER, Feb 17.

In case No. 32, Janvrin v. Scammon, a verdict was rendered for deft.

No. 8, Abigail Chapman v. James Derby and James Burley, Trs. was taken from the Jury yesterday, and stands open for the Court.

No. 47, Martha F. Pickering v. Frank T. Pickering, was next placed on trial and was given to the jury this morning. Emery for pltf., Bacon for deft.

George Harris of Exeter was arraigned on two indictments for selling liquor. He plead *nol. con.* and was fined $20 and costs on each.

Edmund Elliott of Exeter was also arraigned on one indictment, and pleading *nol. con.* was fined $20 and costs.

The Grand Jury presented the following persons:

William Blaney and William Walsh for assault and battery;

Jere. W. Rand for malicious mischief;

Town of Epping, for defective highway;

D. McDonald, G. Lum, C. Bodwell, George Harris, E. Elliot, Amos T. Goodrich, Goodrich & Jenkins, James W. Ruttray, for selling liquor;

John Q. Adams, for adultery and fornication;

William White, for stealing;

Henry D. Huntress, for burglary;

Joseph Cornelius, for assaulting an officer;

Daniel B. and Sarah E. Kenniston, for assaulting an officer;

Charles B. French, for assaulting an officer.

MONDAY, Feb. 19.

No. 47, Pickering v. Pickering, verdict for pltf.

Wm. Walsh and Wm. Blaney, for assault and battery; Sarah E. Kenniston, of Epping, for assaulting an officer; and Jere. W. Rand, for malicious mischief, were arraigned this morning.

H. G. O. Rundlett, of Epping, indicted at the last Sept. T. for selling liquor, was arraigned, and plead not guilty. The evidence having been submitted, a verdict of guilty was taken by consent, subject to the opinion of the Superior Court on questions of law.

Daniel W. Ladd, 3d, of Epping, was next arraigned, on an indictment found at the Sep. T. 1853, for selling mortgaged property contrary to law, and plead not guilty. A motion to quash the indictment for want of definiteness as to the person injured by said sale was over-ruled. This case is now on trial. Hatch for State; Stickney and Tuck for Resp..

☞ The agent of the celebrated ventriloquist and wizard, Prof. Harrington, was in this city yesterday, and has made arrangement for two exhibitions which will take place at the close of this month.

☞ We are requested to give notice that the Rev. E. M. P. Wells, of St. Stephen's, Chapel, Boston, will officiate at St. John's Church to-morrow, Ash Wednesday.

Services begin at 10 o'clock, A. M.

☞ No lecture at the Lyceum this evening. Mr. Phillips is to lecture next Tuesday evening.

REMARKABLE EVENT.—A correspondent of the Jeffersonian Democrat, published at Chardon, Ohio, gives the following remarkable account of the journey of an aged female, to the west:

Mary French, of New Market, New Hampshire, who was born in the year 1764, and who is now 91 years old, on Tuesday the 26th of December last, at New Market, bid her friends adieu, and stepped on board the cars in company with her grandson, Dr Nathaniel B. Chase, and started for Ohio in the dead of winter, during a cold storm. She joined at Boston, and came in company with some families moving westward, but they were all strangers to her. She was compelled to change cars several times on the journey—came between eight hundred and a thousand miles without resting by the way; and after traveling continually day and night, arrived at my house, in perfect health and vigor. She manifested very little fatigue, and declined to retire until her usual bed time. She arose early the next morning, as soon as the carriage was ready, stepped in and jolted over a rough road, sixteen miles, to the end of her journey, before alighting.

The next morning she declared that she was not in the least wearied, and insisted upon aiding the family in doing their housework; but not being indulged in this request, she brought forth the omnipresent knitting work; and on Saturday morning last, I left her vigorously plying her needles, and chatting with the family in a free and easy manner, really astonishing considering her age.

If a Beggar comes to your office, your store or your dwelling, don't push such a one away rudely. It may be a case deserving of your sympathy and aid. Again, give not too hastily. It may be a case of the grossest deception. You may be encouraging idleness and vice. We have a city Missionary, a part of whose duty it is to see to such cases. Consult him or refer such subject to him. We have a City Place of Refuge for the poor. The case, it may be, should be cared for there. Be kind to the unfortunate and worthy poor, but waste not your symphathies and alms on the vile and ungrateful.—*Stars and Stripes.*

Rev. Dr. Cooke, of Lynn, gave his people, as an afternoon discourse, on Sunday, Jan. 21, a sermon which was preached on the same day of the same month in 1655—just 200 years before—before the same society, by Rev. Thomas Cobbett, who was then its pastor.

AN ESCAPE.—The Cambridge Chronicle says that on Thursday evening a gentlemen doing business on State street, took the cars for Somerville. He had partaken freely of intoxicating liquors, and upon landing at Somerville became bewildered, fell into a pond of water, and must have been chilled to death, had it not been for the exertion of several gentlemen, who conveyed him to a place of shelter and finally to his home.

"Old Folks" Choir.

Agreeably to adjournment, the Old Folks' Choir will meet at Exchange Hall on Saturday Evening, Feb. 24th, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, and business. Others acquainted with the old music, are invited to join the choir, at the above time and place.

Per order. J. P. PAYSON, Sec.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Bile—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m f1 d&w

CONGRESS.

SATURDAY, Feb. 17.

SENATE.—Mr. Toucey of Connecticut, from the judiciary committee, introduced a bill to protect officers and others acting under the authority of the United States.

Mr. Stuart of Michigan, opposed the bill making appropriations for improvements in the harbors on the Northern Lakes.

Mr. Hamlin of Maine, from the committee on commerce, reported a bill authorizing the Secretary of the Treasury to sell certain Revenue Cutters, and purchase others.

Mr. Jones of Iowa, reported a bill allowing officers and soldiers of the revolution, whose pensions are less than $100, to have that amount hereafter.

Mr. Hamlin of Maine, wished the bill to be laid over till Monday, in order to provide similarly, by amendment, for the widows of the deceased officers and soldiers.

Mr. Sumner of Massachusetts, presented a memorial from citizens of Worcester against the admission of more slave States; also one from Philadelphia for the repeal of the Fugitive Slave Act.

Mr. Jones of Tennessee, offered a preamble, that the Constitution confers upon Congress the power to establish a uniform rule of naturalization, but that it is silent upon the subject of emigration; and a resolution that the power to regulate emigration never having been delegated by the people to Congress, the government of those States affected by the influx of foreigners, possess the sole power to make laws regulating their admission or exclusion.

Mr. Cass of Michigan, gave notice that on Monday next he should take notice of the words attributed to Lord Clarendon, relative to the trans-atlantic policy to be pursued by the British government with reference to affairs upon this continent.

The invalid pension bill was taken up, and postponed until Monday.

The Pacific Railroad bill was also postponed till Monday.

The bill extending credit for duties on railroad iron was taken up.

Mr. Cooper of Pennsylvania, regretted that such a measure should be pressed at this time, and at this stage of the session. He depicted the embarrassments under which the iron trade was suffering, and appealed to the Senate to reject this bill, which he thought would occasion a further depression in that branch of industry.

During the further discussion of the bill as amended, the Senate adjourned.

HOUSE.—The House proceeded to the consideration of the Mail Appropriation bill, and passed Mr. Old's amendment, yeas 100, nays 83.

A message was received from the President of the United States, informing the House of his veto of the French Spoliation bill. It created some sensation.

Mr. Orr of South Carolina, proposed that the message be read and printed, and that it be considered at 1 o'clock on Monday.

Mr. Bayley of Virginia, suggested Tuesday next.

Mr. Haven of New York, without meaning any disrespect to the President, inasmuch as time was precious, suggested that the reading of the message be dispensed with.

Boisterous cries of 'No,' 'Read, read!' and much confusion. Points of order were then raised that the bill pending must be disposed of before the message could be acted on.—This was acquiesced in.

Another amendment was then adopted, making an appropriation for the Ocean Service this year, the bill for that purpose having failed last session. The bill was then passed, 92 to 82.

The President's Veto on the French Claims bill was read, and a discussion ensued, pending which the House adjourned.

REVOLUTIONARY PENSIONERS.—On Thursday last Mr. Cass presented a resolution in the United States Senate, which was adopted, directing the Committee on Pensions to inquire into the propriety of providing by law that all revolutionary soldiers and officers now living, who receive a pension less than $100 a year, shall receive that sum from the 1st of January last. As an illustration of the injustice of the present system, he mentioned the case of a revolutionary soldier ninety-two years of age, receiving but thirty-two dollars a year, which every one would admit, was totally insufficient.

NOT PRINCIPLES—BUT MEN.—The N. H. Gazette says:—"We willfully shut our ears at times to our convictions. The present canvass in New Hampshire, which threatens to be one of the hottest for many years, affords not the best opportunity for discussion of abstract principles. They are lost sight of, or carefully abandoned, in the rage of political excitement.

But there are considerations so immediate in their consequences, so potent in their nature, and so eloquent in circumstance as to secure hearing even amid the ebullitions of party strife. New Hampshire is at the coming election to decide whether her own native President—so long known and so deeply cherished,—is still to maintain his ascendency in her councils."

The total national, state, and corporate debt of the United States, is about twelve hundred millions of dollars. Twenty seven States owe two hundred and twenty one millions: and four states,—New Hampshire, Vermont, Delaware and Florida are free from debt. Seven States owe less than a million apiece, and New Jersey but seventy one thousand dollars. Pennsylvania has the largest debt, nominally, $40,000,000; but Maryland has really the largest in proportion to population, $15,000,000, New York owes twenty four, and Virginia twenty six millions.

We have been informed that our statement in relation to the disclosures made by Smith, the murderer of Brewster, in our last, was incorrect so far as it implicated Stillings.—Dixon, as before stated, has been arrested and lodged in the jail at Alfred.—*Dover Gaz.*

HELD FOR TRIAL.—In the Police Court, Boston, on Friday, the examination of David Vanderbeck, on a complaint charging him with assaulting Samuel K. Head, with intent to kill and murder, resulted in holding the defendant in $2000 for trial at the March term of the Municipal Court.

PORTSMOUTH

ART UNION.

PHILIPP WENZEL proposes a SECOND

EXHIBITION AND DISTRIBUTION OF

PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—

varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle) and on the Evening of the second day the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember—no disappointments—each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and

P. WENZEL, Congress St.

Portsmouth, N. H., Jan. 19, '55.

P. S.—Persons out of the place, may secure Tickets by enclosing the money in a letter, prepaid. j19 2m tf

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *chop out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

JAMES A. WOODBURY.

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rod and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 50 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,

Salem, Mass.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st., opp. Exchange st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered by other agencies, which made so popular whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days from date. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, a extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced some unprincipled Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any doubt the truth or the efficacy of the URSINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that the use of it has been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 58 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URSINE CATHOLICON which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual exercise.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

LIQUOR CASES.—At Dover Court last week on Tuesday, State *vs.* James Bodge, for selling one pint of New Rum to one Lydia Miller on the 2d of March, 1854, at Rochester, in violation of the License Law, was tried and the respondent found guilty and fined $30 and costs. We had supposed the *Ladies* of Old Strafford were free from the accursed practice which sends so many of our men reeling through our streets, down to an untimely grave; but if Lydia and her sister, Mrs. Kimball were to be believed (and it seems that the Jury *did* believe them) they and their female associates are all familiar with the taste of all kinds of liquors, and particularly with that kind christened New England.

Bodge plead *nolo contendere* to a second indictment, and was fined $25 and costs. Chas. Doe, Solicitor for the State.

Chamberlain *vs.* Davis,—commenced on Tuesday and is still on trial. Plf's wife has resided ever since her marriage with Deft. her brother, at New Durham, and Plf. brings his action to recover her wages for the six years preceding the date of this writ. The defence is that Plf.is and has always been a drunkard, and has not furnished any support for his wife, and that she has, through the kindness of her brother, the Deft. had a home at his house, and that she never has stood in the relation of servant to him.—*Dover Gazette.*

A PRISON TENANTLESS.—The New Haven Advocate says that the jailer of the New London county prison was in the office of that paper on Tuesday, and stated that he was out of business—his prison being empty. During the five months under the Maine Law, the difference in prisoners, compared with the corresponding months of 1853, was fifty. On Dec. 28, 1854, the number of prisoners was 2, on Dec. 28, 1853, 16. On Monday last, only one person occupied the hitherto well tenanted premises—and he was simply awaiting trial for a violation of the Liquor Law. Here are some of the fruits of the Connecticut Law.

A lad named Francisco Lyman went out skating in Adrian, Michigan, a few days ago. Just before the boys started for the ice, the mother of little Frank called him, and cautioned him to be careful and not break through the ice. The little fellow promised he would; and stopping a moment, he told his mother, if he should get drowned not to let any of the boys disturb his playthings, and to have them sent to his little cousin in Cincinnati. He then kissed his mother and went to play. In a short time he was brought home a corpse.

The Rev. Henry Ward Beecher, through the columns of the Independent, has opened most savagely upon the Know Nothings. The reason for the assault is found in the depressing influence which the new party exerts upon the Abolition cause. He says that the triumph of the former will be the death of anti-slavery agitation, and, of course, the agitators.—*Newburyport Herald.*

Perhaps not, though the Rev. Gentleman may think so.

Mr Fairchild, while in New Britain, Ct., a few evenings since, was stopped by three men, who demanded his money. He seized a pair of cow hide boots lying in his wagon, and knocked one of them down, stretched out another with a blow of his fist, and the third took to his heels.

At a riot of squatters in Kansas territory, the Rev. Mr. Hammer was beaten and stoned to death, and then conveyed to the prairie, five miles from the town of Fremont.

Among the items of expenditure passed last year, by the Hull, England, town council, was one for £10, for ringing the church bells on the occasion of the 'fall' of Sebastopol.

Nine hundred barrels of snails were exported from Switzerland for foreign consumption, in October and November last.

Washington letter writers state the Cabinet is divided *sectionally* upon the subject of vetoing the Spoliation bill,—Messrs. Marcy, McClelland, Cushing and Campbell being in favor of the bill, and Messrs. Guthrie, Davis and Dobbin wishing to have it vetoed.

WEDNESDAY, FEBRUARY 21, 1855.

THE VETO MESSAGE.

We have read the message through. It has the merit of plainness; and is a lawyer-like special plea against the payment of the claims.

The brief abstract already given, presents a fair view of the president's objections to the bill. The document in full is much too long for us; but we extract two or three of the more important paragraphs.

The complaints and counter complaints of the two governments had been, that treaties were violated, and that both public and individual rights and interests had been sacrificed. The correspondence of our ministers engaged in negotiations, both before and after the convention of 1800, sufficiently proves how hopeless was the effort to obtain full indemnity from France for injuries inflicted on our commerce from 1793 to 1800, unless it should be by an account in which the rival pretensions of the two governments should each be acknowledged, and the balance struck between them. * * * *

Hence the conclusion that the United States did not sacrifice private rights or property to get rid of public obligations, but only refused to reassume public obligations for the purpose of obtaining the recognition of the claims of American citizens on the part of France.

* * * * *

The United States, not having admitted in the convention of 1800 that they were under any obligations to France by reason of the abrogation of the treaties of 1778 and 1788, persevered in this view of the question by the terms of the treaties of 1803, and therefore had no such national obligation to discharge, and did not, either in purpose or in fact, at any time undertake to discharge themselves from any such obligation at the expense and with the property of individual citizens of the United States.

These arguments, and three columns more of the same sort, present nothing new,—nor do they accomplish one jot or title, against the justice of the claims themselves, or against the equity of their being paid out of our own treasury.

These claims were urged by our government, against France, long ago. Pres. Pierce himself says, in another part of the message:

Against these infractions of existing treaties and violations of our rights as a neutral power, we complained and remonstrated. For the property of our injured citizens we demanded that due compensation should be made, and from 1793 to 1797 used every means, ordinary and extraordinary, to obtain redress by negotiation.

He then goes on and very fairly describes John Adams's *quasi* war with France, and adds:

It is not, then, because of any failure to use all available means, diplomatic and military, to obtain reparation that *liability* for private claims can have been incurred by the *United States*; and if there is any pretence for such liability, it must flow from the action, not from the neglect, of the United States.

Here is the gist of the argument. The claims were good against France; but they became invalid against her because we took reprisals against her; and although our government shut off our claim against France for these matters, yet our government did not (in so many words) promise to pay the American claimants.

It is precisely the plea of a poor and fraudulent bankrupt; with this difference, that the defendant in this case is rich, while the plaintiffs are poor, and not a few of them were made so by the injustice, violence and fraud in question.

One or two extracts more must suffice.

Their justification consists in that which constitutes the objection to the present bill—namely, the absence of any indebtedness on the part of the United States. The charge of a denial of justice in this case, and a consequent stain upon our national character, has not yet been endorsed by the American people.

The American people have never yet *endorsed* the President's salary, nor the *per diem* of the members of Congress; yet that is no reason why President P. should not sign a bill to pay these just debts. The American people, however, have chosen representatives and senators to congress, whose committees have reported 28 times in favor of these claims, and *never against* them.

The president adds:

But, if it were otherwise; this bill, so far from relieving the past, would only stamp on the present a more deep and indelible stigma. It admits the justice of the claims, concedes that payment has been wrongfully withheld for fifty years, and then proposes, not to pay them, but to compound with the public creditors by providing, that whether the claims shall be presented or not, whether the sum appropriated shall pay much or little of what shall be found due, the law itself shall constitute a perpetual bar to all future demands. This is not, in my judgement, the way to atone for wrongs, if they exist, nor to meet subsisting obligations.

This is President Polk's old argument, exactly. The bill provides for the partial payment of an old debt. The needy creditor, who is at the mercy of the heartless debtor, says, I'll take half a loaf, as it is better than no bread. But the President says, No: you shall starve first—rather than see shall thus confess dishonor.

Michael Hoffman, an elderly gentleman from New York, went to Providence with a young girl to be married, but she robbed him, instead, of $778.

A SUBSERVIENT HOUSE.—The Spoliation bill passed the House by a vote of 110 to 76, or, (including members paired off) 113 to 79. A change of fifteen negative votes to affirmative, would have been necessary to make a two-thirds vote in favor of the bill, and to pass it notwithstanding the President's objection. But when the bill came back, and the question was tried, the House voted, yeas 86, nays 113.

Now, while we deem the President's arguments quite lame, and while we dissent altogether from his conclusions, we must give him credit for his courage and firmness, or if any body pleases, consistent obstinacy. But in regard to those Representatives, who voted Yea before the Veto, and Nay after it, we can hardly say positively, whether their subserviency calls out most loudly for our pity or contempt. Ten days ago their hearts were soft enough to do an act of partial tardy justice to needy supplicants: but presto, change! the President cries out Veto! gives his reasons, such as they are; and now these noble Representatives, with heads softer than their hearts, kneel down, swallow the veto, eat their words, and reverse their votes.

The next Congress, we trust, may be an American Congress, containing Representatives made of sterner, better stuff.

In the Senate the former vote on the bill was 30 to 17; the change of two votes would make the necessary two-thirds. Accordingly if it should have happened that the House passed it, it would probably also pass the Senate and thus become a law. The bill is dead for the present session.

The claim, however, still lives, and will, ere many years elapse, be paid; not merely the paltry $5,000,000, so despised by Presidents Polk and Pierce, but the full just claim, with interest.

DIALOGUE ON OATHS.

Dover Gazette.—The Portsmouth Chronicle of Saturday last contains a communication with reference to our late remarks upon the know nothing oath. It is evidently an official document, issued under the special sanction of chief Sachem Dame.

Chronicle.—Sachem Dame knows no more about the article than Mr. Gibbs did.

Dover Gaz.—By a sort of analogical reasoning, it takes direct ground that the members of the order are bound, conscience or no conscience, to do the bidding of the majority whatever that bidding may be.

Chron.—Our correspondent X. took no such ground: but said expressly:—"An oath to do a wrong act is not binding on the person making it—whether prefaced with conditions or not."

Dover Gaz.—The writer says, we belong to the order of Masons and Odd Fellows, "in one of which the obligation is prefaced by an assurance similar to that of the know nothings;" and then asks, whether we consider these obligations binding? We answer, yes, so far as they do not conflict with the duties we owe to God, religion, ourselves and our country, but no farther. If in any point they conflict with these duties, they have no binding force in them. Even though no assurance were given, every obligation of every secret society must yield to the prior duties above referred to. The duties to God, religion, ourselves and our country, taking precedence of all others, we cannot swear away.

Chron.—This is our own opinion, exactly, of all oaths, judicial as well as extra-judicial.

Dover Gaz.—[Speaking of the K. N. Lodges.]—We said that the oath taken in connection with the previous assurance does not compel any man to act in conflict with his own convictions of duty.

Chron.—So say we,—and we go farther. Oaths to do wickedness and folly bind no man, whether explained away or not.

From reading the article we infer that "X" considers that the K. N. Obligation does not conflict with right, and is therefore binding—but if any one believes any part of it does transgress on his right of private judgment, it must give way—which leaves him and the editor of the Gazette very near together after all.

DEATH OF COL. BARTON.—An extra from the office of the "Voice of the Stockholders," states that Col. Cyrus Barton, of Concord, died at a political meeting at Loudon Centre. The extra says:

"Mr. B. had been speaking under some excitement, and as he closed, attempted to take a little water from a tumbler that stood near him. He faltered before he replaced the tumbler, and was dead in less than two minutes after he ceased to speak. Mr. Barton was a native of Croydon, N. H., was for some years editor and publisher of the Newport Argus, and in July, 1829, became editor and one of the publishers of the New Hampshire Patriot, in which establishment he continued until December, 1841; for about three years past he has been one of the editors and publishers of the State Capital Reporter. Two years he was in the State Senate; one year a member of the executive Council; and was a member of the Constitutional Convention in 1850.—He was U. S. Marshal for the District of New Hampshire under President Polk; and last year he presided over the Common Council, the second branch of the City Government.—His age was 58."

From a circular received from the surviving editor of the Reporter, we learn that the funeral of Mr. Barton will take place this afternoon, at 1 o'clock, from his residence in Concord, under the direction of the Masonic Fraternity, of which he was a member.

LOCAL.

NEW READING ROOM.—We are informed that the Mercantile Library Association of this city, propose establishing a public subscription Reading Room, provided sufficient encouragement is offered. Since the close of the Mechanics Reading Room, such a public convenience has been much needed. The proposed Room will be well supplied with newspapers from all sections of the country—both dailies and weeklies. But 40 or 50 subscribers are required. The subscription price will be $3 per annum.

MISS HOLLEY.—The Temple, on Sunday evening, was occupied by Miss Sallie Holley, who offered an eloquent and touching appeal to all Christians, and especially to Christian women, in behalf of the slave, and of course against slavery. The audience was numerous, highly respectable, and attentive.

THE SANTEE.—The Traveller says, it is anticipated that she will be a swift sailer.—Her armament consists of two sixty-four pounders, sixteen thirty-two pounders of thirty-three cwt., ten eight inch guns of sixty-three cwt., and twenty thirty-two pounders of fifty-seven cwt., making fifty-eight guns. She measures between perpendiculars 190 feet; extreme beam, 46 feet; draft water, ready for sea, 21 1-2 feet; tonnage about 2000.

FOURTH OF MARCH—WHY SELECTED.—Do our readers generally know the reason why the fourth of March was chosen as the day for the inauguration of the President of the United States? It was selected because the fourth of March in every year commencing from the first inauguration, cannot come on a Sunday for at least three hundred years.—*Exchange paper.*

The above statement, which we find floating about in the papers, is incorrect. Gen. Taylor's inauguration would have been on the Sabbath, had it taken place on the 4th of March. It was postponed till the Monday following.

WHAT "SAM" WILL DO.—Mr. Babcock of Va., having advocated an expenditure by Congress, the other day, on implication that the Know Nothings coming into power would plunder the treasury, Mr. Sollers of Maryland replied:

"We shall as certainly obtain the possession of the government as there is a God in Heaven, and we will administer it with purity, without the smell of fire on our garments. The gentleman from Virginia might talk as much as he pleased about the Know Nothings, but they will restore the government to its original purity."

Mayor Wood has determined to send the Belgian convicts back to their native land. The proposition to allow them to go to the Western country he will not listen to; but replies, if they are not fit to be let loose in New York, it is quite certain they are not fit for the West; that in acting for the good of the city he must act for the good of the country. That is right. There is no reason that the United States should be the Botany Bay of the world to take all the convicts; or a swill tub to feed the paupers. If we cannot be protected without, it should be made a cause of national complaint or of absolute non-intercourse with the nations that persist in such wrongs.

NEW YORK, Feb. 19.—The Belgian Charge d'Affaires at Washington refuses to return the Belgian criminals, now in the Tombs here, to Antwerp, and an attempt will be made to release them on a writ of habeas corpus. Mayor Wood is determined that they shall be returned.

Letters have been sent to various individuals in various parts of the country, signed Ferdinand Feutchwanger, agent of Post Office, New York, calling for the payment of $2 on a valuable package, &c. The whole thing is a base swindle.

Mr. Sumner has lately introduced a bill into the senate, that is of the utmost concern to 200,000 seamen of the United States, it being no less than an act for the payment of wages, in case of ships being lost. This is now done under the English law, and Mr. Sumner's bill provides, first, that seamen shall be paid their wages down to the time of the loss of the ship, in case they serve faithfully to the last; and, second, that they shall not be permitted to lose their wages, through any agreement in the shipping articles.

RUMORED ACCIDENT!—It was *reported* at Concord this morning that a man was drowned on the side walk of that place, near the Phenix Hotel. The story seems incredible, but as we found the water there yesterday afternoon *boot leg* deep, and no better chance than that for getting up or down street, it may be so. It may be that the City authorities of that place have concluded to run business on Main street by water!—*Manchester Mirror.*

NEW YORK, Feb. 19.—Steam tug Leviathan came up to the city this morning, having been in search of the light ship which broke adrift from Nantucket shoals. She was found high and dry on the rocks at Montauk, and it was supposed could not be got off. A government schooner was at anchor near her.

In New York last week, a laborer, who was cleaning a boiler in a sugar refinery, felt cold, and requested a fellow workman to turn on the steam. The man turned on more than he intended, and the poor fellow inside was scalded to death.

The Portland Advertiser estimates the loss by the late fire in that city at $15,000. The loss by the fire in Pearl street, New York, on Thursday morning, was over $60,000. Frederick Nodine, a fireman, fell from the roof of a five story building, and lodging in a snow drift, escaped uninjured. Several other firemen were nearly suffocated by smoke.

DONATION.—One of the oldest and most highly esteemed of the Unitarian clergymen of Boston received last week a donation of one thousand dollars from the son of a parishioner recently deceased, in obedience to the request of his father, made after his will was written. The gift was made the day after the funeral of the deceased, as the son was desirous of fulfilling his father's wishes without delay.

"Old Folks" Choir.

Agreeably to adjournment, the Old Folks' Choir will meet at Exchange Hall on Saturday Evening, Feb. 24th, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, and business. Others acquainted with the old music, are invited to join the choir, at the above time and place.

Per order. J. P. PAYSON, Sec.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. E. PARSTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m f1 d&w

CONGRESS.

MONDAY, Feb. 19.

SENATE.—Mr. Cass of Michigan, stated that he should reserve his Clarendon review until to-morrow.

Mr. Seward of New York, presented petitions from merchants and shipowners in New York, in favor of the passage of the passenger bill.

A joint resolution was passed to settle the account of the late Gov. Burt, of Nebraska.

The Pacific Railroad bill came up by appointment.

Mr. Clayton of Delaware, wanted a communication between the Eastern States and the Pacific, but he did not believe that either of the roads embraced in this bill could be built, and if built, the alternate sections of land would go the builders, and nothing would be left to maintain the road except the treasury of the United States. The through travel and freight would not support the road, and there was no way travel of consequence.

Mr. Butler of South Carolina, agreed mainly with Mr. Clayton, and thought the scheme was too extensive, and that its projectors were not well informed enough to carry it through.

Mr. Gwinn of California, said it was proposed to build three roads which will cost from three to four hundred millions of dollars. The rail roads now use annually, 380,000 tons iron, of which 100,000 are manufactured in the United States. The roads now in construction will soon make the amount annually consumed 450,000 tons, exclusive of roads projected by this bill. Where is all this iron to come from?

Mr. Pearce of Maryland, was opposed to the bill, and was astonished at the earnestness with which such an enormous project was presented, and said he could not vote for any part of the scheme.

Mr. Rusk of Texas, favored the bill.

Mr. Butler, of South Carolina, pointed out further difficulties.

Mr. Gwinn of California, replied, answering all objections.

Mr. Seward of New York, said he never expected to be here advocating three railroads to the Pacific, but so it was. He thought the country would never be in a better condition than now to undertake the enterprise, and that the advantages incidental thereto would justify the undertaking.

Mr. Mason of Virginia, said the mails and munitions of war would be transported over these roads. It would be a government enterprise. He was astonished that Senators possessed so little information in regard to the construction and working of these roads. He hoped provision would be made to require the proposals of contractors to be reported to Congress, and moved to amend the bill for that object.

Messrs. Chase of Ohio; Bell of Tenessee; and Evans, of South Carolina, continued the discussion, when, at a late hour, the question was taken and the bill passed, yeas 24, nays 21.

The Senate then went into executive session, at which Douglas C. Cooper's nomination for the Southern Superintendency of Indian Affairs, vice Thomas S. Drew, removed, was sent in.

The following nominations were confirmed: John Appleton as Secretary of Legation at London; Mr. Cox of Ohio, as Secretary of Legation to Peru, and Mr. Atchison as third auditor, in the place of Mr. Burt. Adjourned.

HOUSE.—Mr. Wheeler of New York, presented a petition from the merchants and ship owners of New York, in favor of the passenger law.

The Speaker announced that the first business in order was the consideration of the President's veto message..

Mr. Bayley of Virginia, wished the consideration postponed until Thursday.

Mr. Orr of South Carolina, urged immediate action.

After some debate, the question was stated, shall the French Spoliation bill pass, the President's objections to the contrary notwithstanding, and under the previous question, was decided in the negative—yeas 86, nays 113.

The House went into Committee of the Whole on the civil and diplomatic bill.

Mr. Sollers of Maryland, offered an amendment to the veto message, which the Speaker decided to be out of order. The Speaker's decision was sustained after considerable discussion.

The committee rose and the House adjourned.

OF
PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture.—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—

varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember — no disappointments — each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The follrwing is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
FOR THE CURE OF
DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Billious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove one by one the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clap boards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

JAMES A. WOODBURY.

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested in the very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to make or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 30 cents per Table. To those owning "Rights" they will be furnished at cost if desired.

AMERICAN AND FOREIGN OFFICE.
Agency for Patents, UNITED STATES Patent Office, Washington,
76 State st, oppo. Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in order to obtain a Patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 2) years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,

FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED AND IRREGULAL MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*. . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

MORAL STATISTICS.

The Christian Secretary, which is the Baptist paper of Hartford, Conn., has lately published some startling moral statistics of Hartford County, as it was last summer. These statistics were collected by a Mr. Brown, employed for the purpose, and published on the spot.

The number of distilleries in the county last summer was *sixty six*. Of this number, thirty three were in the town of Granby, thirteen in Canton, and six in Simsbury.

The number of places in the county where liquor was sold, was three hundred and six—one hundred and forty of which were in Hartford; fifteen in Suffield; thirteen in Enfield; thirteen in Glastenbury, and twelve in Granby. Hartland had but one.

The whole number of drunkards in the county was *two thousand six hundred and forty eight*, of whom one hundred and sixty three were females.

The number of tipplers in the county was two thousand seven hundred and sixty four.

The expense of pauperism in the county was $18,279, four thousand of which was paid by Hartford. The expense of pauperism from *intemperance* was $14,000, about seven ninths of the whole expense of supporting paupers in the county. Let this fact be remembered.

The expense of prosecution was $4,028.

The number of families suffering from intemperance was fourteen hundred and seventy. The number of children connected with those families, three thousand and ninety one.

In fourteen localities *one fourth* died drunkards.

In eight localities, *one third* or more died drunkards.

In three localities, *one half* or more died drunkards.

The result compels us to the belief that more than one fourth and nearly one third of the male adult population of Hartford County, who have died in past years, have died drunkards.

Does any one ask how they came thus to die? The answer is, a corrupt public sentiment was the occasion of it. Is it asked, Who slew all these, and how was it done? The answer is, *men* and sometimes *women* were licensed, and thus, were not only *permitted*, but *encouraged* to do it. The answer again is, because there was no Prohibitory Law to prevent it.

An influential resident of a certain town, being asked how many drunkards there were in his town, after a little hesitation replied, 'perhaps there might be a dozen,' and added, 'that on temperance they were getting along pretty well.' Now, in that town the drunkards had just been counted, and the count showed that instead of twelve there were over seventy common drunkards, and more than thirty families suffering in all their temporal and eternal interests from the traffic. And further, it was shown that the town was taxed the last year about $600 for the support of paupers, and prosecutions for crimes, all of which had their cause in the dram shop; and in the same town, in one year, nine persons died the drunkard's death! Now it is probable that this good man was honest (in a certain sense) in thinking and saying as he did; that is, he spake as he thought, so far as he thought at all. But his sin was, that he had not examined the subject as he ought to have done. He had not honestly and thoroughly considered this important subject.

Again: a minister of the Gospel being asked what proportion of the men who had died in our towns, the last few years, he supposed were drunkards, replied, 'perhaps one in twenty—certainly not more.' But an examination of the records of his own parish, for five minutes, showed that twenty two men had died in the last five years, and of these nine were confirmed drunkards.

EARTHQUAKE.—BANGOR, Feb. 19, 10 A.M. A shock of an earthquake was felt here at half past five o,clock this morning. It shook

The enormous quantity of forty-seven million gallons of whisky, rum, and brandy, and thirty five million gallons of strong beer, were made in the United States during the last year—being more than three gallons apiece to every man, woman, child, and sucking baby, black and white, in the country.

Morning Chronicle.

THURSDAY, FEBRUARY 22, 1855.

POLITICAL PICTURE BOOK.

Our readers, of all political parties, will be interested in the following choice extracts. The first is from the Newburyport Herald.

The State canvass is progressing in New Hampshire with the most desperate attacks on both sides. If one half what is said be true, many of the candidates deserve places in the State Prison rather than the State House.—But that is the way they electioneer in New Hampshire, and neither party mean anything by what they say.

The next is from the Manchester Stars and Stripes, an American or K. N. paper.

It does seem to us that no man can well be called a freeman who binds himself to stick to his own party, right or wrong. That there has been too great a tendency to do so, is generally admitted by sober men. A certain class of men have, for instance, arranged themselves under the denomination of ———. The name has been preserved ever since the early days of our Republic, and many are to day ranking themselves under that denomination simply because it was the party to which their fathers and grandfathers adhered. Meanwhile the issues have entirely changed. Not a single question that agitated the public mind at the time of the old democratic and federal parties, is agitated now.

There is some mistake here. The democratic party is by no means an old one. The parties in 1812, when war was declared, were called republican and federal: and the peace of 1815 killed both of them; Monroe's administration *fused* the elements of both; and the Democratic, the National Republican and Whig parties grew up afterwards. The advice, however, is good. "Stick to your party"—while it suits you—but no longer.

Thirdly, we copy, with warm and hearty approval, the following advice, on the same side, from the New Hampshire Gazette, which we need not say, is the organ of the regular Administration Democratic party.

But an honest man need no more hesitate to break loose from the degrading thrall of these midnight plotters against individual liberty, than a prisoner of war to escape from the hands of the enemy when not upon *parole*.

The moment a man feels that his shoulder is to be made the support from which an old party tool is to be lifted into office, he has a right to step out of the wrong shop he has blundered into, even if the old fogy that mounts him gets a tumble by his bolting.

This is excellent. It agrees not only with the K. N. advice above cited, but also with the Whig Convention in District No. 1, who wisely advised the people to vote for whom they pleased.

When Uncle Toby was a youngster, there used to be some talk about sticking to regular nominations. And for a number of years it meant something, but it does not amount to much now.

He would recommend one more step in advance of old times in New England, viz., to let the candidates nominate themselves, and then take the stump before the people, as they do in Virginia and in many parts of the South and West.

PRAYER FOR COLLEGES.

This day will be set apart by Christian Churches throughout the land, as sacred to *Prayer for Colleges*. The relations and mutual obligations of colleges and churches are numerous and impressive; and none who view the subject aright can fail to be exercised with sincere christian concern for the sustainance of these relations, and the fulfilment of these obligations. The colleges are eminently the "Schools of the Prophets"; and ministers of Religion are called by one, the "Sons of the Colleges."

The colleges owe their existence, in a great measure, to the churches; and the churches are prominently, though mediately, indebted to the colleges for the teachers of Religious truth, who are scattered throughout the country and the world.

The importance, therefore, of prayer for these educational institutions, is commended to the soul of every christian; and this annual concert of prayer, which will be this day observed, is directly in the line of christian obligation and privilege. X.

Religious services in connection with the above Annual Concert of Prayer, will be held by the North Church, in the Vestry on Fleet street at half-past 3 o'clock this afternoon.

THE RELIGIOUS TEST.—The Daily Patriot has a long article, in which it is clearly shown that most of the leading whig politicians in New Hampshire, only a few years ago, favored and advocated the abolition of the Protestant test in our Constitution. The charge is true, of them, as well as of the leaders of the democratic party.

The people, the rank and file, however, indignantly rejected the whole thing, by a two thirds vote. In this State, New Hampshire, the majority of the Democracy are decidedly and exclusively Protestant.

St. Helena has a population of 5490 persons, of whom 534 are liberated Africans, and 511 soldiers.—There is but one physician, and but two attornies on the island.

For the Chronicle.

A DEFENCE OF THE LADIES.

Messrs. Editors:—Every publication is crying out against the extravagance of the ladies. They it is, we are told, who have caused the present depression of business, and they it is who cause most of the financial trouble. Now I have a word or two in reply to this nonsensical trash. In the first place it is not true; but even supposing it was, the ladies are not to blame. Their husbands and fathers hold the purse strings, and if they are ninnies enough to let the *soft* sex spend all their "rhino," it is silly to whine about it after the money is gone. It is well for a man to count the cost, before he marries. If any one expects to indulge in the luxury of a wife, without some increased expenditures in living, he is apt to be wofully mistaken; and the man who would attempt to do so, is inoffably mean.

Numerous are the plans offered to remedy the fancied evils—the extravagance and idleness of ladies—but so long as the present state of society exists, they will remain. One political economist is for having the daughters of wealthy parents dress in calico and *work* in the kitchen, instead of dressing in silks and *playing* in the parlor. This may be good theory, but who that is rich will practice it? None but simpletons and misers. It is well for a young lady to understand domestic affairs, because when married it is probable her knowledge in this line will be needed; but it would be sheer folly for the daughters of a gentleman of affluence, to wash, cook, &c., in place of a domestic, *before* they are married. They may *have* to do it, afterwards, and in view of such a calamity, it becomes them to enjoy themselves and take their ease while single.

I am not one of those who think "beauty unadorned is adorned the most," although it may be so; but I do think if it were not for fine dresses and ornaments, many ladies who are now set down as fair to middling, would be pronounced decidedly plain. This, too, is the opinion of most ladies, and hence it is that they devote so much time and attention to the toilet.

I do not like to see the daughter of poor parents dressed richly and sitting idle, while her father and mother are hard at work; and when I do see such a sight, always think the parents are as much to blame as the child. I am well aware that pride and poverty frequently go together; and also that a girl loses *caste* by working at a trade or in the factory, even though she is able to live without so doing. As an illustration of these facts, I will relate some instances that have come under my own observation.

Two young girls living in this city, a number of years ago, were schoolmates, playmates, and what are called *friends*. The parents of both were as poor as any one would wish to be; and much poorer than *I* should wish to be. One of the girls went to learn a trade, when she became of the proper age, and meeting her old playmate one day, was going to have a chat with her, but was astonished to find herself discarded by her old acquaintance. Although the girls met often, the one that did not work for a living, never condescended to speak to the one that did. Many of her former friends, beside the one I have in view, treated her in like manner. I should not omit to mention that the girl who supported herself, was by far the most accomplished and intelligent of the two. The father of either girl could not have been worth more than 6 1-4 cents, after his debts were paid, and yet one girl felt above the other. Verily, true democracy is as rare among womankind as among men. I never heard of such a strange anomaly as a democratic woman;—they are all aristocratic in their sentiments, even though not possessed of a dime.

I knew another girl, the daughter of a gentleman in easy circumstances, who became a milliner. Some of her old acquaintances have not noticed her since she "came down," as they term it; and she feels the slight keenly. Still she is an only daughter, and not one man in fifty, in Portsmouth, owns as much property as her father.

COROLLARY.—A poor man must grub along as best he can. If he has daughters, let him do the best for them his means will allow, and trust to good luck for the rest.

A rich man should spare no expense in making his daughters accomplished ladies. Let him remember that whether it is right or wrong, females are universally proud; and that public opinion, while it tolerates the labor of a man, as comparatively respectable, would consider it humiliating and disgraceful for the daughter of the same man to do any useful work. Let him remember, too, that the same writers who say so much about the "dignity of labor," would hardly notice a poor girl who was compelled by necessity to maintain herself; and that if a rich man's daughter does the same work, no matter how wealthy her father *is*, the public will think less of her and him for it. SUSAN ELLEN.

In the Missouri legislature, on the 7th, Mr Doniphan presented a memorial praying that the publication of abolition sentiments be made a penitentiary offence.

LOCAL.

COURT OF COMMON PLEAS.

TUESDAY, Feb. 20.

In case of State v. Ladd, referred to yesterday, the jury returned a verdict of *guilty*, and value of property sold $80.

In case of State v. Edward D. Huntress, (a name well known at Portsmouth,) on an indictment for stealing, verdict *not guilty*, by reason of insanity. The Court will probably send the Respondent to the Lunatic Asylum at Concord.

In case of State v. William White, indicted for stealing, on account of the youth of the Respondent, and the other mitigating circumstances, the Court put him under the guardianship of a relative, and released him from custody, upon his own recognizence.

Case of State v. Joseph Cornelius, indicted for assaulting and obstructing a police officer at Portsmouth, is now on trial. Hatch for State—Goodall for Respondent.

The next case in order is State v. Blaney.

PISCATAQUA BRIDGE DESTROYED.—That time-honored and once famous structure, the Piscataqua Bridge, was so damaged by the jam of ice from the Bay, on Monday, Feb. 19, as to be beyond the hope of repair. It was swept away, to the length of from 500 to 700 feet, between Goat Island and the Newington shore. This accident, of course, stops all travel between Durham and Newington: and the injury is so great, while the income is so small, that the Bridge will not be repaired.

The Bridge was built in 1796, at great cost, and was then justly regarded as the noblest work of the kind in this country.—The Railroads have now superseded its use.

BOOKS THAT ARE BOOKS.—The scholar who knows what he wants, and the reader who does not know exactly, can both be suited, by looking at the large collection of standard literature and miscellaneous books, which are now offered at public and private sale (see advertisement,) at Towle's auction store, and will be so offered to-day and on Friday and Saturday, including the evenings. The collection includes many books of biography, voyages, travels, as well as those of science and art.

☞ B. F. Ayer, Esq. of Manchester, will address a meeting of the Democracy, at the Temple in this city, on Friday evening, at 7 1-2 o'clock.

WHAT A PITY.—All the eloquence and virtuous indignation, which we poured out on Wednesday morning, upon the devoted head of "A Subservient House," must go for nothing it seems, and be thrown away. The papers of Tuesday, mailed by telegraph, all told us, that the Vote in the House, on passing the Spoliation bill in spite of the Veto, was 86, yeas to 113 nays. But on Wednesday, they reverse the picture and tell us:

The vote of the House on the French Spoliation bill on Monday was yeas 113, nays 86; a majority of 27 in favor of the bill, but requiring a change of 20 votes to have made the two-thirds vote, necessary for the passage of the bill notwithstanding the President's veto.

This alters the case materially: and therefore we must praise the House as well as the President, for their firmness: only regretting, if we regret at all, that the House did not give a two-thirds vote.

We have now but little doubt, that the revival of this subject, and the discussion now going on, will result in the full payment of the just claims, perhaps by the next Congress; if not, then certainly by the next Administration.

WASHINGTON, Feb. 19.—The Secretary of the Navy has oppointed Commanders Engle and Gardner, to select propellers to be sent in search of Dr. Kane.

The *American Organ* of this afternoon, publishes a letter from Senator Wilson, in answer to questions propounded by that paper. He says that he fully recognises the doctrine of State rights in its application to slavery; that he does not entertain the opinion that Congress has any power to interfere with slavery as it exists under State laws, and that the American organization in Massachusetts does not embrace the subject of slavery among those laws for the regulation of which it was formed.

THE WARRANTS.—Selectmen should bear in mind that their Warrants for the annual town meetings must be posted up *fifteen* days before the day of meeting; and according to our laws they must, this year, be posted up on *Saturday next*, the 24th instant. And the check list must also be posted up at the same time. Monday will not answer; it must be done on Saturday.—*N. H. Patriot*

THE FRESHET ON THE MERRIMAC.—On Friday and Saturday last, our wharves were completely submerged, owing to the freshet and high tide in the river. Had there been a high wind accompanying it, the loss of property would have been great. A jam of ice, on Saturday, started the farther wooden pier, under the bridge, some six feet. The pier is now secured by chains.—*Newburyport Herald.*

In New Hampshire at the commencement of the present political canvass, the Patriot endeavored to dissuade the democrats from joining the Know Nothings on the ground they were free soilers. Now it is trying to prove that Metcalf is pro slavery. One horse at a time, man.—*Newburyport Herald.*

DISCHARGED.—The examination of Dr. I. J. Wetherbee, of Charlestown, on a charge of gross criminality, was concluded before Justice Ladd of East Cambridge, Saturday afternoon, and resulted in the discharge of the defendant from want of sufficient evidence.

THE THOUSAND DOLLAR DONATION.—The recipient of the donation of a thousand dollars, mentioned yesterday, was the Rev. Dr. Gannett, and the money was presented to him by Rev. E. A. Renouf, son of the late Edward Renouf, in obedience to an injunction of his father before his decease.—*Boston Adv.*

On Thursday last, Nelson Driggs was arrested in Chicago with over $30,000 in counterfeit bill upon his person and among his baggage. The bills were handsomely executed, of all denominations, and on various banks in the Eastern and Western States.

"Old Folks" Choir.

Agreeably to adjournment, the Old Folks' Choir will meet at Exchange Hall on Saturday Evening, Feb. 24th, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, and business. Others acquainted with the old music, are invited to join the choir, at the above time and place.

Per order. J. P. PAYSON, Sec.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.

ONE WEEK LATER FROM EUROPE.

ARRIVAL OF THE BALTIC.

NEW YORK, Feb. 21.

The steamship Baltic, from Liverpool 10th inst, arrived to day at 1 o'clock, with one week later news.

A new Ministry has been formed, with Lord Palmerston as Premier. Minister of War, Lord Panmure. Foreign Affairs, Lord Clarendon; Home Office, Sydney Herbert; Colonial Secretary, Sir George Gray; Chancellor of the Exchequer, W. Glanstone; the Marquis of Landsdowne is in the Ministry without office.

Lord Aberdeen, the Duke of Newcastle and Lord John Russell go out. Lord Panmure's coming in makes the balance of interests about the same as in the old ministry.

In the reconstruction of the new Cabinet, the Earl of Derby, Marquis of Landsdowne, Lord John Russell and Earl Clarendon, were successively sent for by the Queen, but they all failed to form a Cabinet, and Lord Palmerston was sent for, and succeeded.

The Vienna Peace Conference has not yet opened.

There is very little other news of importance

Nothing of importance had occurred in the Crimea.

The Turks had defeated the Russians in a rencontre on the Danube.

It is reported that there has been a mutiny among the Zouaves in the Crimea, and that 400 of them had been sent prisoners to Constantinople.

Sir Charles Napier had made a savage speech in Parliament against the government.

Corn market dull, with a limited business and unchanged in prices.

CONGRESS.

TUESDAY, Feb. 20.

SENATE.—After sundry unimportant matters were disposed of, a discussion arose between Messrs. Benjamin, of Louisiana, and Seward, of New York, relative to the Passenger bill.

Mr. Cass, of Michigan, made his personal explanations in regard to Lord Clarendon's speech.

Mr. Mason, of Virginia, followed Mr. Cass, and said that he was in possession of information that Lord Clarendon, in an unofficial conversation with the American Minister at London, had said that he was surprised to find that Mr. Cass had put a wrong interpretation upon his language. His only meaning was that France and England were united in erecting commercial treaties with the countries bordering on the Rio de la Platte.—While conceding to Lord Clarendon the right to interpret his own language, he (Mr. Mason) chose to take a series of expressive acts. He then reviewed the course which had recently been pursued at San Juan, the more distant incidents which led to the annunciation of the Monroe doctrine, and to intermediate interpositions in American affairs.

HOUSE.—Mr. Bennett's bill, granting lands equally to the several States for railroads and school purposes, was laid on the table by a majority of two.

The House went into Committee of the Whole on the Civil and Diplomatic Appropriation bill.

An amendment was adopted, voting $300,000 for the extension of the Treasury buildings, with a view of affording accommodations for the State Department.

An amendment was also adopted, voting a similar sum for the enlargement of the General Post Office Department.

The committee then rose, and without transacting any further business of importance, the House adjourned.

PHILIPP WENZEL proposes a SECOND

EXHIBITION AND DISTRIBUTION

OF

PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture.—The number of Pictures is to be FOUR HUNDREDS, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—

varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember—no disappointments—each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and

P. WENZEL, Congress St.

Portsmouth, N. H., Jan. 19, '55.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

THE GREAT REMEDY IN CONSUMPTION; Cures Coughs, Colds, Influenza, Croup, Hoarseness, Pulmonary and Bronchial Irritations about the throat and chest. For sale by all Apothecaries and Country Traders. j13

Henry Carrington, a Boone county, Ky., farmer, was abusing his wife, when her sister interfering, he caught her by the throat, and she plunged a carving knife into his side, so that he died in great agony the next morning. The sister-in-law escaped.

A terrible affair; and yet the world is well rid of a monster, for whom no one can mourn.

NEW YORK, Feb. 20.—Gen. Sam Houston delivered his lecture on the American Indians, before the New England Young Men's Association, and a general gathering of citizens, at Niblo's Theatre, last evening. He was received with much enthusiasm, and at the close a voice in the crowd nominated him for the next President, which was received with three cheers. After the lecture he was serenaded at his hotel.

The Weekly Chronicle,

An Independent Family Newspaper,

Only $1 per year, in Advance.

The Weekly Chronicle and the American Phrenological Journal, or Water-Cure Journal, for only **$1.50** *per year; or all three for* **$2.**

THE WEEKLY CHRONICLE has now been before the public for two years; and the steadily-increasing list bespeaks its popularity, no less than the favorable opinions expressed of it wherever it is known. Being published in connection with the Daily Chronicle, we are enabled to give in the Weekly, more reading matter than could otherwise be afforded for $1.

During the present Winter much interest will be felt in the movements of the various political parties in the State and Nation. And perhaps there is no more reliable source for information respecting the movements, prospects and conditions of each and all parties—than a newspaper free from the shackles of any of them. We shall not hesitate to express any opinion which we deem our duty as public journalists calls for; nor shall we advocate or condemn any movement because this or that sect or party may agree or disagree with us. But while we shall not feel bound to the sway of any party, we mean to treat all courteously; and while fearlessly expressing our convictions, we hope to be able to "give a reason for the faith that is in us."

On the American question we long ago expressed our opinion; and all who have been our readers, know that the Chronicle has ever been in favor of "Americans governing America." We do not feel inclined to resign this policy, merely because the Know Nothing party have adopted it.

In matters of Local Interest, our Daily issue enables us to give full reports—forming a most interesting feature in the Weekly.

TERMS $1 a year, strictly in advance. We will furnish the Weekly Chronicle, and either the American Phrenological Journal or the Water-Cure Journal, for $1.50 per year; or the Chronicle and both these excellent Monthlies, for $2 per year. The regular subscription price of each of the above mentioned Monthlies is $1 per year.

IMPORTANT IMPROVEMENT

Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained or tender* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work in a better manner than to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing* the *thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lesson—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:

Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The Series is based on a new, simple rule, which may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of

THE GREAT STANDARD REMEDY

FOR ALL PULMONARY DISEASES.

THE VEGETABLE PULMONARY BALSAM FOR CONSUMPTION

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively advertised and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*,—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JOHN ELIOT, Philadelphia.—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says: "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

☞ *Beware of Counterfeits and Imitations!!*

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its efficacy in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOOR ALBUS, or WHITES; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF THE WOMB; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observation.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UNRIVALED CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with Female Weakness, for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAITT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*. . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

For the Chronicle.

YOU'LL NOT SEE ME IN THE SPRING-TIME.

Lines suggested by the reading of an account of the death of Miss Mary R. Mitford, written by her friend J. T. F., to whom she thus expressed herself in her last letter to him: "You will not see me in the Spring-time, but they will tell you where I'm sleeping."

"You'll not see me in the Spring-time,"
When Earth from her sleep awakes,
When the streamlets dance and the sweet bird's song
The mourning stillness breaks,
The air will be full of melody,
Bu it will not wake my heart,
For I feel this eye will close in death,
The soul to its God depart.

"You'll not see me in the Spring-time,"
When the bud is bursting forth,
For I shall be silent lying
In the arms of mother earth.
"But they'll tell you where I'm sleeping,"
(Those I have left, so dear,)
While I watch in my Father's mansion,
O'er all who linger here.

"They will tell you where I'm sleeping"
My long, last dreamless sleep;
But 'twill be in the glorious Spring-time,
When the green grass forth doth creep.
So spake she of the loving heart,
Whose works breathe of a soul
Too pure for a long abode below,—
It has sought its heavenly goal.

'Ere the Spring came forth in beauty,
With its thorns and buds and flowers,
God called thee, Mary, to slumber there,
"With the loved and lost of ours."
And we ask not of your home, Mary,
For we know eternal bloom
Flowers brighter than those of Spring-time,
Of rarer and richer perfume.

But the memory of *thy name*, Mary,
Will last while the heart can *feel*,
Or the eye glance o'er the pages
That do thy power reveal.
Yes, sweetly sleep,—while many a heart
Is filled with love for thee,
Whose chords have thrilled with thy magic power,
Waking sweet harmony.
"Rest, 'neath the green turf calmly rest,—
Death loves a shining mark the best."

S. L. B. D.

South Framingham, Mass., Feb., 1855.

A sensible husband is he of whom the following story is told: His wife having eloped with a travelling lecturer, was arrested by some officious friends. The husband refused to prosecute, but requested three of his neighbors to say what he ought to do in the matter. They decided that the wife should go off with her lover, taking her clothes, four hundred dollars for travelling expenses, and her *melodeon*. A righteous judgment. The lucky fellow not only got rid of a too loving wife but of all her baggage at a very cheap rate This pleasant occurrence happened in the vicinity of Fitchburg.

In Boston, last Saturday evening a girl named Holleday was taken to the North house, who had attempted suicide by jumping into the dock. She was about twenty four years of age, and said she came from Worcester a few days since, with a man who has since gone to sea.

In trying to find a leak in one of the main gas pipes at Salem, a lighted match was dropped into a water reservoir, when an explosion followed, which blew the searcher several yards across the street, without injury except singing his hair.

A regular counterfeiting league, composed of gangs located in Cleveland, Cincinnati and other portions of Ohio, has been discovered by the police, through a stool pigeon. Many well known citizens, including three police officers, are said to be actively engaged in the business.

FRIDAY, FEBRUARY 23, 1855.

THE CRITIC CRITICISED.

A writer in the Saco Democrat, signing himself "A Lover of Truth," makes a number of criticisms, and some corrections, on a late article on Deacon Giles's Distillery.—Deacon Giles's Distillery was a temperance tale, disguised, like Bunyan's Pilgrim, under the similitude of a dream. It was written many years ago, by Rev. George B. Cheever; and happening to fit too closely to an actual distiller in Salem, where Cheever lived, one of the distillers' hands assaulted him in the street. He was also taken up for the crime of libelling the distillers or the distillery, and cast into prison.

The Lover of Truth leans over very far on Mercy's side towards the libelled distillers,—but "comes down like a thousand o' brick" on Cheever, who was, as he deems it, rightly served in being beaten and imprisoned.

The late writer on the dream, speaking of liquor, says it had "made sad inroads in the family of the deacon—one of his sons having in a state of intoxication, been drowned in one of the vats. This was one of the strongest circumstances dwelt upon at the trial, as being literally applicable to Deacon John Stone." This is true: and he further says of Stone, "He lingered along several years, his property, health and courage declining, and failed." A lover of Truth adds:

"But he forgets to state that he was almost three score and ten years of age, and that finally he came down to the grave like a shock of corn fully ripe, to sleep in the arm of a Savior's love."

Our readers, we are sure, will rejoice with us, at so gracious an addition, and so happy a close. But before we go, let us see what out Lover of Truth says of Cheever.

Cheever left Salem shortly after his discharge from jail, wandered about for some time, and finally embarked for Europe, without any reference to the gospel ministry. He finally returned to America; repented of his sins, we trust, for he joined an Orthodox church in the State of New York; and is now a man of sober life, doing good to the sons of men as a preacher of the gospel, highly beloved and much esteemed.

Here, in the last clause, beginning "and is now," are some true statements; but the others are so ludicrously wide of the mark that Mr. Cheever himself and all who know him can hardly refrain from a hearty laugh at them.

He has repented of all his sins, we trust, and perhaps repented often; but we are not quite positive that he ever repented of the sin of libelling Dea. Giles and his imps.

It is quite likely he joined an Orthodox church in the State of New York,—very much in the same way as Franklin Pierce joined the Democratic Party in Washington. Mr. Cheever was not only a member, but the pastor of an Orthodox church in Salem, (now Rev. Mr. Allen's,) when he wrote the Dream. His church membership, we dare say, was never lost; and he is now, and has been for years, the Pastor of the Church of the Puritans, one of the largest and most substantial in New York City.

His wanderings in this country were exactly like those of other young unsettled ministers, preaching here and there; and his embarkation for Europe was also exactly like that of many other fortunate clergymen who go abroad.

In one of his absences, he wrote home some of the liveliest and best letters ever sent hither from Europe, which were published in the New York Evangelist, of which paper he was at one time an editor. And he did finally return to America—for when his many friends had completed the beautiful church which they built on purpose for him to preach in, he came home to occupy its pulpit, where he still remains.

His dream and trial give him notoriety, as well as sent him away from Salem; and his real talent and merit fixed him in his proper place in New York, and hold him there.

For the Chronicle.

WHO ARE SLANDERERS?—All persons who delight in circulating evil reports against their neighbors, whether true or false. Their manner of communication is in a feigned tone of sorrow. The cause of slander is selfishness; it springs chiefly from contracted minds. The effect of slander is generally to bring down on one's own pate, the evils intended for his neighbor. The common retailer of slander soon has a full supply, and is always ready to let off on all occasions, all manner of evil communications, whether true or false, when he imagines he can accomplish base designs against men far better than himself.

Z.

A man on the Hudson River Railroad who would not pay his fare and who was told by the conductor that he should be obliged to put him off, threw himself headlong from the car under great headway, and was seen to roll over and over.

A COTTAGE ON RUNNERS.—The *Watertown (Wis.) Democrat* says, that a few days since, the inhabitants of that quiet place were somewhat astonished by the appearance in one of the principal streets, of a good sized cottage house, mounted on runners, and drawn by four pair of heavy oxen. From a pipe chimney which rose above the roof, a volume of smoke was pouring, and around the fire within were gathered half a dozen children, while the wife was busily engaged in preparing dinner. The head of the family walked beside his patient cattle, and was urging them forward as fast as possible seemingly apprehensive, lest the sleighing should fail before he could reach a secluded spot upon the western prairie where he could turn loose his weary cattle and make himself a home.

DEATH OF COL. HUGER.—Died in Charleston on the 14th inst., Colonel Francis F. Huger, in the eighty-second year of his age. Col. Huger was the son of Col. Benjamin Huger, who was killed before the lines of Charleston, in the revolutionary war. The son, inspired with the patriotism of the father, afterwards joined Dr. Eric Bollman of Philadelphia, in his attempt to rescue Lafayette from the prison of Olmutz—an enterprise which resulted in the long incarceration of the young patriot. Huger returned to his native land in 1798, and was at a later date Colonel of artillery in the war of 1812. He has at different times served his native State in both branches of the Legislature.

NEW YORK, Feb. 20.—The steamship Illinois sailed this afternoon, for Aspinwall, with the California mails, a full cargo, and a large number of passengers.

The naval dry dock having been vacated, the frigate Sabine will be taken in to-morrow, for the purpose of being coppered.

Gen. Sam Houston left for Boston to-day, to deliver his promised lecture there on Thursday. He then returns to this city, and, it is understood, will deliver two more lectures next week before the Mercantile Library Association, and the Baptist Historical Society.

POST OFFICE IN BOSTON—In 1832 there were nine persons employed in the Post Office; now there are eighty. To show the enormous piles of printed matter, generally newspapers and periodicals, that are sent out of Boston post office only, it may be stated that 300 canvass bags are dispatched that weigh on an average 150 pounds each; thus giving twenty-two tons and a half a day. And 400 letter bags, that pass in and out of the office daily, it is estimated, will weigh one third as much more.

FIRE.—The store occupied by Mr. Ammi Storer, in Yarmouth, Me., was entirely destroyed by fire, Wednesday morning last at 3 o clock, together with his large stock of dry goods, groceries, &c. The goods were insured for $4000 in the Massachusetts Ins. Company, W. D. Little, agent; and the buildings for $900 in the Portsmouth Mutual, by the same agent. The lawyer's office of B. Freeman, Esq was over the store. He lost his entire library, papers, &c. The origin of the fire was accidental no doubt, but is unknown.—*Portland Argus.*

Two young men, belonging to Marblehead, were drowned from on board a Gloucester vessel, near the lower end of Plum Island last Friday. The vessel was in the fog, near the shore, without the captain's knowing where he was, when the young men took the boat to ascertain that fact. They were not afterwards seen till the dead body of one them was found, shortly after, on the shore. The boat probably capsized in the surf.

It is reported that the first Emigrant train for Kansas, will leave Boston the 6th of March, and the next the 13th; and afterwards one each week. The number from Newburyport is increasing, and with their families will number fifty persons. The Springfield Republican thinks that five hundred will go from Hampshire county; and the Lowell Courier talks of beating that, by sending enough to found a young Lowell.

A PLEASANT REMEDY.—A doctor in this city prescribes for one of his lady patients, that she shall come daily to his office that he may blow on her knee; and it is said that she takes that medicine every day, while he claims that the Lord blows into his ear. This is the last; what shall we have next?—*Newburyport Herald.*

A cheap and pleasant mode of relieving the poor has been adopted at Nashua, N. H. The City Hall on Wednesday evening is to be cleared out, warmed and lighted, and everybody invited to come in, paying twenty-five cents each for admission. Speeches will be made by any one who is moved to do so, and songs will be sung if any body is inspired.

The *Toledo Blade*, Feb. 16th, says there is in the interior country, on the farms of some, a constant demand for more laborers than can be obtained. There is an hundred times more food actually wasted in the interior daily, than would support the thousands now almost in a state of starvation in eastern cities.

Mr. G. F. Topley, of Worcester, has nearly completed a novel fire engine, which is to be worked by four horses. It is expected to perform the work of 160 men, and throw as much water as four of the best hand machines.

PROVIDENCE, Feb. 20.—Advices from Zanzibar announce the death of the Governor, the eldest son of the Sultan of Muscat. Business was suspended for five days in consequence.

The French Republicans in New York, on Feb. 24, will celebrate the anniversary of the French Republic; as they say—"of the glorious days, when extraordinary exertions were made to restore the lost liberties of a nation."

SEAMEN DROWNED.—Two sailors attempted to walk from an eastern vessel to the shore on the ice in Salem harbor, Wednesday night, but broke through and were drowned.

A. D. Erich, an old citizen of Louisville, and well known to the masonic fraternity throughout the country, is dead.

LOCAL.

☞ Rev. Dr. Gannett, of Boston, delivered the lecture before the Mercantile Library Association on Thursday evening. His subject was Good Manners.

He defined Manner to be the presentation which a man makes of himself to others: and described Good Manners as those which do not offend against propriety, delicacy or humanity. Manners may be both an index and a means of progress, in the formation of character; and he who will have good manners should cultivate sincerity, self respectand regard for the comfort of others. Good manners may be natural and artificial; but they cannot be affected. So self-respect must not be confounded with self conceit. In short, good manners cannot exist without character; and gentlemen and ladies, (using these words in a good sense,) are not exclusively those who wear costly clothing, possess great wealth, or live at ease; but many a gentleman, said the lecturer, will take up his mechanical tools tomorrow morning, and use them through the day; and many a lady, in a plain garb will toil in a humble mansion, with a most noble sacrifice of self.

The lecturer closed with some comparisons of national manners, and practical remarks on our own: all being in excellent keeping with the subject, and with the author's own character, as one who remembers and admires some gentlemen of the old school of manners.

To the lecturer and his performance we may properly apply the following lines:

Gentle, courteous and refined,
Unassuming, void of art,
Just to thyself, to others kind,
A gentleman in truth thou art.
A pupil of that ancient school,
Whose nature acts the tutor's part,
Herself the mistress and the rule—
For true politeness, it is bred,
Not in the head, but in the heart,
Altho' by both 'tis nourished;
And drawing thus its being thence,
Its parent is Benevolence.

COURT OF COMMON PLEAS.

WEDNESDAY, Feb. 21.

In case of State v. Cornelius, verdict *guilty*. He was sentenced to pay a fine of $60 and costs.

In case of State v. William Walsh, verdict *not guilty*.

In case State v. Blaney, the Respondent retracted his former plea, and plead guilty.

In case State v. Daniel B. Kenniston and Sarah E. Kenniston, indicted for assaulting and obstructing an officer, the jury returned a verdict of guilty against Sarah E. Kenniston, and of not guilty as to D. B. Kenniston.

NEW HAMPSHIRE.

Mr. Samuel C. Bailey is now engaged in canvassing this city for subscribers to a new book, entitled New Hampshire as it is. It is an octavo volume, of 592 pages, containing—1, a Historical Sketch of the State; 2, a Gazeteer; 3, a General View. By Edwin A. Charlton. It is published by Tracy & Sanford, Claremont, N. H., and is for sale in this city by the Agent only, at $1,75 per c py.

We have looked through the book, and believe it to be faithfully compiled, and to contain much statistical information.

The book is printed on a good sized type; and embellished by portraits of Daniel Webster, (in his last days;) of Horace Greeley; fine portraits of Frank Pierce and John P. Hale; Marshall P. Wildes, and Levi Woodbury: also with Views of Centre Harbor and Lake Winnipiseogee; Dartmouth College; the Old Man of the Mountain; Manchester Gas Works; and Mount Washington, from North Conway.

☞ Yesterday being the 123d anniversary of the birth-day of George Washington, a salute was fired at the Navy Yard at 12 o'clock, to commemorate the event.

☞ The alarm of fire on Thursday evening, proceeded from the house of Mr. Meshach Muchmore, on Washington street. A member of the family, after using a broom in sweeping the hearth, stood it behind a door, and was astonished into crying fire, on finding the flames communicating from the broom to the house. No great damage was done.

STATE OF MAINE.

At a Court of Probate, holden at Saco within and for the County of York, on the first Monday of February, in the year of our Lord eighteen hundred and fifty-five, by the Honorable JOSEPH T. MRS, Judge of said Court:

ON the petition of Josiah Remick, Administrator of the estate of EPHRAIM WITHAM, late of Kittery in said county, deceased, representing that the personal estate of said deceased is not sufficient to pay the just debts which he owed at the time of his death by the sum of eleven hundred dollars, and praying for a license to sell and convey so much of the real estate of said deceased as may be necessary for the payment of said debts and incidental charges:

ORDERED, That the petitioner give notice thereof to the heirs of said deceased and to all persons interested in said estate, by causing a copy of this order to be published in the Chronicle, printed in Portsmouth, State of New Hampshire, three weeks successively, that they may appear at a Probate Court to be holden at Biddeford in said county, on the first Monday in March next, at ten of the clock in the forenoon, and shew cause, if any they have, why the prayer of said petition should not be granted.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable and can do no harm, but do accomplish an unaccountable amount of good.

CONGRESS.

WEDNESDAY, Feb. 21.

SENATE.—An order was passed to meet at 11 o'clock for the residue of the session.

The order setting apart Friday for the consideration of private bills was rescinded.

After some discussion upon the Swamp Land bill, it was laid upon the table, and the Senate proceeded to the special orders of the day. The bill was laid over until to morrow.

Mr. Rusk, of Texas, from the committee of Conference upon the disagreement of the two Houses upon the Texas Debt bill, reported $7,750,000 as a compromise.

The Senate adopted the report of the committee, and the bill was concurred in.

The bill extending the credit for duties on railroad iron, was taken up, and Mr. Brodhead of Pennsylvania opposed it, reiterating his old argument.

Pending the debate, the Senate adjourned, Mr. Seward, of New York, having the floor.

HOUSE.—Mr. Fuller of Maine said that in January last he introduced and had referred to the Committee on Commerce, a bill to consolidate the revenue laws, which contained a clause in relation to carrying out the Reciprocity Treaty, and he wished to know if the Committee were ready to report the bill.

Mr. ——, from the Committee on Commerce, said that in view of the late period of the season the Committee had come to the conclusion to report only bills relating to the carrying of passengers in steamships and otherwise. In view of the seizure of vessels under the construction of the Secretary of the Treasury he thought it necessary for the House to act immediately. After reading, the bill was passed.

Mr. Breckenridge, of Kentucky, from the Committee of Conference on the Texas Creditors' bill, made a report, recommending the appropriation of $7,750,000. The Senate bill recommends $8,000,000; the House bill, $6,000,000.

The debate was continued to some length, when Mr. Hamilton, of Maryland, moved that the report be laid on the table. Negatived—yeas 46, nays 129. The report was concurred in—yeas 123, nays 79.

The Speaker laid before the House a communication from the State Department, showing that during the year 1854, there arrived in this country 460,474 persons; 27,765 in Massachusetts; 327,976 in New York; 115,032 in Pennsylvania; 13,154 in Maryland; 51,169 in Louisiana; and 14,487 in California. Of the entire number, nearly 49,000 were born in England; 101,606 in Ireland; 13,317 in France; 206,054 in Germany, and 13,100 in China. Occupations not stated, 234,396; merchants, 15,173; mechanics, 31,470; mariners, 1269; miners, 2155; farmers, 87,188; laborers, 82,420; lawyers, 35; physicians, 237; clergymen, 139; servants, 33,010; other occupations, 2569. From Sept. 30, 1843, to Dec. 25, 1854, 3,174,345 arrived by sea.

Mr. Cobb, of Alabama, from the Committee on Public Lands, reported a bill granting lands to Alabama, to aid in the construction of railroads.

Pending its consideration the House went into Committee of the Whole on the Civil and Diplomatic Appropriation bill.

Several amendments were offered and adopted, among others, one appropriating $10,000 for the protection of life on the Coast of Massachusetts, to be expended by the Boston Humane Society.

The committee then rose.

A motion of Mr. Campbell of Ohio, to adjourn over till Friday was negatived, and the House adjourned.

IRVING HOUSE,
NEW YORK.

THE public are hereby informed, that the above House, so long and favorably known as one of the first class Hotels in the City, is still open for the reception of the travelling community. New Boot and Shoe Store,
NO. 12 DANIEL STREET,
Portsmouth, N. H.

THE undersigned would respectfully announce to the citizens of Portsmouth and vicinity that they have entered into copartnership in the firm name of

JOHN BUZZELL & CO.,

Have taken the Store in Daniel street, formerly occupied by Mr E. A. Stevens, and stocked it with a good assortment of

BOOTS AND SHOES

Of every description, which they offer to the public at as low prices as they can be purchased for in Portsmouth or elsewhere. They also have in connection with their Store a manufactory of Boots and Shoes, and are prepared to make to order any description desired, in the best manner, and on the most liberal terms. Determined to merit, they hope to receive a fair share of public patronage. JOHN BUZZELL,
WM. H. FERNALD.

The subscriber takes this opportunity of presenting his compliments to his many friends in Portsmouth and vicinity, and respectfully soliciting their patronage in his new position, pledges himself to use every endeavor to serve them satisfactorily. During his experience of twelve years in the business he has labored to serve faithfully all who have entrusted their orders to his care; and trusting he has earned a reputation for fair and honorable dealing, he will strive in future to merit and retain it. Every article sold at the Store, where it will be his pleasure to serve his friends and find new ones, shall be as represented, or if it shall prove otherwise the money shall be refunded, or entire satisfaction given. Please call and try us. Very respectfully,
Feb. 7. JOHN BUZZELL.

PORTSMOUTH
ART UNION.

PHILIPP WENZEL proposes a SECOND
EXHIBITION AND DISTRIBUTION
OF
PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember—no disappointments—each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. E. Preston, J. H. Thacher, H. Peyser, and

P. WENZEL, Congress St.

Portsmouth, N. H., Jan. 19, '55.

P. S.—Persons out of the place, may secure Tickets by enclosing the money in a letter, prepaid. j19 3ostf

Take this along with you.—'Tis just what you want.
The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,

As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—
Prof. A. A. Hayes, M. D, State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

A SWEDE IN A QUANDARY.—The *St. Croix Union* says that the Sioux Indians in some parts of Minnesota are much annoying the whites by petty thefts and robberies. A week or two since four squaws caught a stout, fall grown Swedish boy, and after taking several things away from him, demanded his coat. He surrendered it without resistance. They then motioned him to deliver up his pantaloons. The modesty of the poor lad was such that he was thunderstruck at the proposition, and seeing a favorable opportunity turned round and bolted like a deer, much to the amusement of his persecutors, who did not follow him.

Patent office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Models, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct copies of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished for one dollar.—Assignments recorded at the same office.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,

Commissioner of Patents."

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING

TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested in this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Hip Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf. Wishing to sell exclusively to one firm in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from home to home. To such they will be furnished at a discount from the retail price, which is 30 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,

READ the following notice from a distinguished Clergyman:—

"We do not be accustomed to laugh outright, or be convulsed with laughter, yet we have never found it more difficult to restrain our risibilities than while perusing this most ingenious satire; and yet with all its comical, diverting, and laughable scenes, the most solemn, important and instructive lessons are teached in every page. Youth should read it—parents, teachers, preachers everybody."

IMPORTANT IMPROVEMENT

Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very thin, *cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to please with the grain, upon any quality of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee, JAMES A. WOODBURY

THE GREAT STANDARD REMEDY

FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*,—and, in fact, by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LITCH, Philadelphia,—and many others.

HOW ESTEEMED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen most all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

☞ *Beware of Counterfeits and Imitations!!*

Enquire for the article by its WHOLE NAME, "VEGETABLE PULMONARY BALSAM."

Prepared only by REED, CUTLER & CO., Druggists, 33 India street, *Boston, Mass.*, and sold by Apothecaries and Country Merchants generally. *Price* New Style, large bottles, containing nearly four times the quantity of the small, $1. Old Style, small bottles 50 cents.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S

Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOOR ALBUS, or WHITES; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF THE WOMB; Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the TRUE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 53 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*. . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Lip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lessons—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:

Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of

SATURDAY, FEBRUARY 24, 1855.

TEMPERANCE IN DANGER.

We cannot torment ourselves with fears of impending evil, so readily as some persons do; but rather say, "sufficient unto the day is the evil thereof."

It is known to many temperance men, that Rev. Daniel Lancaster, of Concord, has lately ceased to be editor of the Phœnix, a temperance paper published there. He has lately written a letter giving his reasons for leaving the paper, and his fears lest the Maine or Connecticut Liquor Law should not pass this year.

Mr. Lancaster says—

You express regrets that I have relinquished the N. H. Phœnix, and fear it may be an jury to the cause at this critical time. Allow me to say that the paper is in good hands; but the present aspect of the Temperance cause and its future prospects are anything but hopeful. It is truly as you say a critical time with us. Whether we shall after all secure the Maine Law at the hands of the next Legislature, I consider extremely doubtful.

He then states that he endeavored "to keep Temperance out of the political arena," and adds:

But how has this matter turned out? Why, very much to our surprise, the Know Nothing Order has swallowed up almost the entire temperance movement and that party now have the control not only of all the candidates, but of a large share of the temperance votes. For into this order have rushed, it is said, great numbers of the temperance men, leaving a remnant of us quite in the dark as to what they are doing, or what we are to do.

For this reason he went out of the paper. Moreover, he seems to have no confidence in the temperance character of Mr. Metcalf and the other K. N. nominees.

Yet here we are, (says he,)—our candidates pledged only conditionally, and no pledge at all for a good prohibitory Law, restricting sales for drinks; only a pledge restricting *unlicensed sales* so far as may be thought constitutional.

Mr. Lancaster is evidently afraid the K. Ns. if they succeed, will not pass the law which he desires.

His letter is published (apparently without the writer's leave,) in the Manchester Mirror, and is thence copied into the Concord Patriot with this preface:

Let every true Temperance man peruse this letter carefully, and he cannot fail to see the base trickery by which these men have attempted to use them and their cause for the promotion of the schemes of unprincipled office-seekers.

The Patriot is apparently quite as much afraid that the K. Ns. will succeed, and *will pass* the prohibitory law. And it republishes Mr. Lancaster's letter, as a valuable document to aid in averting both these terrible events.

Now we counsel our good friends on both sides, not to be frightened out of their propriety. Temperance is in no danger. Our laws on that matter cannot easily be worse than they are now; the people of the State are determined to alter, and if they can, improve them, whether the Know Nothings rise or fall. Mr. Lancaster's trouble seems to have grown out of the fact that he identified the cause of temperance too closely with a particular law, to be passed in a certain way; and was much too careful not to be mingled up with politics in pursuing his object.

We have little or no doubt that the next House will pass a stringent bill, whatever may be its party character. The pinch is in our Senate, of 12 men; and the character of that is yet undecided: but we think it will also pass the law. Metcalf or Fowler, we think, would sign the bill, and some papers say Bell would. But Gov. Baker is not committed.

Our present impression is that the K. Ns., if they should sweep the whole State, would not dare to withhold the passage of a new and stringent law. They could not do without the temperance men.

THE STAMPEDE.—The Concord Daily Patriot stated, on Wednesday, that about 1500 democrats had left the K. N. Lodges in this State recently, leaving but a very small number within the foul den.

Per contra, the Manchester American of Thursday says, "not over *one hundred* men have left the American party in this State.—Out of twenty-five thousand men, not one hundred, after the most desperate and despicable efforts, have faltered."

☞ The National Intelligencer intimates that many of the papers have *ciphered* up Gen. Scott's new pay, considerably higher than the truth.

On hearing of the passage of the joint resolution authorizing the President to confer the brevet rank of Lieut. General on Major Gen. Scott, the House of Representatives of Pennsylvania, by a unanimous vote, adopted a resolution of thanks to Congress for the act.

☞ The United States Magazine for Feb. 15, is just received, and is a beautiful number of a cheap and valuable monthly magazine.—Published by J. M. Emerson & Co., New York city.

☞ The Yeas and Nays on the President's Veto are published. Dr. Kittredge of New Hampshire, voted for the law, against the veto; but Messrs. Morrison and Hibbard sustained the veto.

All the members from New England were present in the House, and all voted to pass the bill, except Messrs. Morrison and Hibbard of New Hampshire.

A subsequent motion, on the same day, to append the bill as an amendment to the civil and diplomatic appropriation bill, then under consideration in Committee of the Whole, was ruled out of order by the Chairman, Mr. Hibbard of N. H.; and on an appeal, the decision of the Chair was sustained, yeas 103, nays not counted

The Hartford Times, the leading Democratic paper in Connecticut, pronounces the President's reasons flimsy, and adds—

The money appropriated by this bill would mostly come to New England. Connecticut would have received a large share of it. On this account, Davis, Dobbin and Guthrie might very naturally oppose the appropriation. But the President ought not, and of course does not, give this reason. But who is there that believes if this money had been due to the citizens of Virginia, the bill would now rest under a veto?

The Southern *gentlemen* in the House had some sense of honor with regard to this bill. Its most earnest supporters in the House were Messrs. Bayly of Virginia, Orr of South Carolina, Phillips of Alabama, and Disney of Ohio, who are among the most distinguished Democrats in Congress.

CONGRESS.

THURSDAY, Feb. 22.

SENATE.—Mr. Stuart of Michigan presented a resolution for the erection of a building in Michigan for the reception of prisoners confined by the authority of the United States. Referred to the Committee on the Judiciary.

Mr. Chase of Ohio presented the petitions of certain citizens in New York, praying for the repeal of the Fugitive Slave Law, and moved their reference to a select Committee.

After some discussion, the petitions were laid on the table, by a vote of 29 to 13.

The Senate resumed the consideration of the Invalid Pension bill reported from the Committee on Finance, with the recommendation that the Senate concur with the amendments made in the House. Report adopted.

The bill to extend the credit for duties on railroad iron was then taken up, and passed—yeas 25, nays 18.

The bill to provide for the final settlement of the claims of the officers of the revolutionary army, and of the widows and orphans of those who died in the service, was passed; yeas 26, nays 15.

The House bill for the purchase or construction of four additional Revenue cutters was considered and passed.

The bill providing for the holding of U. S. Courts in the Northern and Southern districts of Florida, in case of the sickness and disability of either of the Judges of said districts, was passed.

The House bill respecting a collection district in Oregon was discussed, whereupon some sharp shooting upon points of order took place.

There being no quorum present, the Senate adjourned.

HOUSE.—The House adopted the report of the Committee on Conference on the Swamp Land bill, and the bill passed.

Mr. Middlesworth of Pennsylvania made an ineffectual effort to have the House take up the Senate bill giving additional lands to the soldiers of the war of 1812; but gave notice that on Tuesday next he should move the consideration of that bill.

The bill granting public lands to Alabama was laid on the table, and the House went into Committee on the Civil and Diplomatic Appropriation bill.

Among the amendments *adopted*, was one appropriating $10,000 to enable the President to provide convenient accommodations and medical assistance for sick and disabled American seamen at or near Havana, with the assent of the government having jurisdiction over the country.

$100,000 was *appropriated* for putting an iron dome on the Capitol.

An amendment appropriating $200,000 for the continuance of the Washington Aqueduct was *rejected*.

Mr. Edgerton of Ohio offered an amendment, refunding the duties paid for railroad iron permanently laid down between June 30th, 1853, and July 1, 1856, and admitting dyes, dyewoods, dyestuffs and unmanufactured wools, free.

The Chairman ruled the amendment out of order, on the ground of a proposed radical change in the revenue laws. The decision was sustained by a vote of 76 to 68.

Mr. Walbridge of New York offered an amendment admitting coals duty free. Ruled out of order.

Mr. Cobb of Alabama proposed an amendment extending for four years the credit for duties on railroad iron. Ruled out of order.

The Committee then rose.

Mr. May, of Maryland, from the Select Committee on the Washington Monument, reported a joint resolution appropriating $200,000 for the completion of that work.—Many gentlemen desired to put it on passage, but several objections prevented it, when the House adjourned.

LINES TO REV. DR. GANNETT, *suggested by his Lecture on Good Manners:*

Gentle, courteous and refined,
Unassuming, void of art,
Just to thyself, to others kind,
A gentleman in truth thou art.
A pupil of that ancient school,
Where nature acts the tutor's part,
Herself the mistress and the rule—
For true politeness, it is bred,
Not in the head, but in the heart,
Altho' by both 'tis nourished;
And drawing thus its being thence,
Its parent is Benevolence.

LOCAL.

MUNICIPAL.—In Board of Aldermen, on Thursday evening, an amendment to Ordinance No. 17, increasing the pay of the City Marshal, Street Commissioner and Superintendent of Alms House, received from the Common Council, was non-concurred in.

A petition was received from S. Wilson, to be released from a police fine and costs, and referred to Committee on Police.

The reading of the opinion of the Superior Court in the case Beck v. Hanscom, and other necessary but unimportant business, occupied the Board till midnight.

The Common Council concurred in resolution increasing the pay of the watchmen.

SUNDAY EVENING CONCERT.—The attention of the reader is invited to the advertisement of the Concert at the Stone Church, on Sunday evening, for the benefit of the Howard Benevolent Society.

The Concert itself, as a musical treat appropriate to Sunday evening, is worthy of patronage, for its own sake. And in addition to this, the net proceeds will go to aid one of our oldest, best managed and most useful Charities. We hope, therefore to see the house filled with those who love music and those who love mercy—the friends of song, and the friends of the poor.

☞ B. F. Ayer, Esq. of Manchester, addressed the democracy of this city last evening, at the Temple. A very respectable audience, composed of men of all parties, were present.

COURT OF COMMON PLEAS.

EXETER, Feb. 22.

Yesterday afternoon was occupied in discussing a motion for a new trial in the case State v. Ayer, and in calling the docket.

This morning the case of Abigail Chapman v. James Derby and James Burley, Trs, was resumed, and is now on trial. Wood for Plf.; Hatch for Trs.

☞ Nathan H. Leavitt, Esq. Sheriff of Rockingham County, has resigned his office, —to take effect March 1st. The Governor and Council will meet on Wednesday, the 28th inst. to appoint his successor.

To the Editor of the Patriot: I wish to correct a statement that appeared in the Patriot of Feb. 21st, to the effect that in a "public meeting a few days since," I stated that I should be "glad to see Dr. Kittredge elected to Congress." I never have made, in any speech of mine, any such statement.

Feb. 22, 1855. M. W. TAPPAN.

Mr. Tappan also informs us that the report that he registered his name at Great Falls, as "Charles Goodspeed of Sebastopol," is not true.—*N. H. Patriot.*

Zion's Herald, the Methodist organ in Boston, advocates the admission of lay members to more power in that church. At present they have no voice in the selection of preachers, or general ecclesiastical matters.

U. S. SLOOP-OF-WAR DECATUR.—It is now one hundred and eleven days since the sloop-of-war Decatur was last heard from, and fears for her safety are increasing.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m f1 d&w

STATE OF MAINE.

At a Court of Probate, holden at Saco within and for the County of York, on the first Monday of February, in the year of our Lord eighteen hundred and fifty-five, by the Honorable JOSEPH T. NYE, Judge of said Court:

ON the petition of Josiah Remick, Administrator of the estate of EPHRAIM WITHAM, late of Kittery in said county, deceased, representing that the personal estate of said deceased is not sufficient to pay the just debts which he owed at the time of his death by the sum of eleven hundred dollars, and praying for a license to sell and convey so much of the real estate of said deceased as may be necessary for the payment of said debts and incidental charges:

ORDERED, That the petitioner give notice thereof to the heirs of said deceased and to all persons interested in said estate, by causing a copy of this order to be published in the Chronicle, printed in Portsmouth, State of New Hampshire, three weeks successively, that they may appear at a Probate Court to be holden at Biddeford in said county, on the first Monday in March next, at ten of the clock in the forenoon, and shew cause, if any they have, why the prayer of said petition should not be granted.

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

New Boot and Shoe Store,

NO. 12 DANIEL STREET,

Portsmouth, N. H.

THE undersigned would respectfully announce to the citizens of Portsmouth and vicinity that they have entered into copartnership in the firm name of

JOHN BUZZELL & CO.,

Have taken the Store in Daniel street, formerly occupied by Mr. E. A. Stevens, and stocked it with a good assortment of

BOOTS AND SHOES

Of every description, which they offer to the public at as low prices as they can be purchased for in Portsmouth or elsewhere. They also have in connection with their Store a manufactory of Boots and Shoes, and are prepared to make to order any description desired, in the best manner, and on the most liberal terms. Determined to merit, they hope to receive a fair share of public patronage.

JOHN BUZZELL,
WM. H. FERNALD.

The subscriber takes this opportunity of presenting his compliments to his many friends in Portsmouth and vicinity, and respectfully soliciting their patronage in his new position, pledges himself to use every endeavor to serve them satisfactorily. During his experience of twelve years in the business he has labored to serve faithfully all who have entrusted their orders to his care; and trusting he has earned a reputation for fair and honorable dealing, he will strive in future to merit and retain it. Every article sold at the Store, where it will be his pleasure to serve his friends and find new ones, shall be as represented, or if it shall prove otherwise the money shall be refunded, or entire satisfaction given. Please call and try us. Very respectfully,

PORTSMOUTH

ART UNION.

PHILIPP WENZEL proposes a SECOND

EXHIBITION AND DISTRIBUTION

OF

PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desires of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture.—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember — no disappointments — each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and

P. WENZEL, Congress St.

Portsmouth, N. H., Jan. 19, '55.

P. S.—Persons out of the place, may secure Tickets by enclosing the money in a letter, prepaid. j19 3ostf

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimonial from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have invariably found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed invalid, restore the vitality of lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. S. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I.
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.
Rev. Thomas Kidder, Chaplain Vt. State Prison.
Rev. Chas. W. Dennison, Boston, Mass.
Rev. John Mathers, Jacksonville, Illinois.
Rev. J. Ferry, D. D., Windsor, Vt.
Jas. C. Dunn, Esq., City Treasurer, Boston.
Fitzhenry Homer, Esq., Boston, Mass.
Wm. Gordon, Esq., formerly U. S. Deputy Marshal, New Bedford, Mass.
J. C. Baxter, Esq., Collector of Customs, Ogdensburg, New York; and a host of others.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all instruments and papers relating, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor in Patents. There were few, if any persons doing in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.

"R. R. EDDY, Esq., Boston, Mass.

"SIR,—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stopping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 30 cents per table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,
j18eod&w* Salem, Mass.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *six weeks*, or for planing very *thin, crossgrained or knotty* material, to these machines, as it is impossible for them to *tear* or *raise out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon any *taper* of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

JAMES A. WOODBURY.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and cleanness of the Quill, with the superior durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping; also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI's
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS

Of these are PROLAPSUS OR FALLING of the WOMB; FLOOR ALBUS, OR WHITES; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF FLOODING; PAINFUL SUPPRESSION, AND PROFUSE MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any certain Quack claim to be the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI's CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.
The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.
Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.
The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Fip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.
The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lesson—and nothing more.
The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of pronounciation, designed as a review. A pronouncing Vocabulary is appended.
CORNELL'S INTERMEDIATE GEOGRAPHY, AND CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:
Are in Press and will shortly appear.
Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The Series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."
Teachers and others are invited to call and examine the above at the Bookstore of
f12 JOS. H. FOSTER.

MONDAY, FEBRUARY 26, 1855.

ELDER BOODEY.

The venerable Elder Boodey, of Alton, publishes the following card: it shows (says the Boston Post) how the old guides of the party are belied in the present crisis in New Hampshire, and how true they are to duty and principle:

"As there have been various rumors in circulation in regard to my position before the public in political matters, I hereby state that I am satisfied it is my duty, and I believe it to be the duty of every friend of freedom, to sustain the national principles avowed by the democratic party, as they have been made the basis of the administration of Franklin Pierce: and I hereby disclaim, and disavow and absolve myself from all connection with any other political party under whatever name, and shall vote the democratic ticket only as nominated in the democratic conventions."

Now we honor "the venerable Elder Boodey," who sticks to his political text like a man, and supports Franklin Pierce and his acts like one of "the old guides of the party." He has his own political opinions, attachments and prejudices,—and though he is an old minister, he does not hesitate to avow them. Why should he? Will not some Douglasses or Pettits, or other patriots of the same school, roll up the whites of their eyes and express their holy horror at Elder Boodey, for daring to meddle with politics? Will they not say, For shame, Elder Boodey! leave politics to the care of scamps and scoundrels. Christian Ministers, holy men, must not touch them lest they be defiled. Leave them to us; we are not afraid of dirt.

Ah no! nothing like this shall we see. Elder Boodey is on "our side," and that makes all the difference in the world. He may plunge as deeply into the mire of politics as he pleases, if he will but go with us.

Unluckily, however, as we see this moment, by the N. H. Patriot, that the Mr. Boodey who certifies, is no venerable elder, no elder at all, but Jacob B. Boodey, *Esq.*, whom the K. N.'s saw fit to nominate as Road Commissioner—but who appears to be a regular nomination democrat.

The Dover Gazette further informs us that he *left* the Know Nothings. Then of course he must have first *joined* them;—and then, also, old guide of the party as he is, he was not *belied* at all by the K. N. nomination; but if there is any belying about the matter, he did the job for himself.

Mr. Boodey is, we understand, Post Master at Alton; and doubtless joined the order to get some nomination for office; but as the open publication of a K. N. nomination might endanger his office as Post Master, he came out of the "foul den" and published the above card, on which the Dover Gazette says:

"Such telling evidence of the truth of our assertions, that the order is being deserted by all *honest men*, creates a *terrible sensation* among the "Hindoos" who manage the Enquirer."

Yet he did not happen to recant until such time as it should be too late for his name to be taken from the K. N. tickets.

Such honesty may well create a terrible sensation.

THE BESIEGERS OF SEBASTOPOL—COMFORTS OF THE SEIGE.—A late French journal contains the following remarks, which throw some light upon the situation of affairs among the poor English soldiers in the Crimea:—

"Our poor allies (the English) are very unhappy. Bravery does not guard against cold; one must know how to establish a bivouac, run to a long distance for wood, give themselves a thousand troubles, before which the English soldiers shrink. Therefore what misery, what losses, they are suffering! The cold is intense; the thermometer has descended below 8 degrees (centigrade.) Add to this two feet of snow, if it is not three, and you have an idea of our situation. We support very well these rigors, but our poor mules and horses die very fast. The number of sick remains very considerable. It is said that 400 of our soldiers have had their feet frozen, while several have been found dead. It is terrible; but what are we to do? It is humanly impossible to take more prudent, more paternal measures, than those which regulate the life of our soldiers. If they are compared to the English soldiers, they are treated like "little lords." No that our allies allow themselves to be dispirited and discouraged by the least difficulty. One day lately I was returning from the chase; I had to traverse the gorge of Balaklava; English soldiers, occupied with *our* mules in the transport of the wooden houses, were stuck fast in the mud in the bottom of the valley. How do you think they got out of the difficulty? They set fire to the house and warmed themselves by it! I took part in it. That is one of those adventures which can never be recounted of the French army."

A NOVEL SLAVE CASE.—The Mayor of Richmond, Va., has got a novel slave case before him. A person bought the woman from her owner, sent her to New York, and kept her there a year learning the duties of housekeeping. The woman thus became free. When she returned to Richmond, she was arrested by the police under the act forbidding free negroes from another State the privilege of coming into Virginia. The Mayor, deeming the question somewhat complicated, said he would render his decision in a few days.

CONSCIENCE.

"The devoted Romanist believes the Priest or Pope can keep his conscience for him, and therefore votes as the Priest dictates, and would burn his brother at the dictation of the Church."—*Portsmouth (N. H.) Chronicle.*

The devoted Romanist does not believe any such thing, and the man of the Chronicle knew he was telling a fib when he wrote the above, for which he will be punished in this world or in the world to come, unless he does penance in sack-cloth and ashes. The Chronicle man should remember that there is such a commandment in the decalogue as the following:—"Thou shall not bear false witness against thy neighbor." We should judge from the course of the Chronicle, that he does not consider Catholics his neighbors. God forgive him for all the untruths he has spoken against Catholics and their Church.—*Boston Pilot.*

We do consider the Catholics as our neighbors; and treat them as such. We live close by them; talk with them often; employ and pay them. More than this, we admire the pertinacity with which many of them adhere to their religious belief and practices, absurd as they seem to us.

We are not only ready, but glad to correct every error we make, as soon as we can be made to perceive it. But let us see how this is, about keeping the conscience.

We said, on a Friday, not long ago, to an intelligent and exemplary Roman Catholic, Will you take a piece of meat?

R. C.—No: it is Friday.

True; I know it; but do you suppose it wrong or hurtful, to eat meat on this day more than another?

R. C.—Not at all: but it is contrary to the rule of our church.

Who made the rule?

R. C.—The church, i. e. the priests, or the pope, or a council: and I think it best, seeing I belong to the church, to do as she bids in all things.

Now, however this may seem to the Pilot, or to any Romanist, it seems to us a surrender of the conscience into the Priest's keeping.

That Romanists have burnt their brethren, under the dictation of their same Church which they say never changes, witness John Rogers and all the martyrs in Queen Mary's reign.

Will the Pilot convict us of a falsehood on either of these points? If so we will put on the sack-cloth and sit in the ashes.

In the mean time, has not the Pilot in this squib borne false witness against us?—and then who shall do the penance.

MASSACHUSETTS.—On Saturday, in the legislature, the Senate passed the new liquor law to be engrossed without a dissenting voice. It is stated in the regular report of the proceedings that the bill passed unanimously, but as the vote was taken without a division, it is possible that some of the Senators abstained from voting. No one, however, expressed dissent or in any way objected to the bill.

This does not look exactly as if the K. Ns. in Massachusetts were afraid of temperance, or of legal measures to promote it.

☞ Gov. Morrill has been nominated for re-election in Maine, by a Republican Convention at Augusta, with great unanimity.—The Boston Courier says:

The state principle upon which the new party stands is in support of the Maine liquor law—an enactment which drove a wedge into the old parties of Maine, and was the first signal of their dissolution. The national principles of the party comprehend American ism, anti-slavery, and opposition to the present administration. The four principles conjoined are extremely popular in the state, and have been so far successful in their action that there is now but one actual Whig paper in the state, which is sustained by the incomitable straight out Whigs of Bangor, unless we include the State of Maine, at Portland.

A COAT OF ARMS.—A political speaker in a small town in New Hampshire, the other day, was to deliver an address for the enlightenment of the natives, in the meeting house. He marched into the pulpit and hung his coat behind, and commenced. Presently, warming with his subject, he brought his arm round in the region of his coat, and sent the coat to the floor with a dreadful explosion—like the report of a pistol. Nobody was shot, but immediately some colored beverage was running down the pulpit steps. Probably he was not an advocate of the Maine law.

A NEW EVASION OF THE LIQUOR LAW.—The Cleveland Plaindealer says the last way discovered to evade the liquor law, is the one adopted by a certain saloon in that city. The keeper has procured a large lot of small vials and puts up a drink in each, and sells them to his customers at a shilling a bottle, and they go to another saloon and drink it. This evades the law, as it provides for selling liquor by the "bottle," when not drunk on the premises.

A FALSE ALARM.—The New York Evening Post of yesterday says that the Sardinian Minister has satisfied the authorities of New York, that the expected Sardinians, about which so much has been said, are *not convicts, but merely political exiles.* As they are only obnoxious to monarchies, no objection will now be made to their landing on our shore.

WORTHY OF IMITATION.—On the 8th of February, the Directors of the Bank of England notified their employees that they would receive a bonus of ten per cent. on their salaries, in consequence of the present high price of provisions.

A SAGACIOUS CAT.—"Gran'pa" is a great lover of dogs, and also of cats. All the canines in the neighborhood, whether of noble or lowly blood, are happy in following at his beck and call, or in tagging after him without either. He knows the names and natures of all the dogs in the village, and doubtless they know his. When he travels for pleasure, it is in the same manner as all dogs worthy the name—on foot, and accompanied by several of his canine friends. Gran'pa has a dog and cat under his especial tuition and patronage, and the trio live in the most uninterrupted harmony. Gran'pa also has a gentleman friend who is blessed above him, in that he has a helpmeet and housekeeper, while all Gran'pa's efforts in that direction have so far been in vain. The other evening, Gran'pa, with his dog "Smart," called on this luckier friend, at his residence. The cat belonging to the establishment, on seeing the strange dog enter, performed a feat which Gran'pa was constrained to own, rather eclipsed anything which he has yet been able to teach *his* cat. With her shoulder she pushed a chair to a door leading from the room, then jumped into the chair and unlatched the door with her paw, and having passed into the next room, closed the door after her!—leaving Gran'pa very much astonished, and barring Smart from the glorious romp he had doubtless anticipated with Grimalkin.

DESTITUTION AND SUFFERING IN BOSTON.—This morning there appeared in the Police Court a neatly dressed and respectable appearing, middle aged and apparently temperate man, of stout, manly form, to answer to a charge of being a vagrant, without occupation or means of support. It appears that the accused is named William Smith, who a month or two since came to this city in search of employment, which he was unable to find.—Gradually he became entirely destitute, and was obliged to apply at the police stations for lodgings, receiving in the morning a soup ticket to keep him from starving during the day. Sick at heart of this way of living, a police officer at his request made a complaint against him as a vagrant, in order that he might have a home until warm weather. The Court sentenced him to the House of Industry for two months.

We understand from Capt. Savage of the First Station, that of eighteen persons who took refuge in that house last night, twelve were utterly destitute—some of them being as steady and respectable in appearance as Mr. Smith. It was necessary to supply them with soup tickets in order to ensure them food for the day.—*Traveller.*

SHIELDS, (Eng.) Feb. 2.—The Prince of Wales, wrecked on the Nore, was one of the oldest, if not the oldest collier belonging to the northeast coast, having been built in the Thames in 1762, consequently 93 years of age. She reigned during the American war, and all the subsequent maritime engagements, occupied in her peaceful career as a collier between the Tyne and the Thames.—She is registered in "Turnbull's Annual Register," 181 tons, and the property of Thos. Barker, Esq., of this place.

No office seekers among the Americans! Gov. Pollock of Pa. who has some sixteen offices to dispose of, says—there are one thousand applicants for the places. This love of place shows that all parties, whatever their names may be, are of the human race.—*Newburyport Herald.*

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

CONGRESS.

FRIDAY, Feb. 23.

SENATE.—A joint resolution to adjourn both Houses of Congress at midnight of Saturday, March 3, was introduced by Mr. Brown of Mississippi, and adopted, 28 to 13.

Messrs. Cass of Michigan, and Bell of Tennessee, will on Monday next present to Congress the sword worn by Gen. Jackson at the battle of New Orleans.

The bill to protect officers and others acting under the authority of the United States, was taken up.

The bill provides that if a suit be commenced in any State court against any officer of the United States, or other person, for any acts done under law or acts of law of the United States, the defendant may remove such suit to the United States Court sitting for that Circuit, and if there is no Circuit in the district, to the court clothed with circuit powers.

Mr. Wade of Ohio considered this bill as designed to again introduce the agitation of slavery in Congress.

Mr. Douglas of Illinois - The Senator from Ohio regrets that the session cannot pass without agitation. There is not a word or line in that bill having any reference to the Fugitive Slave act.

[No *reference* at all, indeed—but the *meaning* is to destroy the process whereby Booth got out of jail the other day in Wisconsin. The principal *intent* of this bill is to bolster up the fugitive bill.]

Mr. Wilson of Massachusetts—I will answer the Senator from Illinois. Anti-Nebraskaism did not place me where I am to-day, but no man can have a place hereafter, on either floor of Congress, who is not Anti-Nebraska. There is an unanimity of sentiment in Massachusetts on that subject, and I accord with it.

Mr. Fessenden, of Maine—The bill comes here so strong that we can do nothing against it. If the Senator from Illinois can draw any consolation from the elections in Connecticut, Rhode Island and New York, he is welcome to it. Did Know Nothingism do all this?.

Mr Gillett of Conn. When a proposition I cannot approve, and measures injurious to humanity are proposed, I cannot help speaking. The Senator from La. has made aggressions the burden of his speech. I call the attention of the Senate to the very district for which all the states are responsible. [The gentleman read from the laws governing the Dist. of Columbia.]

Mr Dawson of Ga.—These laws are as obselete as the blue laws of Conn. and are never enforced here. I am Chairman of the Dist. of Columbia.

Mr Gillette offered the Black code of the District.

HOUSE.—Sundry reports of Committees were referred to the Committee of the Whole.

The resolution of Mr. Sollers, of Maryland, calling upon the President for information in relation to the Ministerial Conference at Ostend, was passed.

Mr Letcher, of Virginia, from the select committee on the Colt patent and other cases, appointed last session, to inquire whether improper means had been used to facilitate the passage or defeat of bills before the House, made a report asking to be discharged from further consideration of the subject, in consequence of the House refusing to compel the attendance of witnesses. The Committee was discharged.

[It is perfectly plain, that an enquiry without power to send for persons and papers, is a mere farce. And no less plain that a majority of the House wished to slur over the matter. No stronger evidence could be given, of the existence of corruption.]

On motion of Mr. Houston, of Alabama, the bill carrying into effect the treaty between the United States and Great Britain, on the subject of claims, concluded in Feb., 1853, was taken up, under the previous question, and passed.

The House went into Committee of the Whole on the Appropriation bill.

Mr. Edgerton of Ohio offered an amendment for refunding the duties on railroad iron, actually and permanently laid down between June 30, 1853, and July 1, 1856, and to admit duty free, dyes, dyestuffs, dyewoods, and unmanufactured wool, costing 50 at less than 8c per lb., at the place from whence it was imported.

The chairman, Mr. Hibbard, of New Hampshire, ruled the amendment out of order, but the decision was reversed by the committee—87 to 81.

Mr. Edgerton said that, under the act of 1832, approved by President Jackson, $7,000,000 duties on railroad iron were refunded to New York, Pennsylvania, New Jersey, and the New England States. Pennsylvania alone received $1,500,000. All he asked, was that the same policy should be extended to the west and south-western States. Pennsylvania is not entitled to, in any way, the protection she claims on railroad iron. As to wool, he proposed to admit duty free the coarser and finer kinds not produced in our country.

Mr Witte, of Penn. regarded the proposition as that class of legislation which discriminates between corporations and individuals. If this doctrine is to be held by the *democratic* party, let it be understood who takes the responsibility. History shows that our commercial relations have been disturbed and our manufacturing interests embarassed by the railroad interest, which has held up its six or seven hundred millions of capital ever since the meeting of Congress, importuning from the lobbies for class legislation. Pennsylvania asks no favors. She has paid a much larger price for her railroad iron than its present cost.

Mr. Pratt of Conn. wanted to admit raw silk duty free, but the proposition was rejected.

Mr. Millson said the House presented a strange spectacle, proposing to admit raw materials free, without a corresponding reduction on manufactured articles. He regarded the pending amendments as proposing to donate a large sum of money to railroad companies and he was irrevocably opposed to it.

Mr Banks, of Massachusetts said, in reply to Messrs. Witte and Millson, that the Manufacturers of New England did demand high protection. They are willing to take a revenue principle. The opposition to the tariff bill came from the middle States. The West and South-west are now building their rail roads. They had received little favor, while the middle States, and Pennsylvania had been especially favored, the duties on rail road iron until 1842 having been remitted to parties laying it down.

Mr. Letcher, of Va. offered as a substitute for Mr Edgarton's amendment, Mr Houston's compromise tariff bill, with alterations proposing that articles now paying 100, 42, and 30 per cent, shall, after the 1st of July, pay 80, 32, and 24 per cent. or reducing the present rates 20 per cent., the number of articles paying 25 per cent. to be reduced about 20.—Mr Letcher's substitute was then adopted, yeas 99, nays 86, and Mr Edgerton's amendments agreed to, yeas 122, nays not counted. The Committee and the House concurred in those amendments to which no objections were offered. More important ones are reserved for separate votes tomorrow. Adj.

ART UNION.

PHILIPP WENZEL proposes a SECOND

EXHIBITION AND DISTRIBUTION

OF

PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—

varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember—no disappointments—each Ticket-holder gets a splendid Picture.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the wasted energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber, late Agent of the U. S. Patent Office, under the Act of 1837, determined to present advantages in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, Models and all necessary Papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides saving a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,

"R. H. Eddy, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to introduce the Article into use there in this vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on their home to house. Touch they will be furnished at a discount from the retail price, which is 20 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,
JBeod&w* Salem, Mass.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *narrow, crossgrained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *tarn out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the clapboards*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS, 193, Fleet st," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OR Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use: together with letters from highly experienced Physicians, who have used it in their practice, and spoke from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in the most severe forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 68 South street, Boston.

I feel it my duty to make known the astonished the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that lately my physician suspected Cancer of the Womb. I suffered excruciating pain, and was *entirely disabled from attending to my usual pursuits.*

. . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine.

E. A. STEVENS, 46 Market st.

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lessons—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:

Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The Series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of

JOS. H. FOSTER.

TUESDAY, FEBRUARY 27, 1855.

BRIEF STATEMENT.

The Eastern Argus states the point at issue about the Old French Claims, in the fewest words we have ever seen, to make the matter plain. Here is the statement:

The claimants base their demands upon the alleged fact that the United States relinquished the French Claims prior to 1800 by the treaty of 1800. The whole story is in a nutshell. The French had claims against us, growing out of treaties of 1778 and 1788, by which we agreed to guaranty their W. I. possessions, &c., and the United States had counter claims in behalf of our citizens for illegal captures. These claims were (according to the allegations of the claimants) mutually relinquished by the treaty of 1800. It has since been argued, that, inasmuch as our government relinquished the claims for a valuable consideration, it ought to pay them itself.

This is our view of the question; it was also that of the Argus; and it has been the view taken by *all* the committees of *Congress* who have reported. The Argus adds:

On the other side it is alleged that the claims (whatever they were) were not released, and even if they were, that the whole transaction was at best a mere offset of dead claims, which could never have been collected on either side.

This is President Pierce's side of the question; evidently the wrong side: our government most certainly relinquished the claims; for Mr. Madison, while Secretary of State in 1804, writing to Mr. Pinkney, the American Minister in Spain, said:—"The claims from which France was released, were admitted by France; and the release was for a valuable consideration, in a correspondent release of the United States from certain claims on them."

The argument about the dead, uncollectable claims, urged by the President, and noted by the Argus, amounts to this, viz.: Two opposite wrongs make all right. We broke our faith with France; she plundered our mariners and burnt their ships. She and we agree to call it square—but the plundered mariner gets no pay of any body for his burnt ship.

The Boston Atlas, in commenting on the document, says:

But the most astonishing argument adduced by Gen. Pierce, we have yet to consider. He contends that the Convention of 1800 could not have extinguished the claims of American citizens upon France, because President Jefferson at once "resumed and prosecuted to successful conclusion, negotiations to obtain from France indemnification for the claims of citizens existing at the date of that Convention," and because 20,000,000 francs were reserved by the treaty of 1803 out of the purchase money of Louisiana to be paid to American citizens. We believe that Gen. Pierce here grossly misrepresents the facts to serve his purpose. He cannot be ignorant that the money thus paid went to satisfy an entirely different class of claims.

Now we do not believe that Pres. Pierce "wilfully misrepresents the facts in the case to serve his purpose;" nor yet that "he cannot be ignorant, &c." But we do believe that he has taken up and adopted, indolently and carelessly, in years past, an ignorant and one sided view of the subject, to which he has consistently and persistently adhered. He is not a man of industry and research; but has unfortunately got on the wrong side of this question, and kept there.

The Senate on Friday night passed an important bill for the protection of officers and persons acting under the authority of the United States. It made the abolitionists howl directfully.—*Boston Post.*

The bill alluded to, passed by a vote of 29 to 9, at *midnight*, after a session of about 13 hours. It is intended as a bolster to the fugitive bill, and is a direct invasion of the dearest and most valuable of State Rights, and those of personal liberty also. It is a stretch of power, worthy of the Congress which is so soon to expire, and which has been so signally rebuked by the people of the free States.

IMAGINATION.—Mr. James Russell Lowell says, in a lecture on poetry, says—

Imagination enters more or less into the composition of all *great* minds, all minds that have what we call *breadth*, as distinguished from mere force or acuteness. We find it in Philosophers like Plato and Bacon, in discoverers like Kepler and Newton, in fanatics like George Fox, and in Reformers like Luther.

The shape which the imaginative faculty will take, is modified by the force of the other qualities, with which it is coordinated in the mind. If the moral sense predominate, the man becomes a reformer, or a fanatic, and his imagination gets itself uttered in his life.—Bunyan would have been nothing but a fanatic, if he had not been luckily shut up in Bedford jail, alone with his imagination, which, unable to find vent in any other way, possessed and tortured him till it had wrung the Pilgrim's Progress out of him—a book the nearest to a poem, without being one, that ever was written. Uniting itself with the sense of form, imagination makes a sculptor; with those of form and color, a painter; with those of time and tune, a musician. For in itself it is dumb, and can only find expression through the help of some other faculty.

A NEW HOLIDAY.—Some of the ardent friends of the American Eagle express a determination that the 22d of February shall be made into a holiday and hereafter be known as "The Native American Fourth of July."

A CHANGE—NO CHANGE.

The editor of a K. N. paper in Virginia, wrote a letter of questions to Senator Wilson of Massachusetts, to which he gave the following answer:

SENATE CHAMBER, Feb. 19.

DEAR SIR:—My answer to your inquiries will be brief and explicit.

1st. I fully recognize the doctrine of *State rights* in its application to slavery, as well as to any other matter of public concern.

The Virginia and Kentucky resolutions of 1798, in the main, as I think, correctly set forth that doctrine.

The whole subject of slavery within State limits should be left absolutely to State legislation.

2d. My response to your second question is included in my answer to your first. I do not entertain the opinion that Congress has any power to interfere with slavery as it exists under State laws.

3d. Every man who believes in a God must necessarily believe that there is a law paramount to all human law, and that this law is to be obeyed by men in public and private life, rather than any human law in conflict with it. But I see nothing in the Constitution of the United States, as I understand the Constitution of the United States, which requires me, as a Senator from Massachusetts, to do anything in conflict with the law of God. If I thought otherwise, I would not take an oath to support the Constitution of the United States.

4th. The American organization in Massachusetts does not embrace the question of slavery among those for the regulation of which it was formed.

The people of Massachusetts have fixed opinions, in which most of the members of that organization fully concur, against the support or allowance of slavery by national legislation.

They entertain the most profound conviction that the harmony and repose of the country, and the highest interests of the master and the slave demand that the national government should be relieved from all connection with or responsibility for slavery, and that this disturbing question should be left to the people of the States where it exists.

While they do not seek to impose these convictions and opinions upon their fellow-citizens of other States, or to proscribe them for not fully concurring in those convictions and opinions, they will submit to no dictation or proscription from any body of men, or section of the country.

I, as a Senator, from Massachusetts, shall claim for the opinions of her people, all the freedom of utterance, and all the influence upon the action of Congress, and the administration of the government, which a Senator from Virginia can claim for the opinions of the people of the ancient dominion.

Yours, truly, HENRY WILSON.

VESPASIAN ELLIS, ESQ.

Sundry editors claim that this shows a *change* of views. But it is no change whatever. No abolitionist has ever written a line that we have seen, or spoken a word that we have heard, maintaining that Congress has any such power in the States; though they maintain that Congress has power and should use it, for freedom and against slavery, in territories and districts. There may have been some little capital made by this misrepresentation in days past, but such trash is below par now.

The Boston Telegraph says:

Mr. Wilson's letter expresses opinions on State Rights, and on the powers of Congress with regard to slavery in the States, which are held by the great body of the anti-slavery men of the country. The platforms of the Free Soil or Republican party have invariably been based on the same ground, which is also held by the American Anti-Slavery Society, as the Garrisonians call themselves.—The contrary doctrine is held only by an inconsiderable number of Abolitionists, of whom Gerrit Smith and Frederic Douglas are the most conspicuous. * * * * * Nothing can be more ludicrous than the dismal confusion of ideas which possesses the South on this subject, unless it be the still more dismal stultification of its respectable and honest friends, the Union-savers of the North.

THE CUNARD STEAMSHIP ARABIA.—A letter published in the London Times, dated at Balaklava, Jan. 21, says, "the Arabia was on fire this morning. Her next neighbor was the Star of the South, with 1000 tons of gunpowder on board. The fire was fortunately extinguished in time." A letter of the same date from Capt. Judkins gives the following account of the fire:

"This morning at seven o'clock, while the crew were washing decks, fire was discovered in the baker's room, round the funnel, which was immediately extinguished. Its origin is supposed to be from rats having carried cotton waste to the funnel. No further damage occurred than merely knocking down the bulkhead, which separates the baker's shop from the knife-cleaning room."

NEW YORK, Feb. 26.—Five laborers in government employ at the Atlantic Docks, Brooklyn, were arrested on Saturday, charged with embezzling flour and other property from the bonded warehouse. It is said that upwards of $50,000 worth of flour has been stolen from the government stores during the past season.

A LARGE LIQUOR SELLER IN JAIL.—R. R. Robinson, a large and notorious liquor dealer of Portland, is in Jail. John Neal was his bail, but fearing Robinson would give him the slip, he delivered him up. If we remember correctly this Robinson is the same man, who, when the Maine law passed, said he should sell in spite of it, and defied Neal Dow and "all the rest of mankind."

WONDERFUL ESCAPE.—At Fryeburg on the 18th inst., whilst taking care of cattle, a son of H. D. E. Hutchins was buried to the depth of seven feet by snow falling from the roof of a barn. Aid being at hand, he was rescued from his perilous situation, in about eight minutes, alive, but badly injured.

LOCAL.

☞ The Concert at the Stone Church on Sunday evening, was well attended for so cold an evening; the music was performed in correct taste, and gave high gratification to an intelligent audience.

The receipts were $109: of which $10 were handed to a door keeper by one liberal auditor.

There has been a suggestion from a large number of the hearers, in favor of a repetition of the Concert next Sunday evening.

☞ All the performers who took part in the above Concert, are requested to meet at the Stone Church on Friday evening, at 7 o'clock.

INDIA AND THE HINDOOS.

Rev. Mr. Bacheler, a former Missionary to India, will give his second lecture on the Manners, Customs, and Religion of the Hindoos, at Hanover street Chapel, This Evening,—also an exhibition for Children on Wednesday afternoon.

His lectures and illustrations are highly recommended by Pres. North of Hamilton College, Pres. Sears of Newton, Mass., and others.

Having heard the lecture last evening, and seen the paintings, we can pronounce the whole valuable to every curious and intelligent enquirer, and worthy of encouragement.

☞ The examination of the Boys' High School, took place on Monday, occupying the entire day. We were unable to be present, but have been informed that the school exhibited a marked progress over former years, though we should judge the grade of the school is not so high as it was 10 or 12 years ago. A large number of visitors were present, who were highly pleased with the exhibition. The school is under the charge of Aurin M. Payson as Principal, and Mrs. Olive Hill as Assistant.

The examination of the Girls' High School takes place to-day.

☞ The time of Henry Giles's lecture before the Mercantile Course, was incorrect in yesterday's Chronicle. Prof. Harrington occupies the Temple next Thursday evening; Mr. Giles lectures March 8th.

☞ The Exeter News Letter states that about 75 operatives in the Factory there, struck on Friday last, against a new time-table, which demanded 30 minutes more labor per day. The corporation have since restored the old time-table, and the people, having gained their object, have gone to work.

For the Chronicle.

JOURNEYMAN MECHANICS.

The average wages received by mechanics in our country, is not above $400 per year. And yet they nearly all hope to get rich, or at least to amass wealth enough to enable them to live without labor, when they grow old. We don't wish to discourage any one who is struggling to place himself above want, but shall show what a dubious prospect is before such a person.

If a mechanic is married as soon as he attains his majority, as some of them are, and lives *well*—not *high*—it will take all his earnings to pay his bills;—consequently if he lived to be as old as Methuselah, he would be worth just nothing. If he is not married, and indulges freely in liquor, tobacco, riding, &c., his finances will be in the same condition as those of the married man. But if he is not married and is economical, he can subsist on $300 per year, thus having $100 to invest. We will suppose a mechanic 21 years of age, commences the slow process of securing a competency *by work*. In twenty years—provided he is never sick, and works steadily—he will find himself possessed of the respectable sum of $3,600. The twenty years having expired, he finds himself an old man, fit for nothing *but* work—respected by but few—honored by none. So habituated has he become to almost incessant labor, that it is difficult for him to enjoy himself on the scanty number of holidays we celebrate. He never play ball or cricket; seldom enjoys a ride or sail; never goes hunting, fishing, or skating; and dancing is altogether too expensive an amusement for him to engage in. He exists perhaps a dozen or twenty years longer, and then dies—unhonored and unsung, leaving five or six thousand dollars for his relatives to quarrel about.

It is about as easy for a camel to go through the eye of a needle, as it is for a man to live in good style and at the same time grow rich, on an income of $400 per year. MECHANIC.

BALTIMORE, Feb. 25.—New Orleans papers of Monday, containing details of Havana news to the 15th, have been received. All vessels arriving at Cuban ports are to be scrupulously examined, and if their papers are regular they will be permitted to depart—if irregular, they will be subjected to penalties proclaimed against piracy. Additional defences are being erected around Havana, and French ships are loading with arms and ammunition for other ports of Cuba.

Cooked Provisions.

"Old Folks" Choir.

Agreeably to adjournment, the Old Folks Choir will meet at Exchange Hall on Wednesday Evening, Feb 28th, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, preparatory to the third Concert, to be given during the fourth week of March proximo—in aid of the Howard Benevolent Society. All who took part in the other Concerts, are invited to attend—and any who may not do so, are requested to leave the music books with either of the Committee of Arrangements, (Nath'l T. Moulton, N. L. Folsom, Thos. Norton, John Christie, A. Perry,) immediately. Per order,

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ma., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Drugists throughout the United States. 2m f1 d&w

HORSE RADISH—For sale by

FROM CALIFORNIA.

NEW YORK, Feb. 25.—The steamship Geo. Law, from Aspinwall, arrived this morning, bringing California dates to the 1st inst. and $1,113,000 in gold. Among the passengers was Gen. Echenique, President elect of Peru.

The transit of the Isthmus is now regularly made from ocean to ocean by railroad.

The principal matter of interest has been the explosion of the steamer Pearl near Sacramento, Jan 27, by which about 70 lives were lost. Fifty-three dead bodies had been found and upwards of 20 persons are missing.—There were 122 persons on board, and only 14 escaped uninjured. Among the killed were about 20 Chinamen. The captain and mate were killed, but the engineer escaped uninjured. It is asserted that, at the time of the explosion, the Pearl was racing with the Enterprise, but this is denied by the agent of the steamer. Both boats were on their way from Sacramento to Marysville. A large amount of treasure was on board, but was recovered on searching the river. No register of the passengers' names was kept, and it is impossible to give a list of the killed.

Wadleigh, the engineer of the boat, was arrested, but discharged, the evidence before the coroner showing that he was a careful engineer, and that the explosion was occasioned by some cause beyond his control.

William Bay, who was tried for the murder of James Cavanagh, and acquitted, was afterwards found with his throat cut. His dying declaration was that he had been killed by Wooley Kearney.

A native Californian and two Chilenois were hung on the San Joaquin, by order of Judge Lynch. They were arrested for cattle stealing but owned to having committed several murders.

During a fire in San Francisco, Thomas Murray, a fireman, lost his life by the falling of a chimney upon him.

Geo. Sheldon was hung at Oakaland by a mob, for stealing a horse.

At Iowa Hill, on the 27th, three persons were killed and others severely wounded, by the bursting of a reservoir.

After a season of dry weather, the rain had once more set in. A week's steady rain would add millions to the products of the placers.

The Senatorial question appears to be as far from being settled as ever. A thirty-eighth ballot had been held in the Legislature with scarcely any different result from the first. A bill passed the Legislature, appropriating $1000 from the treasury to each member. The Governor refused his sanction to it, but it finally passed, in spite of the veto, by a vote of 55 to 21.

Several homicides are chronicled. On the evening of the 24th, Mr R. M. Backus killed a man who was pointed out to him as having attempted to break into his house. The person killed was named Simon, the son of a respectable druggist at Berlin, Prussia. The Coroner's jury exculpated Backus, but the examinations shows the justification for the killing to have been very slight.

OREGON.—The Indian troubles in the neighborhood of the Klamath River are becoming somewhat alarming. A number of white men, six certainly, have been killed, and about thirty Indians. It is feared that there is to be a general rising among the Indians of the North.

CONGRESS.

SATURDAY, Feb. 24.

The Chair laid before the Senate a message from the President, accompanied by a letter from the Minister from Peru, respecting the Lobos controversy. Ordered to be printed.

The Appropriation bill from the House was read twice and referred to the Committee on Finance.

Mr Seward introduced a bill amending the judicial system, which *passed*.

A bill appropriating $125,000 for fortifications in Louisiana, *passed*.

The District Judiciary bill was taken up, and while Mr. Toucey was speaking the Senate adjourned.

HOUSE.—Mr. Giddings rose to a question of privilege, reading a protest against important measures in a manner until recently unknown to American legislators, without affording time for consideration and discussion, and without making known the facts. As was the case yesterday in the passage of the bill appropriating $270,000 to carry into effect the treaty between the United States and Great Britain, concluded on the 8th of February, 1853, on the subject of claims. He said he was neither permitted to express his dissent to the bill, nor to enter his name on the record. He asked that his protest should be entered on the record.

The Speaker said that he knew of no rule which authorised the entry under the rules as a question of privilege.

Mr. Giddings respectfully appealed from a decision of the chair.

Mr. Orr moved to lay the appeal on the table.

Mr. Giddings asked his friend as a personal favor to give him the ayes and nays.

The appeal was tabled by a vote of 137 against 46. Adjourned.

The bill was ordered to be read a third time, and engrossed by a majority of 50.

Mr. Edgerton of Ohio, Democrat, vainly endeavored to have the bill recommitted with instructions to report his amendment offered yesterday, to remit the duties on railroad iron, and to admit dyestuffs and unmanufactured wools duty free.

Mr. Meacham of Vermont, Whig, moved that the bill be laid on the table. Agreed to—yeas 141, nays 62.

Mr. Letcher's amendment to the tariff bill was agreed to, and the bill passed by a vote of 120 to 80.

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S C.,) I experienced strong gales from the S W. and had occasion to use it several times, and on every occasion it worked finely."

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt, and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D, State Assayer, Boston
Prof. E. K. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

AMERICAN AND FOREIGN OFFICE.
Agency for business with INVENTORS (Office, Washington,)
76 State st, oppo. Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be retained by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the most informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them a speedy and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,
"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Old and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them from house to house. To such they will be furnished at a discount from the retail price, which is 20 cents per Table. To those owning "Rights" they will be furnished at cost if desired.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.
PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, crossgrained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, and of any width of clapboards, in a very superior manner, without *tearing* the thin edge.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all those diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free)-containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observation of its virtues.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the Uterine Catholicon, I would respectfully state that I have for many years been well, friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.* . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the learner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lesson—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:

Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The Series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of

WEDNESDAY, FEBRUARY 28, 1855.

DEBATE IN CONGRESS.

In the Senate, on Friday night, Feb. 23, there was a warm debate on the bill to protect officers of the U. S. [a bolster to the fugitive bill.] Mr. Douglas was one of the principal speakers.

Mr. Wade—Does the Senator from Illinois believe that the states have any rights if the Federal Courts announce the Fugitive Slave Law constitutional?

Mr. Douglass—The difference between state and United States jurisdiction are clearly marked; the delegated powers are under the control of the Constitution and laws of the United States. The reserved powers states may legislate upon, and upon those only; the former they have relinquished. When I have to come here to prepare myself, and with an intention to violate the Constitution, I will rather stay at home. I will not then *degrade* myself by coming here. (To Wade)—What were your anti-Nebraska men? Were they not Maine Liquor Law men? Know Nothings, meeting in secret conclave, and bound under illegal oaths concocted at midnight, smiling at those they meet, while preparing to stab them?

Mr. Wade—Was not your Kansas Nebraska bill concocted by a secret conclave in the dark?

Mr. Douglass—No, by myself, alone in my own house; but your friends are the combined remnant of the whig party, and all the isms—Know Nothings, who proscribe their fellow men on account of their religion. If the South, by and by, comes into Know Nothingism, will you call that also anti-Nebraskaism?

Mr. Douglass also made many more similar remarks;—among them:

I rejoice that as a Northern man, born at the North, with no sympathies, no interests, save what Northern men have in the whole country, that I did introduce the Nebraska Kansas bill.

The reader will please to remember that Senator Douglas said this in the night;—and that he is not a total abstinent. No interests and no sympathies but Northern? What should we think of this, if the man were sober, when he is indirectly one of the largest slaveholders?

Again he says—

There is not an abolitionist in the country who is not a disunionist. And why? The constitution recognizes slavery. If you do not accept this element, it is your duty to go for the dissolution of the Union.

That is: slavery is the corner stone of the Republic.

Mr. Douglass—[To Mr. Fessenden]—Do you know a Representative from Maine who came here with a Know Nothing vote against him?

Mr. Fessenden—The question was Nebraska or anti-Nebraska.

Mr. Douglas—A Know Nothing cannot be a Know Nothing without swearing to tell a lie.

Mr. Fessenden—Do you apply this to me?

Mr. Douglas—Show me a Nebraska man who was elected by a Know Nothing vote.

Mr. Seward—Mr. Morgan, from my district.

Mr. Douglass—There was a bogus lodge in that district.

Mr. Seward—If there was, I did not know it. I do not believe it, and know nothing about it.

[Much similar discussion ensued.]

Mr. Sumner—It is now near midnight.—Since 11 o'clock this morning we have been in our seats. This is the day usually set apart for private claims. There are seventy-five private bills unheard, sacrificed to slavery in one of its most odious forms. There is a seeming apology for slavery at home, but that apology fails when you hunt a man who has the intelligence and still to secure his freedom.

Mr. Rusk—Point out a word in that bill which speaks of slavery.

Mr. Sumner read the caption of the bill. It has been ably discussed by my friend from Ohio and others. By the admission of the whole debate it is a bill to bolster up the fugitive slave act.

Mr. Rusk—If the officers of the United States are not to be protected, repeal your law.

Mr. Sumner—So say I. "Repeal your law." There is neither the word "slave" nor "slavery" in the constitution. The bill is reported by a Senator from the North, to bind anew the chains of the slave. Some Senators regard the fugitive slave law as constitutional, others, equally conscientious, believe it to be utterly unconstitutional. There is another clause, side by side with the "held to labor" clause, guaranteeing the same privileges and immunities in all the states, and to the citizens of each state. Citizens from the free states, in more than one state, have been put in prison, and in some instances sold.

Mr. Butler—Do you embrace South Carolina in your statement?

Mr. Sumner—I do. South Carolina has, by her Legislature, claimed the right to interpret that clause, and Congress has no power to legislate under that clause. I say of Massachusetts, that in the persons "held to labor" clause, she has a similar right to interpret, and to disclaim the right of Congress to legislate upon this last named clause. This fugitive slave act is unjust, as it is unconstitutional. You fancy you may prop it up by decisions of courts, but such an act, so defiant of the law of God, would drag any Court down to oblivion. Senators today have arraigned whole states, because they have endeavored to throw the shield of habeas corpus and trial by jury around the victims of this atrocious enactment. An enlightened Christian public opinion is forming in the North, which will render your acts on this floor nugatory as they are unconstitutional and irrational. You from the South brought slavery into Congress when you passed the laws in reference to slavery which disgrace the District of Columbia, and which my friend from Connecticut, Mr. Gillett, has so very ably exposed today. Let us alone, say Senators from the South; let us alone, say we of the North. Keep slavery where it was under Washington, when our national flag did'nt float over a slave. I move to strike out the enacting clause and insert an amendment, providing for the repeal of the fugitive slave act of 1850, and ask for the yeas and nays upon the amendment.

In answer to Mr. Butler,

Mr. Sumner said—No inducement would incite me to aid in the return of a fugitive slave.

Mr. Butler—The gentleman has no right to a seat here, disowning all obligations to the Constitution.

Mr. Sumner—I do not disavow obligation to that instrument.

Mr. Sumner's amendment was rejected by nays 30; yeas 9; when the bill was passed to a third reading, by a vote of yeas 29, nays 9; and at 12 1-4 o'clock, midnight, the Senate adjourned.

For the Chronicle.

CONSTITUTIONAL GOVERNMENT.—Native American Citizens, inheriting a soil which has been consecrated to liberty and religion, (we mean Protestant religion) by the blood of their Fathers, and holding principles derived from the teachings of the Bible as a revelation of truth, admit, without argument, that the national Constitution was designed to establish justice, as a central, fundamental principle; securing to them and to all under their jurisdiction, liberty of thought, speech and action, together with all the inalienable and transferable rights and privileges of man; that it was specially designed to form an union of the States for general, specified objects, which the States, as separate communities, could not attain—such as regulating commerce and foreign relations, &c.; that it was emphatically bound to secure to its Territories republican form of government, and free principles, by excluding Slavery therefrom,—so that the Star Spangled Banner might not be a shame and disgrace, but in truth and consistency a National emblem, floating triumphantly over an empire of freemen. This was the beautiful theory of Government conceived by Washington, the one man of his age, the moral and political embodiment of true heroism.

PUBLIUS.

OPEN AND SECRET.—The Washington Union, and the Boston Advertiser, are exercising themselves on the questions of the open and secret ballot, and the *viva voce* vote, as practiced in Virginia, where the Know Nothings are making some stir.

Our plans of electioneering are these: Let the candidates nominate themselves openly, and take the stump on their own account: but let the people cast a sealed ballot.

Both these plans are somewhat contrary to common usage, in this region. Nominations have generally been made, by certain cliques, committees and coteries—in the dark and secretly;—but the people have gone to the polls under a most vigilant supervision of party leaders.

☞ Godey's Lady's Book for March, is received by Federhen & Co. Boston, and J. P. Morse, of this city. It is embellished with The Water Lily, Colored Fashions, and The Love Letter. Also, by a view of a Country House in Canada, and many patterns of embroideries and other matters. The Editor's Table in this magazine, is worth more than the cost of the book.

☞ The leading article in Putnam's Monthly for March, is an able dissertation on the Mormons, considering the Question—Shall Utah be admitted into the Union?—The answer is, No: and the reasoning by which this answer is sustained, makes an article of great interest.

Sold by Federhen & Co., Boston; Morse, Portsmouth.

LATEST FROM HENRY A. WISE.—Our last accounts from Henry A. Wise represent him as having lately delivered a stump speech of four hours' duration, at the African church, Richmond. He lengthens as he goes.—*N. Y. Herald.*

Mr. Wise makes longer speeches than any other man in the country, and says less that is worth remembering.—*Boston Bee.*

Nevertheless, he told some home truths about agriculture and general industry, in his long speech, which was published a short time since.

☞ Two men and two women, in a carriage, were run over by a train and killed at Mugg's crossing, on the railroad between Lowell and Lawrence, on Monday afternoon.—They were Irish people going to a funeral.

ACCIDENT AT THE LYNN CENTRAL STATION.—Miss Mary A. Burnham, author of a pamphlet entitled "The Life of Faustina Woodman," and who has for some time past travelled in the cars on the Eastern Railroad to sell her work, on attempting to jump from the quarter before 1 train at the Lynn station, on Saturday, fell, and the wheels of the cars running over her feet, mutilated them in a shocking manner. She was taken into the ladies' room at the depot. Dr. Puleston was called, and, after an examination of the case, it was thought best to send her to the Massachusetts Hospital in Boston, as the amputation of one foot and all the toes of the other would be necessary. The injury, though severe, will probably not prove fatal.—*Josselyn's Daily.*

LOCAL.

☞ The third Old Folks' Concert in this city, as will be seen by a notice in another column from the committee of arrangements, is to be given in about four weeks—for the benefit of the poor, through the Howard Benevolent Society. We have no doubt it will be successful in every respect.

The third entertainment of the ancient sacred music, by the Old Folks at Exeter, will be given on Friday evening next, in aid of the poor of that town. The programme includes "A. L.'s" beautiful Song of the Old Folks, written for the second concert here.

☞ Mr. Bacheler's Panorama of India, and his explanation thereof in a very good lecture of moderate length, will be given this afternoon at 2 o'clock, in the Hanover st. Chapel, for youth and children. Tickets 6 cts.

The pictures are well designed, and originally quite costly; and add very much to the interest of the lecture.

It will be seen that Mr. Bacheler will exhibit his panorama, and deliver his lectures, at the Old South Church, this evening and Thursday evening.

☞ The examination of the Girls' High School, on Tuesday, was one of the most pleasing of the many exhibitions that have occurred since that school has been under the charge of the present popular Principal, Mr. Phineas Nichols. A very large number of visitors were present, who were highly pleased at the ready answers and the thorough knowledge of the scholars.

It is earnestly to be hoped that before the next anniversary, this school may receive its friends in a room better adapted for the purpose, and more literally deserving the name of *High* school.

☞ The lecture on Tuesday evening at the Mechanic's Lyceum, was by Wendell Phillips, on Street Life in Europe: and consisted of comparative views of common and apparently trivial traits of out door life in America, in England, and on the Continent.

The comparisons, in some respects, were favorable to us, and in others against us; but as a whole, remarkably fair: and the lecture delivered in the usual familiar colloquial style of the author, was received, as his lectures always are, with favor and pleasure by the audience.

☞ The members of the Mercantile Library Association are reminded of their meeting at their Room, this evening, and earnestly desired to be present. The particular business of the evening will be to act upon the Report of the Reading Room committee, and to finally decide whether such a Room shall be opened.

☞ Prof. Harrington advertises for this evening and to-morrow evening at the Temple, a great display of Ventriloquism, Ledgerdemain, Natural Magic, &c.

☞ Hon. Walter Harriman, of Concord, will address the Democratic party, at the Cameneum in this city, on Friday evening next.

☞ An attentive correspondent wishes for an improvement in the Portsmouth Athenæum, which shall enlarge the lower room; and for a new management which will reduce the price of subscription to $3 per annum, and increase the number of newspapers, inducing young men to come in and subscribe.

COURT OF COMMON PLEAS.

EXETER, MONDAY, Feb. 26.

Case No. 37, Stephen Scammon v. John Scammon, Benj. H. Jewitt and Daniel Wiggin, was given to the Jury Saturday noon. This was a suit to recover back taxes charged to have been illegally assessed. It was believed that the piff. had $800 of which he returned no account. At a former trial the verdict was for the town, but was set aside by the Superior Court. Hatch for Piff. Marston for Deft. The jury, after being out until Monday morning, being unable to agree upon a verdict, were discharged.

State v. Silas Marshall, for attempt to kill, was placed on trial this morning, and given to the jury at noon. Hatch for State. Stanyan for Respondent.

TUESDAY, Feb. 27.

In case State v. Silas Marshall, for attempt to kill, verdict guilty.

In case No. 70, Wm. Stearns et al v. Henry W. Veasey et al, a non suit was entered.

No. 78, Joseph W. Greene v. James Pickering, was next placed on trial, but afterwards taken from the jury and continued. Hatch for piff.; Hackett for deft.

Case No. 133, Levi G. Towle v. Jeremiah Dudley, is now on trial.

In case State v. Kimball, continued from last term on an indictment for assault on J. P. Morse of this city, Respondent retracted his plea of not guilty of assault with intent to kill, and plead guilty to an assault. The new plea was accepted by the Solicitor, and the Respondent was fined $10 and costs.

"Old Folks" Choir.

AGREEABLY to adjournment, the Old Folks Choir will meet at Exchange Hall on Wednesday Evening, Feb 28th, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, preparatory to the third Concert, to be given during the fourth week of March proximo—in aid of the Howard Benevolent Society. All who took part in the other Concerts, are invited to attend—and any who may not do so, are requested to leave the music books with either of the Committee of Arrangements, (Nath'l T. Moulton, N L. Folsom, Thos. Norton, John Christie, A. Perry,) immediately. Per order.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

FOR twelve years a Missionary in India, will deliver TWO Lectures on the Manners, Customs, and Religion of the Hindoos, in the OLD SOUTH CHURCH, on WEDNESDAY and THURSDAY Evenings, at 7½ o'clock. The Lectures will be illustrated by THIRTY-TWO large PAINTINGS, Sixteen each Evening, beautifully executed in oil colors on canvas, from drawings taken on the spot. They represent the Hindoos engaged in their domestic occupations and religious rites; also, Landscapes, Cities, Palaces, Temples, Remarkable Personages, and various other objects of interest. In the preparation of these paintings the talent of several eminent artists has been employed and the work is executed in a superior manner.

Admission 12½ cents, for each lecture.

Mr Bacheler will also exhibit the whole of his Panorama at Hanover st. Chapel, WEDNESDAY AFTERNOON, at 2 o'clock, for the benefit of the children.

Tickets 6 cents.

The Union Sacred Concert,

TO BE REPEATED

NEXT SUNDAY EVENING,

AT THE

STONE CHURCH,

Doors open at 6½: Concert will commence at precisely 7½ o'clock.

At the urgent solicitation of a great number of those who attended the Concert last Sabbath evening, and by request of many who were detained by the inclemency of the weather, the Concert will be repeated with entire

CHANGE OF PROGRAMME;

which, however, will be as attractive as the last.

The receipts of the last Concert amounted to $109—deducting $29 for expenses—leaves $80 for the Treasury of

THE HOWARD BENEVOLENT SOC'Y.

The expenses of the present Concert will not be so large, and the amount realized will go toward the same benevolent object. As this will be the last Concert by this Choir, it is hoped that the house will be filled.

Tickets, at 25 cents, can be obtained at the stores of W. R. Preston, and Wingate Haley.

Five tickets for $1.

NOTICE.

The Chorus and Performers who aided in the last Concert, are respectfully invited to meet at the Stone Church for Rehersal, at 7 o'clock precisely, on Friday evening.

CONGRESS.

MONDAY, Feb. 26.

SENATE.—The Navy Reform bill was taken up, but the consideration was postponed in order to afford Mr. Cass of Michigan an opportunity to present to Congress the sword of Gen. Jackson. In making the presentation, Mr. Cass improved the opportunity to pay a tribute to the memory of Jackson, brief, but pointedly and feelingly. He alluded to the presentation of the sword of Washington, and, in passing, spoke of the offering of the cane of Franklin, which was at the same time deposited by the side of the sword of this great laborer in the cause of human rights.—His allusions to Washington and Franklin were in his most happy style.

Many ladies were present at the ceremony.

Mr. Bell of Tennessee followed Mr. Cass in a speech highly eulogistic of the hero of New Orleans.

A joint resolution was afforded, tendering the thanks of Congress to the family of the late Gen. Armstrong, and passed.

The consideration of the Navy Reform bill was then resumed.

The bill passed, the House amendments being concurred in.

The Post Office Appropriation bill was then taken up and passed.

Adjourned.

HOUSE. The House passed the bill granting the right of way to plank and railroads running through public lands in the territories, as well as those in the States.

Mr. Disney, of Ohio, reported the Senate bill, granting public lands in Michigan for railroad purposes. Laid on the table.

The bill granting public lands to Florida for railroad purposes, was also laid on the table.

In the House, the sword of Gen. Jackson was presented by Mr. Smith, of Tennessee, who made a neat speech on the occasion.

A number of ladies were present.

Remarks were made by Mr. Benton, of Missouri, and others.

ESCAPE OF SLAVES.—A correspondent writing from Virginia, says:

"For the salt works and coal mines in the Kanawha Valley, I have been told that an advance of twenty to twenty-five per cent. was required for hired slaves. This is mainly attributable to the facilities for running away from that section. The escapes, last year, by the Ohio underground lines, were full twenty five per cent. greater than any previous year. Indeed, many masters have brought their hands from the Kanawha, not being willing to risk them there."

DEATH OF A SLAVE 111 YEARS OLD.—The Rev. A. L. Green, D. D., of Nashville, Tenn., communicates to the editor of the Nashville Medical Journal, incidents attending what he terms the "natural death" of one of his servants, at the advanced age of 111 years. Dr. Green is known to many, as one of the commissioners of the Methodist Episcopal Church South, in the settlement of the late difficulty between the Church North and South.

For thirty years of her life, and down to within three years of her death, she did not seem to undergo the slightest change in her appearance—time exercising but little power over her. The first sign of decay was that of sight, which took place about three years before her death—up to that time, she was in the full enjoyment of all her senses.

ACCIDENT AT WEST POINT.—A serious, if not fatal accident, occurred on Tuesday at West Point, in the riding school, during the exercises of the cavalry class. Two horses, ridden at the top of their speed, came in collision, and the rider of one—Cadet Gay of Vermont, had a leg broken in two places. At last accounts he was in a very precarious condition. Cadet Childs, mounted on the other horse, was borne senseless to the earth by the shock, but afterwards recovered.

COURT OF PRIVATE CLAIMS.—The two houses of Congress have agreed in passing a bill "for the establishment of a court for the investigation of claims against the United States." The bill passed the Senate sometime since; and in the House, on Friday last, was passed by a vote of 148 to 47. It only now needs the President's signature to become a law.

The jurisdiction of the court extends to "all claims founded upon any law of Congress, or upon any regulation of an executive department, or upon any contract, express or implied, with the government of the United States, which may be suggested to it by a petition filed therein; and also all claims which may be referred to said court by either house of Congress."

RIGHTS OF JURIES.—A bill is before the Massachusetts Legislature, restoring to Juries the right to judge of the law as well as the fact. There is no good reason why juries should not be allowed and required to do so. Otherwise, a jury should return a special verdict, leaving the whole case open to the decision of the Court. This would be narrowing down the importance and value of a jury trial to a very small compass. The opinions of the Court are always held in great respect by juries, but in criminal cases they should not be compelled to receive them as infallible.—*Exeter News Letter.*

The wife of Hollaweag Heilderbrand was induced by a grocer's clerk, named Henry Wissen, to leave her husband, taking with her all the household furniture, jewelry, and wearing apparel, valued at 1200. The officers recovered a portion of the goods, and subsequently found the woman at a lager beer shop in New York. She was in the company of her lover, and the officers found in their possession $581 in cash, and $400 worth of clothing. When the lady was brought to the police office she met her husband and embraced him with a renewed affection, and they left the court room arm in arm as if nothing had happened.

PORTLAND, Feb. 25.—While the Kennebec train was backing out this afternoon to the Cape Elizabeth Junction to connect with the train for Boston, the engine and tender were ran off the track, and the engineer, Alfred S. Griffin, was killed.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. N. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
No. 9 State st. opp. Kilby st. Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection, of the claims, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and Infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, Hon. Edmund Burke, of Boston, did business at the Patent Office, as solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the most influential and successful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as it is cheap, and much more convenient, requiring no stopping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could, do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 25 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,
jl8eod&w4 Salem, Mass.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.

My machine will plane very much *faster* and better than any other machine in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, crossgrained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *raise out knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon any quality of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never rust, corrode, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLOOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; MENORRHAGIA or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the VERMON CATHOLICON, I would respectfully state that I have for many years past, as my references can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so aggravating a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*.

You may use this as you think proper. It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

Cornell's Primary Geography.

ONE of the objects in the preparation of this little work, was to make it in every sense of the word, a "Primary Geography;" consequently all terms which are too abstruse in their nature to admit of being brought fully within the comprehension of the youthful beginners, have been excluded.

The lessons and maps are so arranged as to avoid, as far as possible, that dryness and confusion which has rendered the study wearisome to the beginner. The Maps and Illustrations accord strictly with the character of the lessons, each map containing all that is contained in its accompanying lessons—and nothing more.

The work is illustrated with upwards of seventy suggestive designs, exquisitely drawn and engraved for this book. The maps, twelve in number, are large and clear. There is a systematic arrangement of promiscuous questions, designed as a review. A pronouncing Vocabulary is appended.

CORNELL'S INTERMEDIATE GEOGRAPHY, AND CORNELL'S HIGH SCHOOL GEOGRAPHY AND COMPANION ATLAS:

Are in Press and will shortly appear.

Each Book of the Series is arranged on the same plan, and with special reference to the wants and capacities of the class or grade of scholarship for which it is designed. The Series is based on a system, whose rules may be briefly comprehended in the five words, "one thing at a time."

Teachers and others are invited to call and examine the above at the Bookstore of

PRESIDENT HITCHCOCK'S

History of a Zoological Temperance Convention held in Central Africa,

CONTAINING THIRTY ILLUSTRATIONS.

READ the following notice from a distinguished Clergyman:—

"We are not accustomed to laugh outright, or be convulsed with laughter, yet we have never found it more difficult to restrain our risibilities than while perusing this most ingenious satire; and yet with all its comical, diverting, and laughable scenes, the most solemn, important and instructive lessons are couched in every page.—Youth should read it—parents, teachers, preachers everybody."

THURSDAY, MARCH 1, 1855.

FEDERAL USURPATION.

The following extracts are made from the new bill which has just passed the U. S. Senate, for Protection to Government officers and *others*. The bill goes quite ahead of any sedition law of John Adams's time, and is one of the rankest exhibitions of ultra federalism, or rather centralism, we have ever seen. It has one design, and one only, viz.: to bolster up the most odious fugitive bill, by proclaiming liberty for the meanest hired minions of tyranny, to be as insolent and cruel as they please, under *color* of a law of the United States.

We extract the most material and most offensive parts of the bill, to show that we are not talking without book:

Be it enacted, That if a suit be commenced or pending in any State court against any officer of the United States or *other person*, for or on account of *any* act done under any law of the United States, or under *color* thereof, or for or on account of any right, authority, claim, or title, set up by such officer or other person, under any law of the United States, and the defendant shall, at the first term of such State court after such suit shall be commenced, file a petition for the removal of the cause for trial into the next circuit court to be held in the district where the suit is pending, * * * * * * and offer good and sufficient surety for his entering in such court, on the first day of its session, copies of said process against him, and also for his there appearing and entering special bail in the cause, if special bail was originally requisite therein, it shall then be the *duty* of the *State* court to accept the surety and proceed no further in the cause, * * * * * * and the party removing the cause shall not be allowed to plead or give evidence of any other defence than that arising under a law of the United States, as aforesaid.

The report in the National Intelligencer says that:

A protracted debate ensued, more than usually animated, and at times very eloquent, which was participated in by Messrs. Toucey, Chase, Badger, Wade, Douglas, Benjamin, Wilson, Fessenden, Pettit, Stuart, Cooper, Bayard, Gilette, Jones, Weller, Seward, and others.

The yeas and nays, by which the bill was passed at midnight, were:

Yeas—Messrs. Adams, Badger, Bayard, Bell, Benjamin, Bright, Brown, Clay, Dawson, Douglas, Fitzpatrick, Geyer, Gwin, Hunter, Jones of Iowa, Jones of Tennessee, Mallory, Mason, Morton, Pearce, Petit, Rusk, Sebastian, Shields, Slidell, Thomson of New Jersey, Toucey, Weller, and Wright—29.

Nays—Messrs. Brainerd, Chase, Cooper, Fessenden, Gilette, Seward, Sumner, Wade, and Wilson—9.

We are glad to see that our new Senator, Wells, did not vote *for* this most flagitious bill; but are sorry not to see him record his name *against* it.

Mr. Toucey of Connecticut is the only Yea from New England, New York, Pennsylvania, Michigan, or Ohio.

The President had better veto this bill, if he values State Rights in any degree whatever; for its provisions override and outrage all ideas of State citizenship, when they conflict in the least with the will of the lowest official, among the *posse* of a slave hunt, under the *color* of a law.

TWO ITEMS.

Item I.—In the U. S. Circuit Court at New York on Saturday, Capt. Smith, found guilty of being engaged in the Slave trade, the penalty of which is death, was granted a new trial.

Item II.—The trial of Theodore Parker Wendell Phillips, and others, charged with resistance to the U. S. Marshal in the case of Burns, is set down for the March term, and will, probably, commence on the 20th, in the Circuit Court, Boston, before Judges Curtis and Sprague. Eminent counsel have been retained for the defence. In the case of most of the accused, the Government will attempt to connect them with the resistance in Court Square, by means of their speeches at Faneuil Hall on the same evening.

In the first item, the slave trade is piracy; in the second it is patriotism.

If it were desired to render the name of law contemptible, and the color thereof ridiculous, this method would be most effectual.

☞ The Mass Meeting of the Democratic party, at Manchester, Feb. 27, is stated to have been very large, being attended by about 3000 persons from abroad. Ex-Gov. Steele was chairman; the speeches were full of spirit, and chiefly devoted to opposing the Know Nothings and their nominees.

Per contra, a special despatch to the Boston Bee says—

The procession numbered 815 persons, all told, Irish, French, Democrats and K. Ns.—There were about 400 K. Ns. in the procession, who it is supposed knew what they were about. The Irish reporter, from Boston is here, and will probably report some three or four thousand strangers in town, but it is all a humbug.

New Songs.—We have just received from the publishers, Messrs. G. P. Reed & Co. Boston, two new songs, viz: I'll meet thee in Heaven, or the Parting; and Remember Me: both written and composed by E. A. Hosmer. They are pleasantly arranged, within a reasonable compas, and should be popular.

CHARACTER OF THE CONTEST.

Under this head, the N. H. Gazette contains a column of editorial, "opposing the black bands of abolitionism", opposing the K. Ns., and inviting a certain choice quality of whigs, who love the Union intensely, to join the Democratic party in order to save it.

The Gazette says:

The Whig party is practically dead. It survived the loss of its great leaders only enough to join the mournful processions which followed them to their honored tombs. There were many among them who in times of public danger have sacrificed their prejudices and their mere party discipline to rally around the banner of their country and sustain its glories against domestic secession and incendiarism. The question must address itself to these Whigs: Where are we to go?

The answer, in short metre, is, Support the present Administration, and especially, vote the Democratic ticket.

We have not room for the whole argument; but here is a part of it:

Formerly, when the iron will of Henry Clay and the astute intellects of Webster and Poindexter, Crittenden and Southard controlled the course of the opponents of the Democracy, a series of measures was devised that became known as the *Whig* policy. On this platform those who were too *proud* or too *wicked to be democrats* took their stand and flung out their banners. It was a struggle on their part by appealing to the *worst passions* of men and playing on their infirmities to *seize power*.

The reader, we presume, will see the force of this complement, contained in the latter brief extract, which amounts to this: Clay, Southard and Webster, struggled for power, by working on the weakness and stimulating the worst passions of men; and making a platform so *bad*, that none but proud and wicked men could stand on it.

Yet thereon stood those same excellent men, those whigs who are spoken of in the former extract, as rallying round their country's banner to sustain its glories. There they were; on the base platform, too proud and too wicked to stand elsewhere.

This platform it seems, has now tumbled down, the party is dead, and its funeral has just passed. Why did it die? The Dover Gazette shall give the answer:

For Congress in this District the whigs have made no nomination. Their party has been so *corrupted* and overruled by a *base* secret organization that all attempts to nominate have been frustrated.

If there should happen to be any of the late lamented whig party among our readers, we hope they will lay these things to heart, and improve them aright.

The whig party, according to these quotations, had its origin in the *corrupt* ambition of Clay and Webster, its life in the pride and wickedness of its members—and its death in these members being *corrupted*.

Yet now its members, who were so because they were also corrupt, are invited to save the State of New Hampshire, by voting the regular nominations of the democratic party.

SAD PICTURE.

"The heart of the sons of men is fully set in them to do evil, and madness is in their heart while they live, and after that they go to the dead."

We can think of no more apposite quotation than the above from the Wise Man, to be applied to the following item:

Green, the Chicago banker and murderer, who hung himself in his cell, left all his property, amounting to about $50,000, to his son, and in case of his death, applying it to benevolent purposes, exclusive of his other relatives. They are about to contest the will on the ground that he was insane. In his cell nothing like a confession has been found. The only thing that affords any clue at all to the state of the prisoner's mind at the time he committed the fatal act which hurried him unbidden into the presence of his Maker and Judge, is the fact that the following passage from a pamphlet, marked with pencil, was found in his cell.

"How vain is the greatness of this world! How fearful is the gift of genius, if it be abused! Who that is now living would not rather die——"

On the morning after the suicide a daguerreotype was taken of him, as he hung suspended and lifeless from the beam.

A fit end this, to such a life as his.

A Proper Rebuke!—The Wisconsin News, a democratic paper of the administration stripe, thus notices the appointment of Mr. Augustus Cæsar Dodge as Minister to Spain:

"It shows the determination of the President to sustain those who have been struck down in the performance of their duty by fusion combinations. His appointment is a proper rebuke to the anti-Nebraskaites, and shows farther how the President regards the efforts of a certain sore-headed faction in Wisconsin and Iowa to kill off the Dodge family."

Effigy Burning.—A member of the New York Assembly gave notice, on Saturday, that he should shortly introduce a bill declaring effigy burning arson, and punishing it as such.

He might well have added, and written himself down—a donkey.

A gentleman once asked Savary, Duc de Rovigo, "Had the Emperor Napoleon many spies in England?" The duke laughed outright. "Spies!" exclaimed he, "Spies! I once recommended to his majesty the employment of such agents.' 'Bah!' exclaimed the Emperor, *"Do we not know all we want to know through the English newspapers?"*

LOCAL.

The Chronicle.—Our carriers now are not furnished with papers for sale. Subscribers will be supplied by the month or week—but no transient papers can be had except at the office, and not always here. The best and only sure way of getting the Daily, is to pay for it at the office—$4 per year, or only $3 in advance.

Our Weekly is now the only $1 paper in Rockingham county, and is very cheap at that price. So say we, and so our steadily growing list testifies.

Settlements.—Our neighbor of the Journal, last week stated what he terms a case of "despicable meanness"—that of a man who has had his paper for *fifteen years*, without paying for it, and who finally said that he was not a subscriber, but would pay $10 to settle the bill—which amounted to $45, including interest. Threats of posting would not move the delinquent, and so, "posted" he is. But that does not pay the bill, though there is considerable satisfaction in letting the public know of such wrongs. We think any man who lets an account grow only on one side for fifteen years, is considerably in fault.

We don't want any patrons who won't settle at least once a year; and we will not have any who don't come pretty near that mark. We commenced the Daily Chronicle with a good list of subscribers, but very few of whom have discontinued their subscriptions; and but a single *one* of whom has not some credit to his account. This delinquent we marked off our carrier's book sometime since—he is not worthy a place in a list of subscribers generally so prompt in payment as ours.

A Smart Son of Portsmouth.—We have received from the publisher, a copy of "The Trinity Times," issued weekly, at Waterville, California. It is about the size of the Weekly Chronicle, and the terms are $10 per year in advance. For advertising ten lines, $4 for the first insertion, and $2 for each subsequent insertion. The Times is well printed, and appears from this number to be ably conducted. Edwin A. Rowe, Esq., son of Mr. Frederick Rowe of this city, is editor, publisher and proprietor. Mr. Rowe is also a Representative in the Legislature of California; and by the advertising columns of his paper, we perceive he is agent for an extensive route of Adams & Co.'s express; and has for sale, on his own account, or as agent, real estate, live stock, etc. He keeps all the irons in the fire, we should say.

Milk Thief.—A gentleman in this city has a valuable cow, that has long been in the habit of milking herself. To prevent this, he placed on her neck a collar of sharp spikes, similar to those often put upon calves to force their mothers to wean them. This she has worn continually for more than two years—and it effected its purpose; but having lost it off a few days since, she immediately returned to her old trick, and desisted only on the application of a new collar of sharper spikes.

☞ Hon. Daniel Warren, of Boston, will address the American party, at the Temple in this city, on Friday evening next, at half-past 7 o'clock. Ladies and gentlemen are invited to attend.

☞ Wendell Phillipps, in his excellent lecture Tuesday evening, said—"A Lyceum is a *Church*." From the number of *sermons* we usually have in a course of lectures, we are inclined to think his definition of a Lyceum is about right. Typographus.

Sudden Death.—Mr Daniel M. Lankester, well known for many years to the travelling community, died at Newburyport very suddenly Monday evening. He left the Eastern Railroad at half-past six o'clock, after attending in good health to his duties as depot master, and while sitting at the supper table was suddenly seized with paralysis or apoplexy, was removed to a bed and did not speak afterwards, dying at half-past 10 o'clock. His age is 58.—*Newburyport Herald.*

"Honor to whom Honor."—A document from the President of the Philadelphia City Missionary Society—whose object it is to supply the spiritual and temporal wants of the poor of that city—states that among the "most generous contributors to this society stand foremost the operators of Schuylkill county, who have contributed this winter about fifteen hundred tons of coal, to be distributed among the worthy poor, under the direction of Rev. John Street." This Mr. Street has been the leading missionary of the society for near sixteen years, and by his own exertions raised last year near fourteen thousand dollars for its treasury.

Horace Mann, president of Antioch College, has become a communicant in the church known in the west as "The Christian Denomination," and has recently officiated as a preacher in several of the Christian and Unitarian churches in Ohio. We think Mr. Mann mistook his calling originally, in becoming a lawyer. Had he entered the pulpit when a young man, he would have been unsurpassed by any preacher in the western world. No man has language more copious, and with unction, fervor and zeal like his, the good he might have done in the highest of earthly callings is incalculable.—*Boston Post.*

"Old Folks" Choir.

Agreeably to adjournment, the Old Folks Choir will meet at Exchange Hall on Wednesday Evening, March 7, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, preparatory to the third Concert, to be given during the fourth week of March proximo—in aid of the Howard Benevolent Society. All who took part in the other Concerts, are invited to attend—and any who may not do so, are requested to leave the music books with either of the Committee of Arrangements, (Nath'l T. Moulton, N. L. Folsom, Thos. Norton, John Christie, A. Ferry,) immediately. For order,

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. R. Preston, J. H. Thacher, and D. Kimball, and sold by the Druggists throughout the United States. 2m f1 d&w

CONGRESS.

TUESDAY, Feb. 27.

SENATE.—Mr. Rusk of Texas called up the House bill for reducing and modifying the rates of postage. One provision requires the prepayment of all letters by stamp after the 1st of January, 1856, and another provides for the registration of valuable letters. Considered and passed.

The Senate was engaged in a nine hours' discussion upon the Collins Appropriation bill, and, without closing the debate, adjourned at a late hour. Senator Chase, of Ohio, was preparing for a long speech at the time of the adjournment.

HOUSE.—The House passed the Navy and Fortification bills, and the bill establishing an U. S. Court for the district of California.

The rules were suspended and the House took up the old soldiers' bill from the Senate.

The further consideration of the bill was postponed until to-morrow at noon.

While debating the Senate's amendments to the Army bill, news came that Mr. Benton's house was on fire. Great commotion ensued all over the hall, and the House took a recess until 7 o'clock for general debate.

At the evening session, few members were present, and the House engaged in a general debate, involving personal explanations.

NEW ORLEANS, Feb. 27.—The steam tow boat Thos. McDaniel exploded the whole of her boilers yesterday, a little below this city, killing seven persons and wounding several others. The boat is a complete wreck, and two ships which she was towing were somewhat damaged.

A large fire occurred at Vicksburg last night, causing a loss of $30,000. No business houses were destroyed.

Messrs. S. O. Nelson & Co., extensive cotton factors, have failed for a large amount.—Their assets will probably exceed their liabilities largely.

NEW ORLEANS, Feb. 28.—A letter from Havana, by the Crescent City, says that arms have been taken away from a number of Creoles. Senor Estrampes had been sentenced to death by the garote, and Mr. Felix to ten years in the chain gang in Africa.

Garcia Monroe has been appointed military governor, and the Conde de Carnejo civil governor of Havana. Three British ships of war were in port. Everything wore a gloomy aspect in Havana.

WASHINGTON, Feb. 27.—The fire at Col. Benton's house today detroyed all his manuscripts, including part of the "Thirty Years in the U. S. Senate," and much of the material for completing the work, consisting of original correspondence of the earlier Presidents and other public men. He bears his loss, however, philosphically, is cheerful, and to-night is writing a speech.

HARRISBURG, PA., Feb. 27.—A second ballot for U. S. Senator resulted as follows: Cameron 54, Buckalew 23, balance scattering. On the third ballot Cameron had 55, Buckalew 23, rest scattering. A motion to adjourn till tomorrow was made and lost 63 to 66, when the Convention agree, 66 to 65, to adjourn till the first Tuesday in October.

NEW YORK, Feb. 28.—The Board of Governors of the Almshouse passed a resolution last night removing from the institutions under their control, all officers who are not natives or naturalized citizens.

ST. LOUIS, Feb. 26.—Navigation to Kansas is closed by the cold weather. It is now colder than ever.

PANAMA RAILROAD.—In connection with the completion of the Panama Railroad, it is said a steamship will be despatched from New York for Aspinwall, carrying freight only, to be transferred to a steam-ship on the Pacific, thus placing goods in San Francisco in about thirty days.

THE BELGIANS RELEASED.—The twelve Belgian immigrants who arrived at New York per ship Rochambeau in December last, and have been confined in prison ever since on suspicion of being criminals, were on Saturday ordered to be released by Judge Rosevelt in the Supreme Court, their being no evidence of their criminality or even pauperism in its technical sense.

NOT EXPECTED TO LIVE.—The wife of Isaac O. Barnes, late U. S. Marshal, is dangerously ill, and no hopes are entertained of her recovery. Mrs. Barnes is a sister of the late Hon. Levi Woodbury, of New Hampshire.—*Boston Telegraph.*

ACCIDENT.—On Monday afternoon, an intoxicated man, named Hugh McGonagle, while in the yard of Mr. Grant, on Foundry Street, South Boston, fell upon a set of saws which were in operation, and was severely and probably fatally injured. His arms and legs were fractured, his body mutilated, and his head severely cut and bruised.

DEATH OF WILLIAM POOLE.—Wm. Poole, Poole, the New York pugilist who shot and severely wounded by a party of blacklegs on Saturday evening last, at Stanwix Hall, in New York, died of his injuries on Monday morning. His character was not such as to command either the respect or esteem of his acquaintances. His death should be a warning to those young men who would follow in his steps. His murderers will probably be brought to justice.

New Boot and Shoe Store,

NO. 12 DANIEL STREET,
Portsmouth, N. H.

THE undersigned would respectfully announce to the citizens of Portsmouth and vicinity that they have entered into copartnership in the firm name of

JOHN BUZZELL & CO.,

Have taken the Store in Daniel street, formerly occupied by Mr. E. A. Stevens, and stocked it with a good assortment of

BOOTS AND SHOES

Of every description, which they offer to the public at as low prices as they can be purchased for in Portsmouth or elsewhere. They also have in connection with their Store a manufactory of Boots and Shoes, and are prepared to make to order any description desired, in the best manner, and on the most liberal terms. Determined to merit, they hope to receive a fair share of public patronage.

JOHN BUZZELL,
WM. H. FERNALD.

The subscriber takes this opportunity of presenting his compliments to his many friends in Portsmouth and vicinity, and respectfully soliciting their patronage in his new position, pledges himself to use every endeavor to serve them satisfactorily. During his experience of twelve years in the business he has labored to serve faithfully all who have entrusted their orders to his care; and trusting he has earned a reputation for fair and honorable dealing, he will strive in future to merit and retain it. Every article sold at the Store, where it will be his pleasure to serve his friends and find new ones, shall be as represented, or if it shall prove otherwise the money shall be refunded, or entire satisfaction given. Please call and try us. Very respectfully,
Feb. 7. JOHN BUZZELL.

ART UNION.

PHILIPP WENZEL proposes a SECOND

EXHIBITION AND DISTRIBUTION
OF

PICTURES,

in consideration of the solicitations of his friends and the manifold expressed desire of those who held tickets for my first exhibition, to whom the result of it gave full satisfaction. To gratify and meet the approval of all, I will make this second Exhibition far more interesting and advantageous to those who will favor me with their patronage; and enable everybody to adorn their firesides or parlors with splendid Pictures and Engravings.

The Price of each Ticket will be $1.

Each Ticket-holder is entitled to one Picture.—The number of Pictures is to be FOUR HUNDRED, many of which are elegantly framed—comprising

The Finest and Best Collection,

the most artistic representations, ever exhibited in Portsmouth—being the latest importations from Munich, Dusseldorf and Paris—
varying in price

From 50 Cts. to $15.

The Pictures may be examined at my Store, two days after the disposal of the corresponding number of Tickets.

The Pictures will be Exhibited in one of the large Halls in Portsmouth, for two days, (the time and place will be given in a special notice in the Daily Chronicle;) and on the Evening of the second day, the DISTRIBUTION will take place, in the same fair way as at the first Exhibition.

☞ Remember — no disappointments — each Ticket-holder gets a splendid Picture.

TICKETS may be had at the Stores of W. R. Preston, J. H. Thacher, H. Peyser, and

P. WENZEL, Congress St.

Portsmouth, N. H., Jan. 19, '55.

P. S.—Persons out of the place, may secure Tickets by enclosing the money in a letter, prepaid. j19 3mtf

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, As well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt, and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I

AMERICAN AND FOREIGN OFFICE.

Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber late Chief of the U. S. Patent Office, under the Act of 1837, determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS instead of twenty, and paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in the United States and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1854. eodly

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very valuable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 36 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,
Salem, Mass.

IMPORTANT IMPROVEMENT
—OF—
Rotary Planing, Tonguing and Grooving Machines.

PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

My machine will plane very much *faster* and *better* than any other now in use. I would particularly call the attention of all those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots.*

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clap boards, in a very superior manner, without *tearing the surface.*

Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

THE GREAT STANDARD REMEDY
FOR ALL PULMONARY DISEASES.

Containing neither Prussic Acid, Tartar Emetic, nor any other deleterious drug. Extensively used, tested and approved in New England, Canada, and the British Provinces during a period of THIRTY YEARS by *Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*,—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LEGG, Philadelphia,—and many others.

HOW EXPLAINED BY PHYSICIANS.—JOHN A. BERRY, M. D., Saco, Maine, says: "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Gold Pen, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to attempt upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, and usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION of the WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from Eminent Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the URINARY CATHOLICON, we can only state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S URINARY CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual avocations*. . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., FRIDAY, MARCH 2, 1855. VOLUME 6. NO. 26.

THE DAILY MORNING CHRONICLE
is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.
TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.
For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated.
Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.
Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.
☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payment.

ANOTHER IDA MAY.—Several weeks since, some account was given of a family of white slaves in Virginia, in whom Mr. Sumner, of Massachusetts, has taken much interest.—Four of the six members of the family have been freed at a cost of eight hundred dollars, raised principally by John A. Andrew, Esq., of Boston.

Mr. Sumner, in a letter from Washington to Boston, says:

I send you by the mail the daguerreotype of a child about seven years old, who only a few months ago was a slave in Virginia, but who is now happily free by means sent on from Boston, which I had the happiness of being entrusted with for this purpose. She is bright and intelligent—another Ida May. I think her presence among us (in Boston) will be more effective than any speech I can make.

Meanwhile I send this picture, thinking that you will be glad to exhibit it among the members of the Legislature, as an illustration of slavery.

Such is slavery! There it is! Should such things be allowed to continue in Washington, under the shadow of the Capitol?

The daguerreotype mentioned in the letter is a portrait of one of the family referred to, a most beautiful white girl, with high forehead, straight hair, intellectual appearance, and decidedly attractive features. It may be seen for a few days at the State House, in the hands of the Clerk of the House of Representatives.

ROMANCE IN REAL LIFE.—Some years ago a very beautiful young lady was the ward of a person in Louisiana, who defrauded her out of quite a large fortune. This lady came to this city, where she married, but not living on good terms with her husband, finally obtained a divorce from him and retired to a convent. While she was there she received a letter from the son of her former guardian, informing her of his father's death, and that himself had heired all his vast property, but that he could not consent to retain that which had been treacherously taken from another, and offering to make restitution. The lady immediately proceeded to Louisiana, had an interview with the heir, and received back, both principal and interest, all that she had been wronged out of. The strangest part of the story remains behind. No sooner had she got possession of her fortune than she returned to this city, sought out her former husband, and in a few days was re-married to him.—Verily, the love of woman passeth understanding. The parties are now living in St. Louis, and it is to be hoped will agree better than formerly.—*St. Louis Intelligencer.*

ARREST.—Walter Bishop, a colored man, was arrested in Boston, on Saturday, on an indictment alleging participation in the Burns riot and an attempt to arrest Marshal Freeman in the discharge of the duties of his office. He gave bail in the sum of $1500 for his appearance for trial in May next. This reminds us of a statement in the Times to the effect that Mr. Grimes, who has of late been engaged in the collection of money for the purpose of purchasing the slave Anthony Burns from the owner, has succeeded in his endeavors, and the necessary amount $1300, has been contributed. Mr. Grimes left on Friday for the South with the funds, and will settle the matter of manumission as soon as possible.—*Courier.*

MORE LIBEL SUITS are in progress in New York. In the case of Fry vs. Bennett, in which a verdict of $10,000 was given against the latter, a new trial has been granted upon some technical point. Whereupon Mr. Fry addresses a letter to the public, and prints it in the Tribune, in which he accuses Bennett of extorting $13,000 from a merchant who was in the house of Rosina Townsend on the night Helen Jewett was murdered, and of finally driving him to commit suicide. Bennett now announces that he shall sue Fry and the Tribune, and the Express, which copied the statement, and claim $50,000 damages.

BIGOTRY.—Some bigots in England are making a great ado because the government allows Miss Nightingale and her devoted nurses, to have charge of the Hospital at Scutari, on account of their religious belief—they being Catholics. The poor patients whose sufferings are relieved by the truly christian efforts of these noble Samaritans will not stop to inquire what may be their creed—their disinterested labors sufficiently testify to them, their pious character.

PERTINENT QUERIES.—A live preacher at the West, in a recent sermon, made use of the following suggestive language: "Can men and women be healthy in America? A nation of invalids cannot be a nation of freemen. We must learn how to eat, drink, work, and amuse ourselves."

Morning Chronicle.

FRIDAY, MARCH 2, 1855.

For the Chronicle.

Kepler, assuming his own locality as a starting point, sent out his excursive fancy into the "void expanse," and he conjectured, that is imagined, certain laws, by the operation of which he explained the phenomena of the material world. Newton, the British astronomer, subjected those laws to mathematical demonstration, and thus was gravity discovered to be the principle which holds the planets in their orbits, reducing to a system of harmony their complex relations. But Washington, the Founder of the American Republic, had not so difficult a task as this. It was sufficient for him to arrange into an organization of civil and political government, principles which had been revealed eighteen centuries; so that the moral action and natural relations of men, like the planets, might be adjusted and made to centralise towards the development of one great idea. No wonder, then, that true Americans should hold the bible in esteem, the chart of their eternal salvation, as much so as they consider the constitution to be the palladium of their temporal liberty. No wonder that they should resolve (even those of them outside the secret society of the Know Nothings) that this book shall not be displaced from their schools by Catholic bishops and priests; nor, that the heathen rites, perfidy, hypocrisy and infidelity of this system of superstition and *false* religion, should not be countenanced or encouraged.

PUBLIUS.

THE GOOD MERCHANT.

We have been reading an excellent article in the Universalist Quarterly for January, entitled, The Man of Principle in Business, from which we make the following extracts, on the Good Merchant:

To be sure, some declare that all traffic or trade is gambling, a game of loaded dice on the one side or the other, a system of respectable frauds and tricks. It is often said that an honest man cannot sustain himself, cannot do a living business; that he is compelled to abandon the golden rule of doing as he would be done by, and to descend to the tricks and traps and frauds of trade, or he will fail, be driven off the track by those who will descend to them. But what honest man believes it, for all that? If it were so, one might seriously doubt if this were God's world. And it is painful and mortifying to hear one, himself engaged in business, making a speech of this sort, dishonoring his own calling, and not very indirectly accusing himself, and the large class to which he belongs, of dishonesty and knavery. It is not good to speak in this broad manner; for, first, it is not true; and second, if it were true, he is bound, as a protest against the fraud, to abandon it, and with honest sweat and toil to dig his bread from the earth.

But it is not true. All trade is not fraud, nor gambling; and an honest man, the man of principle, can live, and be successful, in a business conducted according to the severest laws of integrity, truth, and value received. I know such as these, and noble men they are, God's noblemen. And when I see them standing amid the uproar of traffic and worldliness, amid the ceaseless din of the street and wareroom, and the keen encounter of buying and selling—standing there with serene countenance, with clean hands and pure conscience, with garments unsoiled and not even the *dust* of trade upon their sandals—it seems to me that this whole broad earth has no fairer sight. And when I consider the manifold temptations with which they are daily beset, and the infirmities of human nature; the loose morality which prevails in regard to this subject, and the powerful influence of corrupt example in high places, I feel for these men not only the warmest admiration, but a sort of involuntary reverence. I honor them, first and foremost of all; for they honor, make honorable, and give dignity to, the name not only of the Merchant, but also of the Man and the Christian! They are the fixed stars, the suns in the commercial, moral and social systems, around which your mean men, your men of cunning, of tricks, and sharp trading, so called, revolve, in orbits eccentric enough, but still in a way to illustrate the power and influence of the strictly just and righteous man.

Some such men we have known, who have gone the way of all the earth, and whose memory is blessed. A few of such still live with us; and more of such we hope are coming up in the new race of business men.

C. Chauncey Burr, for a long time publisher and editor of the National Democrat, of New York, having disposed of his interest in that journal, addresses the public briefly. Among other pungent things, he says:

"Having in the first place embarked in the enterprise (editorial) under the personal pledges of the President himself, we preferred to incur a fearful pecuniary responsibility rather than to follow him in his unrighteous warfare upon the Democracy of New York. Almost 'single handed and alone,' so far as pecuniary aid is concerned, have we fought this battle.

Wm. Lloyd Garrison lectured to a crowded house, at the New York tabernacle, on Tuesday night, against slavery, &c. The lecture was the closing one of the course, but an extra one by Senator Sumner was announced for an early day.

Sam Houston delivered his lecture on Texas, before the New York Mercantile Library Association, at the Academy of Music, on the same evening, to an audience of 3000 or 4000 people.

The book of a statesman is the human heart.

CONGRESS.

WEDNESDAY, Feb. 28.

SENATE.—The Navy discipline bill was passed.

The Senate refused to reconsider the vote upon the report of the committee of conference on swamp lands, 24 to 21.

Sundry bills from the House were sent in for concurrence, and sundry bills, acts and resolves were received from the President, with his signature attached.

The Mail Steamer Appropriation bill was then taken up. The debate upon the bill was long and desultory. Several amendments were offered and respectively rejected. The bill finally passed, 26 to 22. The effect of the bill is to continue the carriage of the trans-Atlantic mails by the Collins line of steamers until April, 1860, at the rate of $33,000 the round trip. The Senate concurred with the House in relinquishing the right of Congress to terminate the contract by six months' notice, as previously incorporated in the bill.

Mr. Hunter, of Virginia, from the committee on finance, reported the bill from the House, containing the Civil and Diplomatic Appropriation bill, with a modification of the tariff, and asked the Senate to pass the same without amendment.

Mr. Pearce, of Maryland, objected to having the modification of the tariff forced upon the Senate in this manner, and it was finally made the order of the day for to-morrow.

The Senate went into executive session and unanimously confirmed Winfield Scott as Lieut. General.

HOUSE.—Several bills were passed, among the most important of which were those of the Senate to prevent "mis trial" in district and circuit courts in certain cases, and giving Charles W. Caude relief in $5000 for damages sustained in false imprisonment as a deserter from the army. There was much confusion in the House from a great number of members being anxious to obtain the attention of the speaker.

The bill passed, 135 to 35, when the House took a recess until 7 o'clock.

WASHINGTON, Feb. 28.—A compromise has today been agreed upon between the deputation of merchants and the Senate Committee on the Emigrant Passenger bill, which will now doubtless pass.

There are great rejoicings here at the success of the appropriations in aid of the Collins steamships, in the Senate.

The soldiers' bounty land bill will probably be lost between the two houses.

Senator Hunter is making a strenuous effort to press the Civil and Diplomatic bill through the Senate without amendment, for fear that if it goes back to the House it will be killed there by the opponents of the Tariff proposition which it contains. I do not think he can hold the Senate to any such course as this.

The President of the New York Kansas Settlement Company, Dr. E. Snodgrass, is here, engaged in efforts for the promotion of the emigrant aid movement, preparatory to an extensive tour, in answer to numerous calls for information, beginning with portions of the South, of which section the Doctor is a native.

BATTLE OF THE CHURCHES.—The New Bedford Mercury, in an article on the War in Europe, offers the following thoughts:

But the war, it seems to us, should be seen from a historic point of view, which puts out of sight the mere diplomatic manœuvring of the Viennese ambassadors. The question of *equality* between the Greek and the Latin churches at Jerusalem, is a mere tissue of pretences. The battle between these two *hierarchies* is for *absolute sway*, not for equitable position. The Eastern and Western churches are at deadly fend. A continental Romanist regards a protestant heretic with far more favor than he does his co-religionist, who differs with him about the length of the lower limb of the Cross and the true date of Easter day.

But the true struggle is whether Russia shall get footing upon the Mediterranean by the capture of Constantinople, and open a route to India across the Caucasus.

Nevertheless, the fanaticism of both Greek and Roman churches embitters the war. It is a singular spectacle to see the Romanist Frenchman, with the Mussulman Turk, and the Protestant Englishman, all fighting the Greek Russian.

A correspondent of the Morning Chronicle, dating Berlin, Jan. 31, writes:—"Number 705 of Punch, seized at Konigsberg, is ordered by the criminal court there to be destroyed wherever it may be met with. The last number was likewise confiscated at Stettin, immediately upon its arrival on the 28th."

A PRIEST IN CUSTODY.—On Tuesday afteroon a man was taken to the Centre police station, drunk, who gave the name of O'Sullivan, and said he was a Catholic priest, and that he had been stopping at the United States Hotel. Property was found in his possession which confirmed the story that he is a priest, and he is supposed to belong in Quincy. He was sent to jail.—*Boston Trav.*

Oliver Lee, who was convicted of manslaughter in the first degree, for killing W. H. Harrison during the election riots in Williamsburg, in November last, was sentenced in New York, on Saturday, to the State Prison for fifteen years.

BALTIMORE, 28th.—The reclaimed fugitive slave, Anthony Burns, is now in this city, on his way back to Boston.—his freedom having been purchased by a few Bostonians at $1300.

AMERICAN SUCCESS.—*Washington, Feb* 27. The election of city officers of Georgetown took place to-day, and resulted in the entire success of the Know Nothings. The present Mayor is re-elected by a handsome majority.

STARTED.—The priest Brady, of Middletown, nephew of the late Father Brady, of Hartford, has been ordered to remove to another diocese, in consequence of the part he took in celebrating mass at Father Brady's funeral, in violation of the Bishop's orders.—*Boston Bee.*

The Know Nothings have got possession of the Washington Monument Association, and will probably succeed in finishing the structure.

LOCAL.

HIGH SCHOOL.

We rejoice that the girls have a vacation, so that they can come up out of that cellar where their school is kept, breathe the pure air, and luxuriate in the sunshine. And, now, one word, editorially, for a new School House for Girls.

We are in immediate pressing need of a decent, comfortable, pleasant school room, with the appropriate and needful appendages within doors and without. And we would, if we could, impress it upon the city government, that is to be next year, as one of its chief duties, to locate and build such an edifice; not exactly where we say, but in a central, pleasant spot, dry, light and wholesome; and not exactly after our plan; but on the most approved model that can be found.

The school room should be of ample size and height: and the house should be constructed on such a scale of liberal economy as would secure a first class building, substantial, permanent and ornamental. To this end, we should have on our two boards of city council and in the Mayor's chair, men who are capable of judging rightly, between different plans of building, different locations, and perhaps supposed conflicting interests.

Men of small capacities and narrow minds, will not answer in this exigency.

The School for Boys needs a new house *almost* as much as that for Girls; not *quite*, for the boys don't have to study and recite in a cellar; but they, in the High school, and in the school under it, on the ground floor, occupy rooms dreary and unpleasant when compared with the best new and improved school rooms of the present day. A new school house ought to be had for the Boys' High School, this year.

COURT OF COMMON PLEAS.

EXETER, WEDNESDAY, Feb. 28.

In the case of John R. Palmer v. Jeremiah Dudley, the jury returned a verdict for Dft. The plff. brought this case to obtain judgment for damages occasioned by a collision of carriages in the night time, in a public street in exeter. Wood for Plff.—Stickney & Tuck for Deft.

The case of Levi G. Towle v. Jeremiah Dudley, is now on trial. This case grows out of the preceding, the plff. being the owner of the carriage in the possession of the plff. in the former case, at the time of the accident.

☞ There will be no services at the Pleasant Street Church next Sunday. Rev. Mr. Fanton, of Fall River, Mass., has accepted an invitation to preach for this Society for a time at least, and will occupy the pulpit on and after the 11th inst.

☞ Hon. Daniel Warren, of Boston, will address the American party, at the Temple in this city, this (Friday) evening, at half-past 7 o'clock. Ladies and gentlemen are invited to attend.

☞ Hon. Walter Harriman, of Concord, will address the Democratic party, at the Cameneum in this city, this evening, at 7 1-2 o'clock.

Save your Gas.

IT is desirable to economise in every way the consumption of Gas, and in no way can this be so effectually done as by the use of Dr. Walter Kidder's

GAS REGULATOR.

The Regulator is designed to lessen and equalize the pressure of Gas in the pipes, thereby making the lights burn equally. It also destroys the disagreeable and unhealthy smell of unconsumed gas in the room, and making a saving of 25 per cent in the consumption of Gas.

The Regulator has been extensively used in Boston, New York and other places, with complete success; and has been highly commended by the most scientific men in the country. The subscriber has one in operation at his Store, and would be pleased to have any one examine it.

Pamphlets containing a full description of the article, and of experiments with it, with the testimonials of those using it, may be had at the Store.

The subscriber has also for sale, Wood's Patent Burners and Patent Scotch Tip Burners, both very economical and desirable burners. Please call and examine. E. A. STEVENS, 46 Market st.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Two Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m f1 d&w

TWO ARRIVALS FROM EUROPE.

SEVEN DAYS LATER NEWS.

NEW YORK, March 1.

The steamship St. Louis, from Havre, Feb. 14, arrived this morning. Among the passengers were Mr. Soule and family.

Thnre is no news of any importance from the seat of war.

Lord John Russell has been appointed as the British plenipotentiary to attend the conference at Vienna in negotiating for Peace.

The Funds advanced a shade under the annoucement of Lord John Russell's appointment.

Parliament was to re-assemble on the 16th.

The Paris correspondent of the London News says that Mr. Soule considers the scheme for the purchase of Cuba completely knocked in the head.

Despatches from Lord Raglan, dated 27th, reports the weather fine, with severe frosts at night. The huts were being got up with much difficulty.

The first detachment of British troops from India had arrived at Suez.

The India mail had been telegraphed. A despatch dated Bombay, Jan. 16, says an insurrection had broken out at Cabul.

Twelve thousand Persians were besieging Benda Beebasi. A murderous conflict had taken place, but the besieged continued their resistance.

A French Company had offered to raise in France a legion consisting of from ten to twenty-five thousand men for the service of the British Government, half the number to be ready within fifteen days. It is stated that the English Government is favorably disposed towards the proposition.

A despatch from Vienna says the Czar has issued a manifesto, under date of Feb. 12, in which he calls the entire male population under arms. An additional force of 300,000 men will be ordered to be despatched to the Crimea.

The latest dates from Sebastopol are to the 31st of Jan. and report the weather growing milder.

Markets.—Cotton dull. Flour down 6d; Wheat 3d; Corn dull and unchanged.

HALIFAX, March 1.

The steamer Canada, from Liverpool 17th, arrived here at an early hour this morning.

The Peace Conference was to open at Vienna, Feb. 27, and Lord John Russell had already left London for the Austrian capital, to assume the office of plenipotentiary from the British government.

The Western alliance had received the accession of Naples. No news from Sebastopol.

Consols had experienced a decline. For Breadstuffs a very limited demand, and prices a shade lower than quotations by the Baltic.

FROM CALIFORNIA.

NEW ORLEANS, Feb. 28.—The steamer Daniel Webster, from San Juan, Nic., arrived at this port to-day, bringing dates from California to the 9th inst. The Cortes brought 170 passengers, 32 of whom came here.

The Legislature of California had made another attempt to elect a U. S. Senator, being the forty-fourth ballot for that purpose, which, like its predecessors, resulted in no choice.

A meeting of the Native Californians was held at San Francisco on the 7th, to consider the expediency and take all necessary measures for a wholesale emigration to Sonora, in order to escape the heavy taxes of the State, which seem to be generally considered oppressive.

The mining interests continued to suffer for want of water, the recent rains having furnished but a very limited supply. In the interior the miners were anxiously looking for weather adapted to their labors. The Kerr river miners had afforded an extensive yield, and thousands were flocking thither, the prospects in their own diggings being rendered extremely meagre in consequence of the drought.

In the markets, a better feeling was exhibited for some classes of mercandise, especially for provisions; for the inferior grades the demand was light, and no cash sales were reported.

The Isthmus is reported to be healthy.

The revolution in Central America is progressing, and Chomoro had achieved an important advantage over Gov. Oristillo.

LOST in or near Hanover street, on Wednesday forenoon, a VICTORINE of grey fox fur. The finder shall be liberally rewarded, on leaving it at the Chronicle Office.

THE undersigned would respectfully announce to the citizens of Portsmouth and vicinity that they have entered into copartnership in the firm name of

JOHN BUZZELL & CO.,

Have taken the Store in Daniel street, formerly occupied by Mr. B. A. Stevens, and stocked it with a good assortment of

BOOTS AND SHOES

Of every description, which they offer to the public at as low prices as they can be purchased for in Portsmouth or elsewhere. They also have in connection with their Store a manufactory of Boots and Shoes, and are prepared to make to order any description desired, in the best manner, and on the most liberal terms. Determined to merit, they hope to receive a fair share of public patronage. JOHN BUZZELL,
WM. H. FERNALD.

The subscriber takes this opportunity of presenting his compliments to his many friends in Portsmouth and vicinity, and respectfully soliciting their patronage in his new position, pledges himself to use every endeavor to serve them satisfactorily. During his experience of twelve years in the business he has labored to serve faithfully all who have entrusted their orders to his care; and trusting he has earned a reputation for fair and honorable dealing, he will strive in future to merit and retain it. Every article sold at the Store, where it will be his pleasure to serve his friends and find new ones, shall be as represented, or if it shall prove otherwise the money shall be refunded, or entire satisfaction given. Please call and try us. Very respectfully,
Feb. 7. JOHN BUZZELL.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the direction, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.
Hon. Solomon Foote, Member of Cong. from Vt.
Hon. H. D. Foster, Member of Cong from Pa.

INSURANCE FAILURE—AN UNSAFE RELIANCE.—The Reliance Mutual Insurance Company, it will be seen from the statement of the Finance Committee, (Messrs. Arthur Leary, L. B. Wyman, and S. H. Smith,) have stopped business. For the last month, the trustees have been actively engaged in obtaining means to sustain the concern, and over a quarter of a million were raised, contingent on the solvency of the Company, but heavy losses not originally known, prevented the success of the undertaking.—*Jour. of Com.*

THE SOUTH SHOAL.—The Nantucket Inquirer says that since the South Shoal Light vessel parted from her moorings, lumber, spars, a compass, &c., have washed ashore at the south side of that island, leaving the fearful but almost irresistible impression that some vessel has been stranded on the South Shoal during the boisterous weather of the last fortnight. It is very important that this dangerous shoal should be supplied as soon as possible with another boat.

AMUSING AND INSTRUCTIVE.
PRESIDENT HITCHCOCK'S
History of a Zoological Temperance Convention held in Central Africa,
CONTAINING THIRTY ILLUSTRATIONS.

READ the following notice from a distinguished Clergyman:—

"We are not accustomed to laugh outright, or be convulsed with laughter, yet we have never found it more difficult to restrain our risibilities than while perusing this most ingenious satire; and yet with all its comical, diverting, and laughable scenes, the most solemn, important and instructive lessons are couched in every page.—Youth should read it—parents, teachers, preachers everybody."

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his

PATENT SELF ACTING
TABLE LEAF SUPPORT,

would ask the attention of Cabinet Makers and others interested to this very desirable Improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for the purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.

Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information, as to terms, prices, &c., or Circulars and description, will be promptly attended to.

One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 20 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.
PATENTED NOVEMBER 21ST, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to perfect the rotary planer.

My machine will plane very much *faster* and better than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.

My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon any quality of clapboards, in a very superior manner, without *tearing the thin edge*.

Applications for rights and machines, or for further particulars, can be made to the Patentee,

Extensively used, tested and approved in New England, Canada, and the British Provinces for a period of THIRTY YEARS by *Eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men*,—and, in fact by all classes in the community. See Pamphlets and wrappers containing Certificates, among which are those of Rev. Dr. LYMAN BEECHER, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. LEONARD WOODS, Abbott Prof. of Theology in Andover Theological Seminary, Mass.—Hon. DANIEL P. THOMPSON, Secretary of State of Vermont.—N. F. WILLIAMS, Esq., formerly Collector of the Port of Baltimore, Md.—Rev. JOSIAH LEECH, Philadelphia,—and many others.

HOW EXPRESSED BY PERSONS.—JOHN A. BERRY, M. D., Saco, Me., says, "During a practice of twenty years, I have seen used all the popular remedies for Coughs, and am well satisfied that your VEGETABLE PULMONARY BALSAM is best, and I hope will be better known and more generally used."

☞ *Beware of Counterfeits and Imitations!!*

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unremitting attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1858," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE or Flooding; PAINFUL SUPPRESSION, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE HUSBANDS.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in the most forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to suggest, to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual avocations*. . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

A DOCTOR OF HUMBUG.—The Newburyport Herald, in its Police Court Report, informs us that a case was tried which afforded much amusement to the large crowd which had assembled in the court room. A man calling himself Gen. Abraham Sullivan made a complaint charging John McMasters with larceny of sundry articles of clothing from his trunk. The evidence of the Gen. was amusing. He testified that he was a Doctor, that he should be one hundred years old next 4th of July—that he came from California last spring, had been there five times in the past 22 years, prior to that time spent 48 years among the Indians. Was born in Lisle, France, don't know when.

It appeared that the Doctor was in practice in the city, and according to his agent's statement, was taking from 40 to 50 dollars a day. His card announces him as "Gen. Abraham Sulivan, Doctor of the Lord, who can cure all diseases if patients will do three things, viz.: Love and obey their Parents; believe in the spirit of God, and have their hearts clean in the sight of God and man. He does not cure diseases himself, but simply administers the medicine and the Lord cures."

McMasters according to the evidence, was in his employ, and by the means of false keys opened the trunk and took therefrom the articles. From the doctor's testimony it appeared that the citizens are more fond of humbug and imposition than we could believe them to be, and that there is enough of ignorance and superstition among us, to maintain one of the grossest humbugs that could be conceived. The evidence of the larceny was so mixed up with the facts concerning the doctor's course, that the counsel for government merely asked for a conviction upon one of the charges, that of larceny of the handkerchief, which charge was fully sustained. A fine of $1 and costs was imposed.

THE PERUVIAN "LIBERATOR."—General Castilla, the chief who recently overthrew the Peruvian government and forced President Echinique to quit the country, and has himself assumed the reins of State, seems likely to create a revolution in the manners, customs and condition of the people, as well as in the administration of its laws. A correspondent of the Journal of Commerce says that one of his first decrees released the native Indians from contributing to the support of the government; another struck off from the army and navy lists about six hundred officers; and the last and most important of all, emancipated all the slaves—providing that the owners should receive payment therefor in scrip. The payment clause, however, was practically inoperative, for as late as the 25th of January, no documents of the kind had been given; the blacks were abandoning the plantations and pouring into Lima; domestic servants left the houses of their masters and paraded the streets, insulting the whites, and all was disorder. The correspondent of the Journal of Commerce, speaking of the effects of this decree, says:

"All of the planters are ruined. The losses of some approach $500,000, besides the future products of their plantations. Many families in Lima that were impoverished by former wars, and were living by the labor of a few slaves that they retained, whom they permitted to work on their own account, by paying their masters a small monthly stipend, are now reduced to absolute poverty. At the same time, eatables have risen 50 per cent., and some still more; white lump sugar is selling by retail at 16 cents, and other products of the country in proportion.

Had the manumission of the slaves been gradual, say 10 per cent. annually, and funds been ready to pay for them, it is not probable that any objection would have been made to the manumission, as they could have provided the plantations with other laborers in the mean time, and the prices of products would not have risen. As it is, two or three millions more will be expended by the population of Lima alone, yearly, for the necessaries of life. If the government does not take some measures to ameliorate the condition of planters and consumers, it is much to be feared that we shall not enjoy peace for a great length of time."

UNGALLANT REMARK.—Miss L. E. Landon, says the London Athenæum, appeared one evening at the opera wearing a dark velvet Scotch cap and feather. Look! cried Count Orsay, in a gay, eager voice raising his *lorgnette*, Look! that is Miss Landon, with her inkstand on her head, and her pen in it!

WORKMEN WANTED.—The Council Bluffs (Mo.) Bugle says that there is a great want of mechanics at Council Bluffs. Wagon-makers and millers, particularly, are very scarce, and mechanics of any kind may acquire there, by strict attention to their business, honor, respectability and wealth.

At the battle of Quatre Bras, on the 15th of June, 1815, the British lost 316 killed, and 2157 wounded. At Waterloo on the 19th, 1771 killed, 5892 wounded.

Morning Chronicle.

SATURDAY, MARCH 3, 1855.

HOUSTON ON SLAVERY.

Gen. Sam Houston of Texas, delivered a discourse on Slavery at the Tremont Temple, in Boston, Feb. 22. It was a defence of slavery on the ground of expediency or necessity, and not of right.

It is about as good a defence as can be made, of a bad concern. Here are two or three of the best paragraphs.

"He had come into life and found slavery. They had used but not abused the institution. If slavery did not exist at the South, the spindles of the mills at the North would stop. The emancipation of the slave would not benefit him. In Jamaica, since his freedom, he had sadly deteriorated, and was unprofitable to himself and to others. If slavery was abolished, the slaves would not support themselves. They are listless, inert, lazy. The slave might be called free, but he would in reality be sad and miserable. Now, if he is sick his sorrows are soothed; if free, he would be cast into the street. It was the master's aim to improve his moral and physical nature. It was not the love of slavery but a necessity that compelled its existence at the South. The South could not liberate its slaves. The slave cannot rise to the level of the white, nor the white sink to the level of the black man.

* * * * *

He said he was led to the reflection that in the adaptation of labor to climate, it would be impossible to supply one sixth of the demand at the South. The white man could never supply it. The negro could only withstand the exposure and toils of a southern climate. There was no doubt but the negro originated in a Southern climate, and was best adapted to the demands of the same. To refute the assertion that the slaves are an unhappy class, it was stated that they were never known to commit suicide.

He congratulated the North on its enterprise, which had made the States like gridirons, and upon its conveniences and intelligence. But, said he, would you have been able to acomplish all this without foreign labor? [Applause.] Who would have dug your canals and embanked your railroads? Never could they have been done without their aid. At the South, either foreign labor or negroes must be had. It was a necessity, convenience, profit, that produced slavery. When the South can employ foreign labor, then she may think of doing away with slavery. Mexican liberty was much talked of, but not a man lived in that country who did not mean to support the Pope and the Catholic religion; and that it was which formerly produced such a hubbub in Texas."

There is nothing new or peculiarly forcible in these statements or arguments. We have no doubt the labor of black men is necessary at the South, and this consideration is a sufficient answer to the old nonsense which we used to hear about their rushing to the North if they were freed.

But let no one be terrified; they are not likely to be freed simultaneously to-morrow. When the day comes, we will try to face it as well as we can.

BOUNTY LAND BILL.—In the House of Representatives, on Wednesday night, the following proceedings took place:—

The House proceeded to the consideration of the Old Soldiers Bounty Land bill.

Mr. Benton of Missouri, strongly condemned the effort to force through under a gag, a measure of such importance, involving more than two hundred million acres of land.

Mr. Orr of South Carolina, regarded the bill as extremely defective and conglomerate. Speculators would realize one hundred and fifty-even millions of dollars, and old soldiers only thirty millions.

Ineffectual efforts were made, first to commit the bill to a Committee of the Whole on the State of the Union, and next to the Committee on Public Lands.

The bill, as amended, provides lands for persons of all grades, by land and sea, including Indians, wagoners and flotilla men, who have served in the wars since 1790—160 acres in all to each person who has served not less than fourteen days, except actually in battle for a shorter period. The widows or minor children to receive the benefit in case of the death of the person so entitled. The widows of officers and the soldiers of the revolutionary war to be entitled to the benefit of this act, as likewise the volunteers at the invasion of Plattsburg in September, 1814; the volunteers at the attack of Lewiston, Delaware, in the years 1812 and 1815, and the chaplains who served in the several wars. The bill was passed by a vote of 135 against 39.

At twenty minutes past twelve the House adjourned.

At the trial of a liquor case at East Cambridge, an Irishman was indicted for selling liquor, and would have been convicted had not one of the witnesses, and the most important one, been accused of being an atheist. Testimony was introduced to prove that he had frequently declared he did not believe there was a God or any future punishment. Judge Bishop, who was on the bench, refused to permit him to take an oath or testify in the case.

It is certainly not proper for an atheist to swear by a God in whose existence he does not believe. But it would as certainly be right to let him affirm, (under the pains and penalties of perjury,) all he knew of the case, and then let the jury weigh his evidence.

It is high time that the laws about oaths were understood and amended. They are now a poor bundle of trash.

In Bristol, Me., at her residence, Feb. 14, Mrs. Rosalind, wife of Wm. R. Dempster, the distinguished composer and vocalist.

For the Chronicle.

The Federal Government being constitutionally limited to certain general objects, cannot *justly* interfere with the sovereignty of the States in their legitimate spheres of reserved rights, their domestic institutions, their laws of property, real or personal. Now, the institution of slavery is a reserved right, which the Southern States claim as their own exclusively. Well, we admit all this to be truth; and we say to them, manage their black race as you please, you have the power; treat them as men or chattels, as you will; for they are such as you have made them; you will not suffer them to be instructed, even, by our teachers, whom you maltreat and imprison, for attempting this work of benevolence and charity; but nevertheless, you are deeply responsible, for this atrocious fraud and violence upon the *inherent* rights of men, if they be men, not we. When you call upon the National Government to open the door of *its exclusive* territory, for the admission of black slavery, claiming an equal right for it, as for freedom; when you annul a law made by the National Government, conformably to the constitution, in defence of its own *vital* principles; when you make a fugitive slave law, sweeping over the free States; (free States did we say? No, they are no longer free; for you bind the white man by the same power, the same fetters, as the black;) you exercise upon the free man the same unjust violence, by which the black man becomes a slave)—their liberty expires.

Douglas, the traitor, in a late debate, when brought to the point of division, between the National and State sovereignties, adroitly evades the issue, and says, *merely*, the delegated and nondelegated powers are clearly marked. Truly they are distinctly marked,—*little* giant. But it might have been asked, Is not the right to legislate over the slave institution a reserved power, and has not the United States exercised unconstitutional jurisdiction over this? That is the question, sir, stick to it, don't dodge. Illustrious John Adams—fit compeer of Washington!—thou art at last justified; thine object, to shield infant liberty from the invasion of foreigners, *and especially* Roman Catholics, by the alien and sedition laws, was pure and wise and noble. And although thy federalism might have been disputed; yet it was nothing like the federalism of 1855; for that has no apology, either in motive or object. It is a complete perversion of the true spirit of the constitution,—an entire annulment of its most sacred laws.

PUBLIUS.

☞ The building which contains the water tank for supplying the engines, and is connected with the depot of the B. & M. R. R. at Exeter, was consumed by fire on Friday morning, between three and four o'clock. There was but little wind at the time, and the fire was confined to this building alone. It is supposed to have caught from a funnel. The "efficiency" of the Exeter fire department was ably exhibited at the conflagration. We think we are safe in warranting that two of the best machines here, could be forced, in a case of great emergency, to throw as high as the top of the second story windows of the Squamscot House.

R.

☞ A mass meeting of the friends of the American party was held in Exeter on Thursday, commencing at 2 o'clock, P. M., and extending through the evening. It was addressed by Mr. George N. Stickney of Meredith, and Mr. Gerry of the Mass. House of Representatives, and a Mr. Prince from Boston, and others. The meeting was not very enthusiastic, and, on the whole, was a rather slim affair.

R.

THE BREWSTER MURDER.—We are informed that Clifford Miller, of Berwick, has been arrested on charge of being accessory with Smith to the murder of Charles F. Brewster, last year; and is to be examined at So. Berwick on Wednesday next.

FASHIONABLE HATS.—We would call the attention of our readers to the advertisement of Mr. Wingate, Boston, in to-day's paper, and take pleasure in recommending those visiting Boston to call on him. He offers better hats for the same money, than can be purchased elsewhere. See advertisement.

CATHOLIC CATECHISM.—We have received a copy of this little manual from the publisher of the Pilot, intended probably to convert us from our heresies. Well, that is right: if any man believes a doctrine, by all means let him do what he can to advance it.

Eighty thousand dollars of the property destroyed in the late disastrous fire in Waldoboro', Me., was under insurance in foreign companies, which have turned out good for nothing.

THE SCATTERING OF PARTIES.—A distinguished politician, who now fills a large space in the public eye, and who is now neither a Whig nor a Democrat, is reported to have remarked in a recent conversation in this city, that the Whig party was now a flock of sheep without a shepherd, while the Democratic party was a shepherd without sheep.—*Trav.*

Shrewd and truthful man, that—a "second Daniel come to judgment."—*Boston Bee.*

LOCAL.

ELECTION SPEECHES.—It is evident to all newspaper readers, that at the coming election the contest will be between the American Party, and their opponents who labor under the direct patronage of the administration.—Both parties have able men in the field, laboring with unusual zeal in the advocacy of their particular views.

On Friday evening the citizens were favored with the opportunity of hearing a discussion of both sides of the question. If we might judge of public opinion by the audiences who gathered in the respective halls, we should say that the American doctrines were decidedly in the ascendant, and the opposition doomed to utter defeat.

Hon. Walter Harriman, State Treasurer, addressed the anti-American party in the Cemeneum. We shall not give an abstract of the speeches. The whole burden of his remarks was directed against the "midnight conspirators" from whose "foul den" he begged all true lovers of their country to come; and was particularly friendly to such honest whigs and free soilers as had not yet gone in. His audience numbered about 250 persons, among them three ladies.

Hon. Daniel Warren, of Mass. at the Temple, addressed an audience of about 700 persons, one fourth of whom were ladies. At the time we were in the hall, he was giving rather a dry history of the aggressive progress of the Romish Church. We were informed that other parts of his lecture was received with great enthusiasm.

Both gentlemen were good orators, and entered into their work like old laborers in their respective vineyards.

SUNDAY EVENING CONCERT.—The second of the Grand Union Concerts, in aid of the Howard Benevolent Society, takes place to morrow evening. A change of Programme will be made from the last. This is a pleasant way of combining charity with personal gratification.

PROF. HARRINGTON.—The entertainments at the Temple, on Wednesday and Thursday evenings, were uncommonly good. As a juggler, Prof. Harrington is unsurpassed; and as a ventriloquist he excels any we ever before heard. His imitation of a chicken would have deceived the most knowing old hen; and his imitation of an humble bee was perfect.

SOUTH BERWICK AND GREAT FALLS BRANCH RAILROAD.—This new branch is now in full operation, for the conveyance of possengers and freight—running their own trains from Brock's Crossing to South Milton. Moses Harvey is conductor, and gives good satisfaction of course. A new locomotive of great power and beauty, called the "Carroll," after the County of that name, has just been put on the road. We are informed that the trains will run from the Eastern railroad station in this city, ere long.

☞ If any one doubts the value of the Chronicle as an advertising medium let him read the card in another column headed Lamp Excitement.

LAUNCH.—The ship Cathedral, built for Enoch Train & Co's Boston and Liverpool line of packets, under the superintendance of Capt. Daniel Marcy, will be launched at 12 o'clock on Saturday, from Badger's ship yard. She is about 1700 tons register and is a specimen of marine architecture worthy of Portsmouth.

SHOPBREAKING.—The Oyster saloon of Mr Richard Hilton, on Islington street, was entered on Wednesday night, by a back window, and about $12 in change taken. Suspicion rested on a young man named John H. Knox, who was about the premises the evening before, and who left town the next morning.—Knox was traced to Beverly, Mass. where he was arrested on Friday. He has been brought back to this city, and will be examined this morning at 9 o'clock, before Police Justice Parker.

APPOINTMENT.—Hon. Rufus Dow of South Hampton, the former Warden of the State Prison, has been appointed Sheriff of this County by the Governor and Council.

THE SENATE.—There are seven vacancies still existing in the new Senate—whose constitutional existence commences on the 4th of March, viz., one from Pennsylvania, one from Indiana, one from California, one from Missouri, two from New Hampshire, and one from Alabama.

Portsmouth, March 1, 1855.

The excellent quality of the bituminous coal which finds its outlet at Baltimore, is now beyond controversy. It is pronounced by United States commissioners appointed for the purpose of testing it, the best in the world for generating steam. The Cunard steamers give it preference over all others on their return trips, and their engineers declare it superior to the best English coal.

"Old Folks" Choir.

Agreeably to adjournment, the Old Folks Choir will meet at Exchange Hall on Wednesday Evening, March 7, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, preparatory to the third Concert, to be given during the fourth week of March proximo—in aid of the Howard Benevolent Society. All who took part in the other Concerts, are invited to attend—and any who may not do so, are requested to leave the music books with either of the Committee of Arrangements, (Nath'l T. Moulton, N. L. Folsom, Thos. Norton, John Christie, A. Perry,) immediately.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Bile—often less than one dose it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.
Agents in Portsmouth, W. R. PRESTON, J. H. THACHER, and D. KIMBALL, and sold by the Druggists throughout the United States. 2m f1 d&w

CONGRESS.

THURSDAY, March 1.

SENATE. — Sundry communications from heads of departments, in pursuance to previous inquiries from the Senate, were presented.

Mr. Cass of Michigan moved to take up the resolutions appended to the report of the Committee on Foreign Relations. Objections were made, but on calling the yeas and nays the Senate decided to take them up, and they were passed without amendment. The resolutions relate to religious freedom for our citizens in foreign lands, and have been already published.

The Civil and Diplomatic bill was taken up.

Mr. Brodhead of Pennsylvania—I am opposed to this incorporation of the tariff, in view of coming events and the peculiar character of the next House of Representatives. Such a measure will come back to plague its inventors before a year from this time. The Senator from Virginia says the plethora of the public treasury demands this measure. The falling off this year of $6,000,000 from the public lands; the Bounty Land bill just in from the House; the Texas Creditors' bill, just signed, and other measures, will soon reduce the plethora of the treasury. I hope we will go on and pass the Appropriation bill, erasing that incorporated interference with the industrial interests of the country, and depart from here in peace.

Mr. Badger of North Carolina offered an amendment to the tariff section of the Civil and Diplomatic bill, to refund the duties on railroad iron which had been laid down during eighteen months past, and which may be laid down during eighteen months to come, and providing that dyestuffs and unmanufactured wools valued above 50 cents, and below 15 cents per lb., be admitted free of duty.

Mr. Cooper of Pennsylvania—This tariff provision requires great deliberation. If the tariff incorporation prevails, I shall move as amendment to the bill the French Spoliation bill, and somebody else wil move to tack on the River and Harbor bill, and another to incorporate Miss Dix's bill for the insane. If you establish this precedent, you will find every imaginable bill will be tumbled incongruously upon the Senate at the close of the session, adding, if possible, to the confusion which generally prevails at that period. I would as willingly see the duties repealed as witness the enactment of such sections as those relating to the tariff in this bill.

Messrs. Pearce of Maryland and Bayard of Deleware thought it would be better to defeat the appropriation bill than to pass it in its present form.

Mr. Benjamin of Louisiana objected to the bill, alleging that in making a scale for reduction an undue advantage had been given to manufacturers.

Mr. Hunter of Virginia said that, as this measure had been carried in the House by votes from all sections of the country, the tariff modification, though not perfect, was as good as could be expected.

Mr. James of Rhode Island—[to Mr. Hunter] remarked that many members of the House voted for the bill with the understanding that it would not be amended by the Senate.

The debate continued with much interest till a late hour. The discussion was desultory, and embraced the topics of free trade, protection, slavery and Know Nothingism. Mr. Wilson of Massachusetts spoke against protection, and, during the course of the evening presented a petition from Wm. Blaisdell and others, praying for a repeal of the Naturalization laws, and another from Ansel Larkin and others, of Worcester, for a repeal of the Fugitive Slave law.

HOUSE.—An act was passed amendatory to the act for carrying into effect the Reciprocity treaty between the United States and Great Britain.

The House went into Committee of the Whole on the Senate amendment to the the Army Appropriation bill.

The House continued the consideration of the Army Appropriation bill during the evening session.

[Both Houses are in session when we close our report.]

Daniel Fisher, of Edgartown, is considered the largest oil dealer in the world, with exception of one establishment in London. His opinion is of more influence in the oil market than that of any other man, and as an evidence of the extent of business, it is stated that he has had 28,000 barrels of oil in his possession at one time.

Coal, foreign and domestic, is selling at reduced rates in New York, and prices are still tending downward.

THE COURT OF DEATH.

King Death held a court unto which did resort,
All diseases that ravage below,
In order that he acquainted might be
Why business of late had been 'slow.'
There was Gout with his crutch and his terrible touch,
Sick headache and Jaundice the yellow,
With Dyspepsia who'd laid many folks 'neath the spade
Of the sexton, that grave digging fellow.
But 'twere vain to describe each one of the tribe
That before Old Death made their appearance,
Said he, how is this? there is something amiss,
You've not made of late, much of a clearance;
Just tell me, I pray, the cause of delay,
You diseases are getting quite lazy,
Do speak up friend Gout, and tell me what you're about,
Or slack business will drive me quite crazy!
Said Gout, "the fact's this—do not take it amiss,
For myself and my friends no one cares;
For our business below has received a sad blow,
From a cursed *Pill Cathartic* called *Ayer's!*
That Pill when folks try, makes each one of us fly,
For it drives us clean out of the system,
Thus it saves people's breath, so you see my friend Death,
That's the way that of late you have missed 'em."

The Great Specific of the Age.
OXYGENATED BITTERS!
THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED
For the cure of
DYSPEPSIA,
IN ALL ITS VARIOUS FORMS,

AS well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. I. H. Arnold, formerly Governor of Rhode Island, now member of Congress.
Hon. J. F. Simmons, U. S. Senator from R. I
Hon. Samuel S. Phelps, U. S. Senator from Vt.
Hon. Wm. Upham, U. S. Senator from Vt.

POLITICAL.—It is stated that several of the more prominent democratic Southern Senators and members of the House have decided (it is said) upon a plan of operation, essentially sectional in its purposes, for holding a political convention in July, and have selected Virginia as the State to hold it in. The following is said to be the programme of this movement:

"An address, already written, to the South, will be issued in the early part of March. It is determined that no Southerner shall be presented for the office of President or Vice President, and that the convention will insist upon Daniel S. Dickinson of New York, for the first of these offices; and in the bestowal of their suffrages for the Vice Presidency, they stand ready to support the nominee of the Baltimore Convention, providing that he is not a Southern man, and is known to be a friend of the South and a supporter of Nebraska."

Patents.

AMERICAN AND FOREIGN OFFICE.
Agency for business with US Patent Office, Washington,
76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, and all the personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need mending, like Quills, and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S
Celebrated Catholicon,
FOR THE
RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS OR FALL or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRAGE OF THE WOMB; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the efficacy of this medicine in removing the disease, together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the disease for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAIT, 38 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of Marchisi's Uterine Catholicon, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits*. . . . . It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at the Mill street.

FOSTER'S PATENT
Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

JUVENILE CRIME.

The Newburyport Herald gives the following annual statistics of the Massachusetts State Reform School, at Westborough.

During the last year there have been 774 inmates, and 559 of them remained at the close of November; one had died, and one escaped; the others had been discharged or apprenticed.

Of the total commitments from the opening, 1329, but little more than half, 758, are of American parentage; while Ireland has furnished 411. Other causes than parentage, however, have had to do with giving character to these boys, of which orphanage, rum and idleness, are the principal. 371 of them were without mothers, and 120 without either parent; 493 had fathers without occupation and 400 that were intemperate. 1,182, or more than six-sevenths of all the boys, had been idle themselves; 1,014 were Sabbath-breakers; 721 used tobacco; 650 used strong drinks; and 499 had been previously arrested.

When we consider that this is but one of the institutions to which bad boys are committed, what a state of juvenile depravity does it exhibit? Most of these, taken in tender years, and receiving moral culture, and industrial as well as intellectual education, the better portion being separated from the viler, many become useful citizens; while without all restraint are many more who will in the end suffer severer dicipline and lead more miserable lives.

☞ Efforts are made in Massachusetts, to break up the system of militia encampments. A brigade or division now camps out once a year, for three successive days. Hon. Chas. F. Adams said before a committee:

He spoke from experience and close observation at two encampments. If it was asked the soldiers what they go to these three days' encampments for, the answer would not be to become good soldiers, but to have a good time. They pitch their tents, spread their tables, and are then ready to see their friends. He did not mean to say that the persons engaged in these encampments were themselves guilty of any great excess; but he did mean to say, that a considerable portion of them were for the whole three days more or less under the influence of artificial stimulus, and those who were invited were much more so.—He asked if the Commonwealth would support a system which leads to such results.

Again, he said the men inside are angels of light, compared to those who gather on the outside. The assembling of an encampment congregates the villains and scoundrels for a circuit of thirty or fifty miles, who come together to have a good time and plunder their neighbors. The encampments, he said were a curse to the towns in which they were located.

THE SPOLIATION VETO.—The determination of the President to refuse payment of the claims recognized by France, and adjudicated before an American Commission, is before the public. He repudiated them, and for the following among other reasons:—

1. The claims have not been paid before.

2. To assert that they were ever due is therefore an imputation upon the honor of the country.

3. This bill would disgrace the country by proposing to compound for less than the amount alleged to be due.

4. No President has ever recommended their payment.

5. The Government never assumed their payment.

Suppose this rule (says the Albany Journal) applied to a precisely similar case: John Cutfit, tailor, presents his compliments to Mr. Jeremy Diddler, and begs that he will remember the little bill he owes him, which has now been running some time. He thinks Mr. D. might at least let him have fifty cents on a dollar.

To which Mr. Jeremy Diddler responds that he has concluded, on the whole, not to pay his debt to Mr. C. Because:

1st. He has not paid it before.

2d. To assert that it is due, is therefore, an imputation on his (Mr. Diddler's) honor.

3d. Neither can he (Mr. D.) pay fifty cents on the dollar, because it would disgrace him to compound for less than the amount alleged to be due.

4th. Mr. D. has carefully examined the manuscripts of his late lamented grandfather, and great grandfather, and finds that they nowhere recommend the payment of his tailor's bill. And

5th. He never intended to pay it.

A RING IN AN UNUSUAL PLACE.—Capt. Lavender, of the schooner Elizabeth Ann, of Provincetown, while fishing last summer on the Grand Bank of Newfoundland, took from the stomach of a codfish a lady's plain gold finger ring, perfectly bright and smooth, and which had not apparently been there long.

MONDAY, MARCH 5, 1855.

DEMOCRATIC KNOW NOTHINGS.

The Daily Patriot is greatly devoted, at the present time, to opposing the Know Nothings, to whom it applies sundry unsavory epithets. It says 160 democrats have withdrawn from the K. N.'s in Concord, and then gives the names of 53.

The Old Guard gives the names of three more, to *complete* the list, viz., Gov. Baker; Gideon Webster, warden of State prison; and Patiah Brown, Reg. of Deeds for Merrimack Co.: and says—

Omission No. 1, is of the name of Nathaniel B. Baker, present Governor of New Hampshire, and the (——) candidate for re-election. This gentleman was one of the very first to introduce Know Nothingism into the State. Soon after his nomination, last June, he commenced operations in that line, was instrumental in establishing several Councils, and continued to act a prominent part among the "midnight assassins," whom he had zealously helped to organize, for six months. Finding out that "the thing," which he had been petting, could not, and would not, be controlled by him and his understrappers, he withdrew with the melancholy reflection that Know Nothingism was not what it was cracked up to be, by Caleb Cushing and other big bugs at Washington, as a most desirable auxiliary to (——,) whereby he might carry the State for himself and Frank Pierce's Administration.

A letter from Exeter, dated Feb. 26, is published in the Patriot of March 1, and says:

On the 17th inst., the Rev. R. O. Williams was turned out of the K. N. order in this town, for reasons following: Because he attended a regular Democratic Convention at Raymond; for offering resolutions in Council, showing that the honest dictates of a man's conscience cannot be controlled by any oath or obligation of the order; for acting in a christian spirit by warning men to keep out of this most unchristian combination; and worst of all, for pointing out, in the Daily Patriot, to his friends, articles showing up and telling the truth about this unholy conclave. Mr. Williams is wise, fearless in opinion, and could not be moulded to their plans; therefore he came under the axe: and this is the way the know nothings act in Exeter.

But the order tetters to its fall, and they know it. That honest, intelligent men have been inveigled into it, is not strange; but after a glance at the leaders, and a thought as to their motives, it is indeed wonderful that they continue therein.

These two extracts agree in proving one thing, viz., that many of the leading members of the Democratic party in this State, joined the secret order of the Know Nothings, in the hope thereby to preserve themselves in power, and especially to ward off defeat in the coming election.

Now, to Uncle Toby, secret orders have no charms; political parties have no bonds that can hold him. But he would like to inquire, whether a man can at the same time be a K. N. and a Democrat? or a K. N. and a Whig? and if not, what a repentant K. N. has to do, when he "comes out of the foul den," to make his whiggery or democracy smell as sweet as ever?

He would also like to know, how such a set of simpletons as the K. N.'s are supposed to be, ever seduced into their den so many democrats of the first water, as the papers tell us have come out of it.

LIQUOR SALES IN NEW BEDFORD.—The Standard says "We learn that the sales of spirituous liquors, at the City Liquor Store, average about $2,000 per month, or $6,000 per quarter." There must be a vast amount of sickness in the community, or the mechanic arts are flourishing tremendously.—*Boston Chronicle.*

Here is the same old ghost come up again, which we have laid so often, by a very little cyphering. Let us see: New Bedford, in 1850, contained 16,448 inhabitants. We will call it 16,000 now. $2,000 per month is exactly 12 1-2 cts. per head. Ninepence a month for every person, in medical and artistic use of liquor, not to mention the false pretences! Too much, we think, and wish every body else would think so too. But after all, it is a small quantity, as compared with the sales where a free trade exists, as in some other cities we wot of.

MR. METCALF.—Sundry papers have *accused* Mr. Metcalf, K. N. candidate for Governor, with being a U. S. Commissioner, under the fugitive slave act. Mr. Burke, in reply to this, says, in the Old Guard:

We have applied to Mr. Metcalf himself, to learn the truth of the charge, and find it, as we expected, to be utterly without foundation. A commission was sent to Mr. Metcalf, without his solicitation or knowledge, and he refused to accept, or to qualify under it. Therefore he is not, and has never been, a Commissioner under the Fugitive Slave Act.

The Canal appointments will show changes in some of the principal offices. The lines are drawn—for or against a Northern Anti-Slavery party.—*Cor. of the Cour. & Enquirer.*

Right Sir!—drawn where they should have been drawn, years ago. Let no man undertake to remove these new landmarks. They are driven down immovably deep. The Party of Freedom is organized. It marches henceforth upon Slavery, till it retires from Federal politics forever, and consents to remain a State Institution, and local economical policy.—*Buffalo Democracy.*

REPORTS AGAINST THE FRENCH CLAIMS. The Boston Post, which a few weeks ago advocated the payment of these claims, has a short article on Counter Reports, from which we make these extracts.

The first report in either house of congress upon the French claims we are now considering, was made by Mr. Giles in 1802, and does not express any opinion as to their justice, but is devoted to a statement of what the committee supposed to be facts in the case.

The report of Mr. Russell, in 1822, concludes as follows:—"Upon mature deliberation, therefore, on the whole subject submitted to them, your committee are of the opinion that it is inexpedient to grant the prayer of the petitioners;" and they recommend a resolution, that the claims "ought not to be allowed."

The report made by Mr. Forsyth in 1824, from the committee on foreign affairs of the house, concludes an argument against these claims as follows:

"In short, to justify their claims upon the United States, the petitioners assume that France was *right*, and their own government *wrong*; that France was prepared to make a just reparation for the outrages committed under her own laws, until released from her obligations by the *United States, who were faithless to their trust*, in the first instance, and have been regardless of the obligations of justice ever since; assumptions not consistent with truth, nor creditable to the *patriotism* of those who make them. The committee recommend to the house to adopt the following resolution:

Resolved, That the petitions of the several persons who ask indemnity for spoliations committed by French cruisers on their property, between the years 1793 and 1800, be rejected."

The Post also publishes a long communication, approving the late Veto, and containing the following paragraph:

"The fact stands patent and glaring on every page that our merchants brought the French war on our commerce by an alliance, heart and soul, with England, while leading the coalition of all Europe to destroy France. This alliance was eagerly sought by our merchants through their *federal* representatives from all the commercial cities, and when obtained by the secret agency of Gouverneur Morris, the enemy of the French republic at the English court, and embodied in a treaty framed by Lord Grenville with Chief Justice Jay, a devotee to British institutions, and under the instructions of Timothy Pickering, secretary of state, notorious for his hostility to the *republicans* of the United States,—who can be surprised that France should *make war* upon the interests it was meant to subserve, especially as the treaty made manifest the insidious design of starving France and her colonies by cutting off American provisions, when the revolution had created a dearth in all the French dominions."

In this paragraph the old cloven foot of party and national prejudice sticks out beyond the cloak of pretended justice which this veto advocate puts on.

The attentive and intelligent reader may know, that in those old days, there was a strong feeling in favor of the French Republic, and as strong a feeling against it, in this country.

We suppose it betrays no secret, to say that the Republican party, in this country, were so called, partly in consequence of their sympathy with the French Republic,—or to add that the claims in question were less likely to be justly and favorably viewed by Congress, while these feelings were fresh and strong, than after they had mostly faded out.

President Pierce was educated in these narrow prejudices,—and he has never outgrown them. They lie at the foundation of his Veto message, and prevent his seeing the claims in the light of *simple justice*.

His advocate, in the paragraph last quoted, goes back into the days of a bitter party warfare, now happily obsolete, and hides the light of justice under a bushel of party spirit.

The next Congress that looks at these claims, will pass them *in full*:—and the next President will sign the bill.

THE COURT OF CLAIMS.—The Pennsylvanian asserts that the President has determined to select the Judges for the new Court of Claims "solely with reference to character and capacity, and will be free from the prejudice of partisan politics." It adds that "the President is well aware that the Court would be a short lived one without the entire confidence of the whole country, and the conclusion is irresistible that he will pass over the list of applicants, and appoint gentlemen of national reputation for pre-eminent legal attainment and unswerving integrity of character." We trust this statement is well founded. The Washington correspondent of the Philadelphia North American says "it is believed that the President has resolved to appoint Hon. G. M. Dallas, of Pennsylvania, and Ex-Chancellor Walworth, of New York, Judges of the Court of Claims." These would be good appointments.

WASHINGTON, March 2.—It is rumored that Loren P. Waldo of Connecticut, Chancellor Walworth of New York, and Judge Sharkey of Mississippi, have been agreed upon for Judges of the Court of Claims, and Jeremiah Clemens of Alabama for Solicitor.

Judge Sharkey! Judge Sharkey? His name has a horrible sound, and our impressions about him are scarcely less horrible. A decision of his, some years since, in Mississippi, lingers about our memory on this wise:—A man, by will, freed his own slave children and slave wife, and gave them his property. Sharkey, as Judge, decided that *such a will proved the testator insane*, and thereupon he decreed the property to pass by descent to a collateral relative, and that the slave wife and children were his slaves!

This Judge Sharkey, out of all the men in the country, is chosen by the President to sit in a court of justice!

LOCAL.

SIGNS OF THE TIMES.—We understand that at our Custom House, on Saturday afternoon, a large number of Irishmen had their papers examined, preparatory to taking out certificates of Naturalization in the Court of Common Pleas, at Exeter, to day. The issue at our next election seems now to be whether Irishmen or Americans are to rule.

We also learn upon good authority that Mr Edward J. Laighton, of this city, on Saturday afternoon, purchased of Edwin N. Fuller, Esq. all his interest in the New Hampshire Gazette, and that he is to take possession of the establishment immediately after next issue. x.

☞ John H. Knox who was arrested at Beverly, Mass., for breaking into the store of Richard Hilton, was brought up before Justice Parker, on Saturday, and plead guilty. He was bound over for trial at the September Term of Court of Common Pleas, in the sum of $200. He is a mere boy, about sixteen years old; and lives with his parents at Great Falls, whence he came on the day of the theft. About $15 was taken as before stated, of which $8 was recovered.

COURT COMMON PLEAS—ROCK. CO.
EXETER, THURSDAY, March 1.

In case No. 134, Ellen J. Plummer and Sarah F. Plummer, v. Samuel Plummer, the pliffs. claim to recover of the dft. the value of a quantity of manure which they say was upon their land in Epping, at the time it was leased to dft.

By agreement of parties certain interrogations were propounded to the jury, and upon their finding the counsel are to argue the questions of law that arise therefrom. Marston & Bell for pliff.—Stickney & Tuck for dft.

No. 146, Jonathan Prescott and John H. Pike v. Dudley Norris, Jr. and Geo. R. Norris, is now on trial. This is an action to recover damages for an an alleged deceit and fraud in the sale of liquors and pork to pliff. by dft.

The dfts. moved for nonsuit on the following grounds, viz.:

1, The contract was entire, and 2, The liquors were sold in violation of law.

This motion the Court overruled, on the ground that a man shall not take advantage of his own wrong doings.

ORDERLY BOYS.—Dr. Gannett's lecture on Good Manners was well received by the Lyceum audience, mostly grown persons; and it may answer for the whole season, as an essay or an exhortation on that subject, for the class of people who heard it.

But there is another class, who do not often listen to a discourse of any sort, even when they go where one is delivered. We mean rowdyish boys, who ape the conduct of the lowest and most brutal men, not so much meaning to be bad, as trying to be big; exactly for the same reasons as some unwashed juveniles learn to drink and smoke—viz. to be men.

Now let them understand, if they can, that the good opinion of every man and woman whose opinion is worth any thing, is in favor of the orderly youth, who puts on no more noisy airs than nature and good life demand, while the needlessly rude and boisterous are likely to be despised as well as laughed at now, and to continue despicable as long as they cherish these foolish habits.

☞ The beautiful ship Cathedral was launched from the yard of Capt. Samuel Badger at Kittery Fore Side, on Saturday. The occasion was celebrated by a grand dinner at the Piscataqua House in this city.

☞ Mrs. E. A. Wentworth achieved brilliant success by her singing at the Mendelssohn Quintette Club's Concert, at Newburyport, on Friday evening. The Herald says her voice somewhat resembles Jenny Lind's. She was encored into repeating every piece assigned her on the programme.

ONE HUNDRED TO ONE!—There are about *six hundred* Protestant clergymen in this State, and only five or six Catholic priests; yet the "Hindoos" and their whig abolition allies are endeavoring to make the people believe that the Catholic religion is about to prevail here and that their religious rights are in danger! *Dover Gazette.*

We are of the people who don't believe a word of this terrible story. Our *civil* rights are endangered by the awful stretches and strides of the Federal power at Washington, in its fugitive, Nebraska, and officers' safety bills. And no good reason can be given, why 10 per cent. of all officers in the gift of the President should be bestowed on men not Americans, when as good or better can be found among our own people. By the way we have never been among the Hindoos, as the editor of the Dover Gazette seems to have been, and therefore don't know what they say.

UNCLE TOBY.

James Casey, an Irish laborer on the Hillsborough, Ohio, railroad, being jealous of his wife, shot himself through the heart.

Mike Walsh has determined to contest the right of Alderman Kelley to a seat in Congress from the fourth district in New York.

"Old Folks" Choir.

Agreeably to adjournment, the Old Folks Choir will meet at Exchange Hall on Wednesday Evening, March 7, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, preparatory to the third Concert, to be given during the fourth week of March proximo—in aid of the Howard Benevolent Society. All who took part in the other Concerts, are invited to attend—and any who may not do so, are requested to leave the music books with either of the Committee of Arrangements, (Nath'l T. Moulton, N. L. Folsom, Thos. Norton, John Christie, A. Perry,) immediately. Per order.

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one dose it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

Juvenile Singing School.

A. PEARSON will commence his Third Term for Instruction in Singing for LADS and MISSES,
On Saturday afternoon, March 10, at 2 o'clock,
At his Music Room, No. 4 Exchange Buildings.
Particular attention will be given to the Development and Cultivation of the Voice, and also to a systematic and thorough course of rudimental exercises. The same Book will be used as heretofore—to be obtained at the Room; price 35 cents.
Tuition for 24 Lessons, $1—payable in advance.

NOTICE TO CABINET MAKERS.

THE Subscriber, wishing to introduce into Portsmouth and vicinity, the use of his
PATENT SELF ACTING
TABLE LEAF SUPPORT,
would ask the attention of Cabinet Makers and others interested to this very desirable improvement in the mode of supporting Table Leaves. It is a substitute for the Fly Rail and Swivel now in use for that purpose,—it is as simple in its construction, as cheap, and much more convenient, requiring no stooping to raise or lower the Leaf.
Wishing to sell exclusive Rights to use them in that vicinity, any letters addressed to me desiring information as to terms, prices, &c., or Circulars and description, will be promptly attended to.
One or more persons could do a good business putting them on from house to house. To such they will be furnished at a discount from the retail price, which is 30 cents per Table. To those owning "Rights" they will be furnished at cost if desired. CHARLES PHELPS,
jl9eod&w* Salem, Mass.

IMPORTANT IMPROVEMENT
—IN—
Rotary Planing, Tonguing and Grooving Machines.
PATENTED NOVEMBER 21st, 1854.

THIS Improvement has been thoroughly tested and found to possess just what is necessary to *perfect* the rotary planer.
My machine will place very much *faster* and *better* than any other now in use. I would particularly call the attention of those in want of machines for *nice work*, or for planing very *thin, cross-grained* or *knotty* material, to these machines, as it is impossible for them to *tear* or *throw out loose knots*.
My Clapboard Machine will plane and joint as fast as the clapboards can be put into the machine, and perform the work without sorting them so as to plane with the grain, upon *any quality* of clapboards, in a very superior manner, without *tearing the thin edge*.
Applications for rights and machines, or for further particulars, can be made to the Patentee,
JAMES A. WOODBURY.

CONGRESS.

FRIDAY, March 2.

SENATE.—The Swamp Land bill was taken up and discussed by Messrs. Walker of Wisconsin, and Cooper of Pennsylvania, but by consent of Mr. Stuart, of Michigan, who was preparing to speak upon it, it was laid on the table.

The Senate concurred in the House amendment to the Bounty Land bill, and it passed.

Mr. Clayton of Delaware proposed that the claim of N. G. Benson be referred to the Secretary of State.

Mr. Mason of Virginia opposed the reference, urging that Benson had no claim against the Government, arising from his connection with the Lobos Islands.

The matter was laid on the table, and the Senate proceeded to the consideration of the District of Columbia Judiciary bill.

The bill was slightly amended and passed.

The bill to incorporate the National Washington Monument Society, was twice read, and referred to the Committee on the Judiciary.

A joint resolution was introduced, directing the President to advance to Clark Mills $5000 out of the $50,000 fund for the erection of an equestrian statue to Gen. Washington.

The report of the Committee of Conference on the Indian Appropriation bill amendments was concurred in.

The bill to carry into effect the Convention on the subject of Claims between the United States and Great Britain was passed.

20,000 copies of the report of the Regents of the Smithsonion Institution were ordered to be printed.

The Civil and Diplomatic bill was then taken up. The Senate refused to reconsider the vote whereby Mr. Clayton's amendment was defeated last night, yeas 25, nays 19.

Mr. Clayton's amendment was renewed, to strike out from the Appropriation bill all that relates to tariff amendments. Passed. 24 to 21.

The Senate then proceeded to examine the items of the Civil and Diplomatic bill, and to consider the amendments suggested in the Committee of the Whole, by Mr. Hunter of Virginia, chairman of the Committee on Finance, and others, until 3 1-2 o'clock, when a recess was taken until 6.

Evening Session.—Mr. Seward, of New York, called up the bill reported by the Committee on Foreign Relations, in relation to the payment to W. H. Deforrest, of New York, $2,000 for powder destroyed at the bombardment of Greytown, and offered a substitute directing the matter to be examined by the proper department and such amount paid as may be due. The bill, as amended, was passed.

Notice was received that the House refused to agree to the Senate's amendment to the Army bill, and a committee of conference on the part of that body. The Senate recedes from its amendment for a Military Academy.

The question of granting extra compensation to the late Ministers to Constantinople, Peru, and Brazil, was discussed, and $18,000 appropriated to the former, the same to the second, and $9000 to to the third. An amendment was offered, appropriating $29,000 for the publication of the account of the Exploring Expedition of 1842. The amendment was opposed by Messrs. Brodhead of Pennsylvania, and Jones of Tennessee.

An appropriation of $42,000 was made for fortifications on Staten Island.

HOUSE.—Mr. Olds of Ohio reported a bill establishing a large number of post routes, and, without reading, it was passed.

The consideration of the Senate's amendments to the Army Appropriation bill was resumed.

The House concurred in the Senate's amendments appropriating $30,000 for the purchase of camels for army use. Agreed to. The amendment adds four regiments for the defence of the frontiers, and authorizes the appointment of another Brigadier General, and appropriates $2,000,000 for carrying the provisions into effect.

The House took a recess till 7 o'clock.

Evening Session.—The House discussed and acted on amendments of no great importance to the Appropriation bill.

FEDERAL ASSUMPTIONS.

We have already published extracts from the bill which has passed the U. S. Senate, for the protection of United States officers' &c.—and have given our opinion of it, viz. that it is a direct and flagrant violation of State Rights and of personal liberty.

We are glad to see, by the following extract from the Boston Telegraph, that the bill was considerably amended before its passage; but it is still quite oppressive. It is even now a virtual overriding of the State Courts, so that the *assistants* of the officers in a slave hunt, can carry any action for damages which may come against them, into a Circuit Court of the U. S., where the Marshals, (as in Booth's case) can pack the jurors.

The bill, as originally reported, provided that "*any* suit commenced or pending in any *State court* against any officer of the United States, *or other person*, for or on account of any act done under any law of the United States, or *under color thereof*," &c., &c., may be removed to the Federal Courts. This, it will be seen, applies to criminal as well as to civil suits, and also to every citizen of the State, thus literally *abolishing* State courts as tribunals for the defence of personal rights. Mr. Chase showed the monstrous nature of this attack upon State rights, and compelled the majority to *amend* the bill by limiting it to *civil suits*, and to officers of the United States and persons acting *in aid* of such officers. The design of the bill, as will readily be seen, is to neutralize the operation of laws which the free States have passed and are about to pass (including Massachusetts) to protect personal liberty. It opened the whole question of slavery, and called out the entire anti-slavery strength of the Senate.

P. S.—It is said this bill lies on the table of the House, not yet taken up.

The Great Specific of the Age.

OXYGENATED BITTERS!

THE ONLY SURE AND SAFE REMEDY EVER DISCOVERED

For the cure of

DYSPEPSIA,

IN ALL ITS VARIOUS FORMS, as well as Liver Diseases, Fever and Ague, Bilious Complaints, Bronchitis, General Debility, and all diseases of a kindred nature.

Read the following testimony from Dr. Henry E. Morrell, a skillful physician of N. Y. city. He says:—"The most effectual medicine to improve the tone and energy of the stomach is that prepared by Dr. George B. Green, of Windsor, Vt., and called the Oxygenated Bitters."

The Oxygenated Bitters do not contain a particle of alcohol in their composition, and are, of necessity, highly concentrated, to prevent the injurious action of the temperature of different climates. Each bottle, when diluted according to the directions, makes nearly half a gallon of medicine, as pleasant to the taste as lemonade; and as to quantity, quite the CHEAPEST MEDICINE.

I have employed them in a multitude of cases, and have uniformly found that, when used according to the directions, they gradually, but surely, remove, one by one, the various distressing symptoms which cluster around the confirmed Dyspeptic, restore the stomach to its lost energies, and thus lead the patient back to the enjoyment of permanent health and strength.

It has also been used by the following persons, and received their unqualified approbation:—

Prof. A. A. Hayes, M. D., State Assayer, Boston
Prof. E. E. Phelps, M. D., of Therapeutics and Materia Medica, Dartmouth College.
Hon. Myron Lawrence, Ex-President of Massachusetts Senate.
Hon. L. H. Arnold, formerly Governor of Rhode Island, now member of Congress.

The Democratic Advocate, Lewiston Falls paper, agrees substantially with us (says the Saco Democrat,) that the law of this State prohibiting drinking shops, is the result of progress in the temperance cause among all parties and classes of citizens, and that the attempt to connect it with any one party as its exclusive friends will prove an injury to the cause of temperance. It says—

"The idolized Maine Law was not the result of individual effort; but it was the inevitable result of the progress of society. Its principles are as old as society itself; and its reduction to legislative enactment was not called for by any political exigency of the times, nor was it supposed that any political want on the part of our State or its people was going to receive the benefits of such legislation. It was at the time of its passage, as it ever should be, considered as a moral question in which the people and the whole people were equally interested.

Patents.

AMERICAN AND FOREIGN OFFICE.

Agency for business with the US Patent Office, Washington,

75 State st, oppo. Kilby st. Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of a rejection, to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of giving their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,

Commissioner of Patents."

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

DR. J. B. MARCHISI'S

Celebrated Catholicon,

FOR THE

RELIEF & CURE OF SUFFERING FEMALES.

It stands preeminent for its curative powers in all the diseases for which it is recommended, usually called

FEMALE COMPLAINTS.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUX ALBUS, or Whites; CHRONIC INFLAMMATION OF THE WOMB; INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED, AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils. (Cancer excepted) no matter how severe or of how long standing.

Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

A WORD TO THE LADIES.

Should any entertain doubts as to the efficacy of the UTERINE CATHOLICON, I would respectfully state that I have for many years past, as my friends can well attest, been troubled with the troublesome for which this medicine is recommended, in its worst forms, and that by its use I have been entirely cured, and thus induced to accept an agency, and offer it for the benefit of others.

MRS. S. GAY, 28 South street, Boston.

I feel it my duty to make known to the afflicted the virtues of MARCHISI'S UTERINE CATHOLICON, which has relieved me of Female Complaints of fifteen years' standing, and of so serious a nature, that latterly my physician suspected Cancer of the Womb. I suffered *extremely*, and at last was *entirely disabled from attending to my usual pursuits.*

It has given me more relief than any thing I have ever used for these difficulties. I will take pleasure in giving further details of my case to any lady who will call on me at 67 Mill street.

FOSTER'S PATENT

Deck-Reefing Gear.

By the application of this GEAR, the Topsails of any vessel may be Reefed from the deck with remarkable facility, and carry sail much longer than when rigged in any other way. This Gear can be readily applied to any old rig, and at less expense than any other now in use.

The following is an extract from a letter recently received from Capt. Pickering, of the ship Ocean Rover, of Portsmouth, concerning its merits:—

"It has given me *perfect satisfaction*, and I have only to regret that it is not applied to all the topsail yards. On the passage to this port, (Charleston, S. C.,) I experienced strong gales from the S. W. and had occasion to use it several times, and on every occasion it worked finely."

Morning Chronicle.

NEW YORK, March 2.—The libel suit in the matter of the memoirs of the late Dr. Judson, Edward H. Fletcher against Charles B. Norton, was brought to a close to-day by a verdict for the *defendant*.

This is a righteous verdict. The plaintiff, Fletcher, is a publisher of books, and the defendant Mr. Norton, editor of Norton's Literary Gazette. Mr. Fletcher is the publisher of a biography of Rev. Dr. Judson, which is cheaper than Dr. Wayland's work on that subject, and therefore competes with it, and works serious injury to the orphan children of Mr. and Mrs. Judson, who own the copyright of Dr. Wayland's work, and who need all they can get from it. Mr. Norton published in his paper a *letter* from Dr. Wayland, on the subject of Fletcher's book, and for this the action was brought.

Dr. Wayland expressed some honest feelings of virtuous indignation and contempt for the mercenary conduct of Fletcher; and for this expression the worthy F. brought this libel suit which is now thrown back in his face with the verdict, *served him right.*

Mrs. Judson appealed to Fletcher's sense of honor, honesty and humanity, in a letter, some time ago: his answer showed that he could not appreciate such ideas; and then she rejoined in another letter which must have pierced the soul of a man who had one; but it only seems to have hit F.'s pocket: hence the libel suit, with this proper finale.

The New York papers say that the "bruisers" of that city have had entire control of the primary elections in that city for years past. That, in fact, Bill Poole, Morrissey, and others, have made and unmade Mayors, Aldermen, Municipal Judges, &c., at their pleasure. Hence, the perfect impunity which they have hitherto enjoyed, whenever they have seen fit to shoot, stab, knock down and drag out their foes.

Mayor Wood seems to be breaking up some of the nests where the eggs of villany used to be hatched.

ASSAULT IN THE STATE PRISON, CHARLESTOWN.—On Saturday last, a person named McGee, who is confined on a sentence for killing his wife, had arranged a plan of escape from the prison, which was, or was supposed by McGee, to be revealed by another prisoner, Thomas Mooney, who worked in the same stone shed with him. McGee determined on revenge, struck Mooney on the back of the head with a sharp stone-hammer, inflicting a frightful wound. The wound is so serious that Mooney's recovery is considered doubtful.

DEATH FROM TAKING ETHER.—At Lynn, on Tuesday, Mrs. Mary Farley, wife of Michael Farley, visited the office of Dr. Davis, dentist, who administered ether preparatory to operating on her teeth. Perceiving that respiration had ceased, batteries and other means were used to restore the patient, but it was too late, and she died in the operating chair. A post mortem examination was made by Drs. Newell and others, who found that one of the lungs adhered to the side, which prevented the free action of that organ. The deceased leaves two young children.

NEW ORLEANS IN DANGER OF AN OVERFLOW.—Fears are entertained in New Orleans, that when the spring rains begin to fall, and the immense quantity of snow which has fallen on the upper Mississippi and its numberless tributaries, shall have melted, the city will be in danger of an overflow. It was some five or six years ago, we believe, that the levee which protects the city gave way, and a large portion of the city was inundated. The damage to property was immense, and the recollection of it now makes the inhabitants apprehensive lest they should be overtaken by a similar disaster.—*Boston Chron.*

Detroit papers give an amusing account of the recent adventures of Captain Chilvers, of the steamer Mohawk. Desiring to extricate his boat from the ice which holds her tight, he sunk a torpedo beneath the vessel and fired it. As it was some time in "going off," the captain went out upon the ice to examine as to the trouble, and while there it exploded, sending him up into the air. Fortunately he landed plump in the water and got a good ducking, in lieu of the bruises he might have received had he fallen upon the ice.

Morning Chronicle.

TUESDAY, MARCH 6, 1855.

CLOSE OF CONGRESS.—Congress adjourned at about noon on Sunday. On Saturday, the President vetoed the bill giving additional patronage to the Collins steamers, and the bill was lost. All the appropriation bills were got through in some shape. The civil and diplomatic bill passed without the tariff amendment. The salaries of the Judges of the Supreme Court were raised $2,500 each. The increase of the army was carried, and $2,500,000 was appropriated to carry it into effect.

The Senate bill giving 20,000,000 acres of land to old soldiers was passed, in the House on Wednesday, 185 to 89.

They struck out 92 to 74, that contemptible provision whereby the soldiers in Massachusetts were to be deprived of their land, because Gov. Strong would not put them under U. S. officers.

On Friday, the Senate concurred in these amendments of the House; and, as it is distinctly reported by the telegraph that the bill has been signed by the President; it is thus a law.

The bill, as passed, includes only the surviving soldiers of the war from 1790 to this time, their widows, and children who are now minors. This description embraces a comparatively small number of persons. The vast majority of the soldiers are dead, their widows have followed them, and their children are advanced in life.

In regard to the Civil Appropriation bill, the House concurred with the Senate in striking out the tariff part of the bill, by a vote of 86 to 80.

The bill was sent back to the Senate with 148 amendments. The Senate agreed to 104; the House receded from 44; the bill was thus passed by both houses shortly before noon on Sunday, and became a law.

Many of these amendments are doubtless of great importance, but we must await further information to learn their nature.

COURT OF CLAIMS.

One of the most important and beneficial laws passed by Congress for many years, is that just enacted for establishing a Court of Claims. Messrs. Gilchrist of New Hampshire, Lumpkin of Georgia, and Blackford of Indiana, are the Judges; and Montgomery Blair is Solicitor.

This Court will save much time to Congress; much delay to claimants; and greatly promote the ends of justice and honesty between our government and people.

MR. METCALF A COMMISSIONER.—*Messrs. Editors:*—Having seen in your paper Mr. Burke's denial that Ralph Metcalf accepted the office of Commissioner of the Circuit Court, which gives him jurisdiction under the fugitive slave act, I have called at the office of the Clerk of the Circuit Court here, and am authorized to say that the Commission to Mr. Metcalf was issued at the May Term, 1851, and that he accepted it by a letter dated May 23d, 1851. K. SHELDON.

☞ Rev. John B. Daly, Catholic Priest, of Concord, publishes a letter in the Patriot of Friday, denying *in toto* the charge of having electioneering money, or exerting any direct influence in politics. He has lately received a sum of money; but it is to build a church. His letter is well written, and reads like a true man telling a true story.

A GOOD VETO.—President Pierce must have the credit of vetoing one bill, (the steamer bill,) which seemed to us devised on purpose to give a great and useless bonus to a set of sharp operators. Honor to whom honor is due, say we.

SHARKEY NOT APPOINTED.—We are glad to see, that Mr. Sharkey, (of whom we gave some notice in the Morning Chronicle of Monday,) is not one of the new Court of Claims.

The General of the Jesuits has addressed a circular dated Rome, Jan. 10, to the provincials of the order in which he instructs them how to act with respect to the different forms of political government. The company of the Jesuits being, he says, solely a religious order and devoted exclusively to the salvation of men's souls, the various members of it are everywhere to act as faithful subjects of the government under which they live, and in no case to interfere.

And everybody, we suppose, especially the Yankees, are expected to believe, (with the utmost greenness,) that the Jesuits do every thing openly and above board. Tell this to the marines.

☞ The Baptist Church at Malden Centre was totally consumed by fire, last Friday night: caused by an incendiary.

APPOINTMENTS CONFIRMED BY THE SENATE.—WASHINGTON, March 4.—The Senate confirms Israel D. Andrews as Consul General for the British North American Provinces; John H. Brodhead, Consul General at Simoda, Japan; Montgomery Blair, (after debate) Solicitor in the Court of Claims.

COURT COMMON PLEAS—ROCK. CO.

EXETER, FRIDAY, March 2.

In case No. 146, Jonathan Prescott and John H. Pike v. Dudley Morris, Jr. and Geo. R. Norris, the jury returned a verdict last evening, that "upon the pleas of not guilty the defendants are guilty in manner and form, as the plffs. have thereof alleged against them, and assess damages in the sum of forty-five dollars and fifty-nine cents,—and as to the second plea, plead by said Geo. R. Norris, the jury find that said Geo. R. Norris was an infant, under the age of twenty-one years, as in same plea is alleged."

Lucien Ayer was sentenced on Thursday, to five years' hard labor in the State Prison.

The Court adj. on Friday evening until Monday morning next, March 5.

MONDAY, March 5.

In petition of Thomas Brown et als. for a highway in Hampton, the exceptions were over-ruled, with the exception of the 8th, and it was ordered that the report be re-committed to Road Commissioners, for correction as to the 8th exception.

In the afternoon about 30 Irishmen from Portsmouth, took out their naturalization papers.

It is expected that the Court will adjourn this afternoon for two weeks—until March 16.

CORRECTIONS.—The name of one of the speakers at the American meeting in Exeter, on Thursday afternoon last, should have been given Cairy, and not Gerry, as we printed on Saturday. A gentleman, probably belonging to the American party, who attended the meeting from this city, says our report was incorrect—that the meeting was very fully attended, close attention given to the speakers, and a good deal of interest manifested in the proceedings. The account we published was from a correspondent who doubtless, like us, cares much more for political principles than for parties.

The name of the gentlemanly and efficient Conductor on the South Berwick & Great Falls Branch Railroad, is Moses Kenney, and not Moses Harvey, as we printed on Saturday. There is "no mistake" in the man, if the type setter did mistake his name.

HORRIBLE DISCOVERY—*Ten Persons Perished on the Prairies.*—We are furnished by a gentleman from Lafayette, Ind., with the details of a rumor current in that city, on Thursday, which fills the mind with horror, in view of the sufferings of the party to whom it refers.

On the Saturday preceding the memorable storm of the 21st of January, two families, numbering ten persons, moving from Southern Indiana to Northern Illinois, arrived at Oxford, the county seat of Benton county, Ind., about forty miles northwest of Lafayette, with two ox teams, and well provided with necessaries for the road. They remained there through the storm, and on Monday morning resumed their journey. The next Tuesday morning a man passing over a prairie, only about five miles from Oxford, came upon a sight which filled him with horror.

The carcases of two oxen, from which the viscera had been removed, lay upon the ground. Inside of one of them were the frozen bodies of four children, and in the other the frozen corpse of the mother, with a nursing infant at her breast. Under the snow was a heap of ashes, in which the iron of the wagons showed that the party had broken them up, and burned everything they had in them, in the effort to save their lives. Not far from this spot was found the body of the other woman of the party, partly concealed in a snow drift, and near her one of the men.—The two other men had not been found.

It is probable that the party became inextricably involved in the snow drifts on the prairie, and lost their presence of mind. After burning up their wagons it would seem that the men had killed two of the oxen for a shelter to those found in them, and then, accompanied by one woman, vainly endeavored to reach the town they had left, and procure aid to rescue their companions. The two other oxen had wandered off. There was nothing about the persons to indicate who they were, and nothing more is known about them than was accidentally communicated by them during their brief stay at Oxford.—*Chicago Press, Feb. 24.*

THE AFRICAN SLAVE TRADE.—The Hon. C. F. Mercer, in a letter to Rev. R. R. Gurley, dated London, Dec. 15th, says:—"Perhaps you do not know, as I am only recently informed, of the vast extent of the Northern African slave trade. My friends, Mr. and Mrs. Abbott S. Lawrence, met at the upper cataract of the Nile, three hundred African girls, of great beauty, in one coffle, brought sixty days' journey over the burning sands of Zahara, for the Egyptian market. Their feet were raw, their bodies nearly naked, their countenances haggard. Such is the fruit of the traffic.

The Mayor of New Orleans has called the attention of the city government to the great danger the city is exposed to from the Spring flood, and asks to have action to avert the impending danger.

A resolution has been introduced into the Legislature of Louisiana to revoke the invitation to John Mitchell to visit the capitol. It was laid on the table.

NEW YORK, March 3.—The Dunkirk express train, which left this city yesterday morning at 7 o'clock, when near Cattaraugus, at 11.30 last evening, was thrown from the track by the breaking of a wheel under the baggage car. The baggage car and a passenger car were considerably broken up.—Fortunately, there was no one seriously injured. The train was detained some eight or ten hours, blocking up the road, and preventing the passage of other trains.

LOCAL.

NATIONAL PARTIES.

On Monday morning, as we are told, a large number of people, (some say 45 and some 96,) who looked very much like Irishmen, took passage from this city for Exeter, to be naturalized at the court there.

The foreign auxiliaries, we take it, are called in to fight against the Hindoos, who have invaded the State in large numbers, and are about to swallow it up, if we may judge from the demonstrations of danger in the Daily Patriot.

The presence of these two opposing bodies of outlandish voters, together with the usual quota of Swiss troops, make our election quite interesting and very dubious. It is rather to be hoped that a true American feeling and action will prevail, favorable to liberty of conscience and liberty of person; restraining vice with a strong hand, and making charity begin at home but not end there.

It is reasonable to suppose that some benevolent and patriotic citizens have made up a purse to pay the charges of naturalizing these new voters; as they can hardly be thought to be full of money at the end of a hard winter. Perhaps the operation will be the means of saving the Union: and perhaps it will not.

☞ The Collector of this port informs us, that the Irishmen who were naturalized, were not at the Custom House on Saturday; and that he had nothing to do with the transaction.

MUSIC IN EXETER.

Several lovers of the old music in Exeter, attended and aided in the Old Folks' Concerts in this city; and were desirous of enjoying something singular among themselves.—To Maj. A. P. Blake, of the Squamscot House—who has thus proved himself equally as capable of getting up a good feast of music as of more tangible material,—belongs the honor of the three entertainments of this sort, which the citizen of Exeter have enjoyed.—We were happy in being able to accept a polite invitation to join in the third, which was given at the First Baptist Church, on Friday evening last, with the most complete success. The committee of arrangements were, Maj. Blake, Dea. John T. Gordon, and John B. Hill, Esq., and everything bespake skill and fidelity on their part.

The choir consisted of upwards of 70 performers, of whom fourteen were instrumental, viz., two clarionets, three violins, five single and two double-bass viols, a bassoon and an opheiclide. The programme of ancient sacred harmony, was sung through with the proper spirit and accuracy, which bore testimony to the skill with which the musical director, Mr. Gordon, waved his baton. Old Windham was sung without instrumental accompaniment; and the words "Broad is the road that leads to death," &c., were "decaconed off," as in old times. The Ode on Science brought down the house, and *had* to be repeated—which caused a friend in whose company we attended the concert, to remark that the audience must be more patriotic than religious; but when the Old Folks' Song was received with entire and impressive silence, he was forced to change his opinion, and to own that they knew how to appreciate and express sentiment. Old Hundred wound up the entertainment in grand style. The house was crowded, and the net proceeds for the poor must have been considerable, as due regard to economy was had in the arrangements.

Among the orchestra, as violinist, was Mr. Benj. B. Thompson, who is teacher of a grammar school for boys and girls, in Exeter. He teaches music to his scholars, and is to give a concert with them on Tuesday evening. His school comprises fifty, from ten to sixteen years old; and one-half the number can sing the chromatic scale! A valuable acquisition is such knowledge to the children; and such capacity in any teacher of the young.

THE PRINTERS' LOTTERY.—Formerly it was customary with the proprietors of the various printing offices in this city, to bid for printing the town accounts, &c.—the lowest offer being accepted. Within a few years a new and better plan has been adopted. The printers agree upon a fair price for the job, and then draw lots to see who shall do it.—This is a very fair sort of a scheme—the price of a ticket is, the being proprietor of a printing office, and the blanks are only three to one prize. The Chronicle office drew the prize, at the annual meeting on Saturday last.

PICTURE FAIR.—It will be seen by Mr. Wenzell's Advertisement, that a public exhibition of the Portsmouth Art Union, will be made during the present week, at Rechab Hall, Market street, and the Dividend will be made on Thursday evening of next week. This collection of Pictures is unusually fine, and some of them very valuable, with splendid frames. A few more tickets, perhaps the best, are for sale.

HOWARD BENEVOLENT SOCIETY.

The Treasurer of this society acknowledges the receipt of $100, with the following note. The concerts were pleasant occasions in themselves, and have given some seasonable aid to a worthy charity:

PORTSMOUTH, March 5, 1855.

To the Treasurer of the Howard Benevolent Society.

I herewith inclose check for one hundred dollars, which I tender you in behalf of those members of the several choirs and instrumental performers of this city, who voluntarily assisted in the two concerts given in aid of the Howard Benevolent Society. This amount remains after deducting the expenses necessarily incurred for rehearsals and use of books.

We hope at the opening of another winter to unite together for the same benevolent object; and that the public will respond to our efforts, and thus contribute our mutual gifts to relieve the sorrows of the afflicted.

Very Respectfully,
Yours, in behalf of the Choir,
WM. R. PRESTON.

"Old Folks" Choir.

AGREEABLY to adjournment, the Old Folks Choir will meet at Exchange Hall on Wednesday Evening, March 7, at half-past 7 o'clock, for Rehearsal of the ancient sacred music, preparatory to the third Concert to be given during the fourth week of March proximo—in aid of the Howard Benevolent Society. All who took part in the other Concerts, are invited to attend—and any who may not do so, are requested to leave the music books with either of the Committee of Arrangements, (Nath'l T. Moulton, N. L. Folsom, Thos. Norton, John Christie, A. Perry,) immediately. Per order,

The Greatest Medical Discovery of the Age, is

AYER'S CATHARTIC PILLS.

They don't *help* complaints, but they *cure* them.
One Box has cured Dyspepsia.
Three Boxes have cured the worst cases of Scrofula
Two Boxes have cured Erysipelas.
One Box always cures the Jaundice.
Three Boxes are sure to cleanse the system from Boils—often less than one does it.
Two Boxes have completely cured the worst of ulcers on the leg.
Small doses seldom fail to cure the Piles.
One dose cures the headache arising from a foul stomach.
Strong doses often repeated expel every worm from the body. They should be given to children, who are always more or less afflicted with this scourge.
As a gentle Physic they have no equal.
One Box cures derangement of the Liver.
Half a Box cures a Cold.
They purify the Blood, and thus strike at the foundation of every disease.
As a Dinner Pill there is not their equal in the world.
They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good.
Prepared by DR. J. C. AYER, Lowell, Ms., and sold by every respectable Druggist in New England.

ARRIVAL OF THE STAR OF THE WEST.

NEW YORK, March 4.—The steamer Star of the West, from San Juan, Nic., noon of 23d ult., arrived here this evening, with nearly 200 passengers, and about $650,000 in specie on freight. She touched at Key West for coal on the 27th.

The Spanish Consul at Key West had issued a proclamation, by order of the Captain General of Cuba, declaring the whole coast of said island in a state of blockade, and also stating that all vessels bound to any port in the island, or that might be found cruising along the coast, would be boarded and searched by Spanish vessels of war.

The U. S. steamer San Jacinto was to leave for Havana on the 18th.

Mining prospects are improving under the recent rains.

Trade is slightly better. Meat provisions looking up.

Robberies, murders, and Lynch executions continued.

Sixty-five dead bodies in all have been recovered from the wreck of the steamer Pearl, at Sacramento. Some twenty persons are still missing. The boat has been raised, and is repairing.

A severe gale visited Salt Lake City, Jan. 1, doing much damage. The Legislature of Utah convened on the 8th of December.—First messenger from California had arrived at Salt Lake.

The 44th ballot for U. S. Senator resulted as follows:—Gwin 35, Edwards 34, Roman 18, Broderick 11, McCorkle 3, scattering 7.—Whole number of votes cast 108.

Lynch law was prevailing to an extent hitherto unknown in the State. As many as 20 men had been hung by the mob since the 1st of January.

The total number of lives lost by the explosion of the steamer Pearl is ascertained to be 67.

NEW YORK, March 5th.—The steamship Black Warrior arrived here this morning, with Havana dates to the evening of the 27th ult. The blockade of the different ports of Cuba still continued, but the steamers were not retarded in their movements.

No new arrests had transpired, but great military preparations were going on.

WASHINGTON, March 4, 1855.—Nearly everything which it was expected would be acted on by Congress was disposed of, except Mr. Evans's bill to settle the claims of the revolutionary officers, which failed of the President's signature.

The new Brigadier General was not appointed. Lieut. Col. E. V. Sumner has been appointed Senior Colonel in the new regiments.

Mr. Upham of Massachusetts, from the Investigating Committee on the Smithsonian Institution, made a report to the House decidedly against the management of the institution. I am told that Professor Henry used his influence to suppress this report with the testimony it embraces, but it was nevertheless ordered to be printed. The report is a very strong document. Mr. Witte of Pa., made a minority report on the other side.

The President has appointed and the Senate has confirmed the following gentlemen to be the judges of the new Court of Claims—John J. Gilchrist of New Hampshire and Joseph H. Lumpkin of Georgia (who are judges of the Supreme Courts in their respective states) and Isaac Blackford of Indiana, who was recently elected on the part of the Senate of that State, to be U. S. Senator, the House electing another individual.

COLUMBIA, S. C., March 4.—The Brownsville Flag states that the merchants of that city are understood to have $60,000 to fit out a fillibustering expedition against Mexico, under Caravajal; and it is added that the citizens of Monterey have pledged themselves to raise $4000 more for a like purpose. This however, is denied, and since the arrival of Gen. Vega, the best feeling had subsisted between the inhabitants of Brownsville, Matamoras, &c.

SYRACUSE, March 4.—The locomotive Essex, of the Cincinnati express train, which left Buffalo at 11 o'clock last night, when at Lyon's, about 3 o'clock this morning, exploded, seriously scalding and otherwise injuring the engineer, Mr. Jas. Day. The fireman, Thomas Adamson, jr., was thrown some four rods, into a ditch, hurt so badly that his recovery is considered doubtful. The cars were under full headway at the time of the disaster, but we do not learn of any other persons being injured.

The Sheriff of Ramsey county, Minnesota, charged $500 for hanging one Indian. A high priced luxury of extreme civilization.

A case was recently tried in Franklin Co., Mass., to recover 45 cents, the value of a basket sold at auction. Four witnesses swore for the defendant that they saw him pay for the basket, while some twelve or fifteen swore for the plaintiff that they did not see it paid for. The magistrate found for the defendant, and the plaintiff appealed. The costs are now about $50.
